Rise And Fall Of Economic Justice And Other Papers:

The Rise and Fall of Economic Justice, and Other Papers Crawford Brough Macpherson, 1985 Aspects of 20th century democracy such as economic justice human rights industrial democracy property pluralism and the roots of liberalism are explored in this wide ranging collection of essays which expands on the analyses made in two of Macpherson's earlier books *Democratic Theory* and *The Life and Times of Liberal Democracy* Closely considering the past ups and downs of the concept of economic justice Macpherson reaches a disturbing conclusion that the concept is likely to wither away Macpherson's subject matter ranges from an examination of the extent to which human rights are implemented in different parts of the world to the probable future of workers participation in industrial decision making in both capitalist and socialist countries to a discussion of the roots of modern liberalism that also reexamines Hobbes this time as an economist Taking a sweeping look backwards over the history of theory this book elicits the role of economic assumptions in political theory and opens new doors to an understanding of state class and property Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title and author *Liberty, Desert and the Market* Serena Olsaretti, 2004-09-23 Are inequalities of income created by the free market just In this book Serena Olsaretti examines two main arguments that justify those inequalities the first claims that they are just because they are deserved and the second claims that they are just because they are what free individuals are entitled to Both these arguments purport to show in different ways that giving responsible individuals their due requires that free market inequalities in incomes be allowed Olsaretti argues however that neither argument is successful and shows that when we examine closely the principle of desert and the notions of liberty and choice invoked by defenders of the free market it appears that a conception of justice that would accommodate these notions far from supporting free market inequalities calls for their elimination Her book will be of interest to a wide range of readers in political philosophy political theory and normative economics **Alasdair MacIntyre** Peter McMyler, 2005-08-18 This is the first full length account of MacIntyre's work for the social sciences His work is shown to provide the resources for a powerful critique of liberalism and as the inspiration for a critical social science of Modernity **Just Words** Joel Bakan, 2017-06-22 The Canadian Charter of Rights is composed of words that describe the foundations of a just society equality freedom and democracy These words of justice have inspired struggles for civil rights self

determination trade unionism the right to vote and social welfare Why is it then that fifteen years after the entrenchment of the Charter social injustice remains pervasive in Canada Joel Bakan explains why the Charter has failed to promote social justice and why it may even impede it He argues that the Charter's fine sounding words of justice are just words Freedom equality and democracy are fundamental principles of social justice The Canadian Charter of Rights and Freedoms entrenches them in Canada's highest law the constitution Yet the Charter has failed to promote social justice in Canada In Just Words Joel Bakan explains why Sophisticated in its analyses but clearly written and accessible Just Words is cutting edge commentary by one of Canada's rising intellectuals *The Good Citizen* David Batstone, Eduardo Mendieta, 2001 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company

Property, Power and Human Rights Laura Dehaibi, 2024-02-12 Through deconstructing the right to property this incisive book critically assesses the claim that international human rights law is universal Laura Dehaibi presents an innovative bottom up and dialogical approach to human rights lived universalism that draws on lived experience in the margins to give rights a subversive and emancipatory meaning **Democracy and Possessive Individualism** Joseph H. Caren, 1993-09-14 C. B. Macpherson was one of the leading political theorists in North America and perhaps the most influential voice on the left for a view of liberal democracy that was simultaneously sympathetic to its aspirations and critical of its achievements His work provides the contributors to this volume with a common starting point from which to reflect upon the possibilities for critical perspectives on liberal democracy in light of the demise of its Marxist rival The volume as a whole addresses the following questions What if anything remains valid in previous left critiques of liberal democracy including Marxist critiques And what new critical and constructive alternatives can the left offer to challenge the status quo The contributors to this volume from both the Anglo American and Continental traditions include Joseph Caren William Connolly Virginia Held John Keane Ernesto Laclau William Leiss Jane Mansbridge Louise Marcil Lacoste Mihailo Markovic Chantal Mouffe Nancy Rosenblum and James Tully

Formal Transgression Eddy M. Souffrant, 2000 This book is an important contribution to the emerging field of ethics and international affairs Eddy Souffrant delineates John Stuart Mill's philosophy of international relations showing how a particular philosopher engaged with his world through philosophical analysis Souffrant offers a critique of that engagement and he suggests a number of theoretical and practical implications of Mill's work for contemporary domestic and global issues The book argues that Mill's support for colonization is consistent with his overall philosophy of international relations but demonstrates that only an additional independent analysis of colonization could find fault with both Mill's argument for and his support of colonization The book includes an analysis of utilitarian group responsibility Although Mill's concept of group responsibility is narrowly construed Souffrant concludes with the claims that Mill's philosophy of international relations extends his social and political philosophy and that an ethics of international affairs privileges fundamentally a concept of group responsibility **The Real World of Democracy** C. B. MacPherson, 1992 In *The Real World of Democracy*

C B Macpherson examines the rival ideas of democracy the communist Third World and Western liberal variants and their impacts on one another Macpherson who was a professor of political science at the University of Toronto and an Officer of the Order of Canada suggests that the West need not fear any challenge to liberal democracy if it is prepared to re examine and alter its own values
