Bruseeth, Amy A. Borgens, Bradford M. Jones, Eric D. Ray, 2017-03-03 In 1995 Texas Historical Commission underwater archaeologists discovered the wreck of La Salle's La Belle remnant of an ill fated French attempt to establish a colony at the mouth of the Mississippi River that landed instead along today's Matagorda Bay in Texas During 1996 1997 the Commission uncovered the ship's remains under the direction of archaeologist James E. Bruseeth and employing a team of archaeologists and volunteers Amid the shallow waters of Matagorda Bay a steel cofferdam was constructed around the site creating one of the most complex nautical archaeological excavations ever attempted in North America and allowing the archaeologists to excavate the sunken wreck much as if it were located on dry land The ship's hold was discovered full of everything the would be colonists would need to establish themselves in the New World more than 1.8 million artifacts were recovered from the site More than two decades in the making due to the immensity of the find and the complexity of cataloging and conserving the artifacts this book thoroughly documents one of the most significant North American archaeological discoveries of the twentieth century

Dutch Navies of the 80 Years' War 1568-1648 Bouko de Groot, 2018-10-18 The tiny new state of the United Provinces of the Netherlands won its independence from the mighty Spanish empire by fighting and winning the Eighty Years War from 1568 and 1648 In this long conflict warfare on water played a much bigger role in determining the ultimate victor On the high seas the fleet carved out a new empire growing national income to such levels that it could continue the costly war for independence Yet it was in coastal and inland waters that the most decisive battles were fought Arguably the most decisive Spanish siege Leiden 1574 was broken by a fleet sailing to the rescue across flooded polders and the battle of Nieuwpoort in 1600 the largest successful invasion fleet before World War II was one of the most decisive battle in western history Using detailed full colour artwork this book shows how the Dutch navies fought worldwide in their war of independence from Brazil to Indonesia and from the Low Countries to Angola **Slave Ships and Slaving** George Francis Dow, 1927 A collection of six traditional fairy tales from Germany Italy France the U S S R Finland and Sweden illustrated by the well known Russian artist Nikolai Ustinov *The Seaforth Bibliography* Eugene Rasor, 2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official
