Rise Of The Asian Superpowers:

Rise of the Asian Superpowers from 1945 Nigel De Lee,1987-01-01 Surveys the modern history of countries such as Japan China and India and discusses the conflicts between Asian nations **Leadership and the Rise of Great Powers**

Xuetong Yan,2020-12-22 A leading foreign policy thinker uses Chinese political theory to explain why some powers rise as others decline and what this means for the international order Why has China grown increasingly important in the world arena while lagging behind the United States and its allies across certain sectors Using the lens of classical Chinese political theory Leadership and the Rise of Great Powers explains China s expanding influence by presenting a moral realist theory that attributes the rise and fall of great powers to political leadership Yan Xuetong shows that the stronger a rising state s political leadership the more likely it is to displace a prevailing state in the international system Yan shows how rising states like China transform the international order by reshaping power distribution and norms and he considers America s relative decline in international stature even as its economy education system military political institutions and technology hold steady Leadership and the Rise of Great Powers offers a provocative alternative perspective on the changing dominance of states *The Rise of Asia* Frank B. Tipton,1998-05-29 The shifting balance of economic power away from Western Europe and the United States and towards East and Southeast Asia firstly Japan then the small Tiger economies and now the larger nations of Southeast Asia and China the potential Dragons has provoked anger dismay and a search for the secrets of growth and for lessons to be learned The Rise of Asia brings together recent scholarship analysing the process of economic social and political development in East and Southeast Asia from the mid nineteenth century to the present day *India's Rise to Power in the Twentieth Century and Beyond* S. Gordon,1994-11-13 sober and extremely well researched book Inder Malhotra Business World very detailed and up to date account Richard Newman Times Higher Education Supplement This book examines the economic and technological basis for India s rise to power and the political factors that shape the nature of the power it will develop into It shows that while India has concentrated on many of the scientific and technical capabilities that serve the needs of a rising power it has not been able to achieve a balanced process of development This imbalance feeds sub national political discontent and undercuts the very power that India has sought to acquire thus delaying her rise to power

Central Asia and the Rise of Normative Powers Emilian Kavalski,2012-10-15 This book offers a unique analytical investigation of the international politics of the EU China and India in the context of their security strategies in Central Asia It shows how the interaction between these three actors is likely to change the frameworks and practices of international relations This is studied through their interactions with central Asia using the framework of normative powers and the concept of regional security governance Briefly a normative power shapes a target state s attitudes and perceptions as it internalizes and adopts the perspectives of the normative power as the norm The work comparatively studies the dynamics that have allowed Beijing Brussels and New Delhi to articulate security mechanisms in Central Asia and become rising

normative powers This innovative study does not aim to catalog foreign policies but to uncover the dominant perceptions cognitive structures and practices that guide these actors regional agency as exemplified through the context of Central Asia It will be an essential resource for anyone studying international relations international relations theory and foreign policy analysis

Southeast Asia and the Rise of Chinese and Indian Naval Power Sam Bateman, Joshua Ho, 2014-06-03 This book examines the emerging maritime security scene in Southeast Asia It considers highly topical implications for the region of possible strategic competition between China and India the rising naval powers of Asia with a possible naval arms race emerging between these countries both with naval force development and operations As part of its Look East policy India has deployed naval units to the Pacific Ocean for port visits and exercises both with East Asian navies and the US Navy but India is also concerned about the possibility of the Chinese Navy operating in the Indian Ocean Even as the US India defence relationship continues to deepen the US and China are struggling to build a closer links China's and India's strategic interests overlap in this region both in maritime strategic competition or conflict which might be played out in the Bay of Bengal the Malacca and Singapore Straits and the South China Sea The sea lines of communication SLOCs through Southeast Asian waters constitute vital choke points between the Indian and Pacific Oceans carrying essential energy supplies for China and other Northeast Asian countries Any strategic competition between China and India has implications for other major maritime players in the Pacific and Indian Oceans especially Australia the Republic of Korea and Japan as well as the US This book identifies possible cooperative and confidence building measures that may contribute to enhanced relations between these two major powers and dampen down the risks associated with their strategic competition

Superpower, China? Historicizing Beijing's New Narratives Of Leadership And East Asia's Response Thereto Niv Horesh, Hyun Jin Kim, Peter Mauch, 2014-10-27 This book sets out to answer how China's rise can best be understood from both East Asian and Western perspectives It also assesses the prospect of realignment away from the US hegemony in East Asia in light of persistent regional rivalries Throughout the book the authors show that for China's neighbours as well as for its own intellectuals historicizing the country's rise provides one way of understanding its current ascendant trajectory on the one hand and acute social problems on the other To which historical precedent should one turn Did Japanese Prime Minister Abe Shinzo get it right when he recently likened the contemporary Sino Japanese relationship to that of Germany and Britain on the eve of World War I Is Harvard Law School's Noah Feldman correct in his assertion that China and the United States are on the verge not of a Cold War but of a Cool War in which a classic struggle for power is unfolding at the same time as economic cooperation is becoming deeper The authors examine these questions and also focus on other observations that becloud China's rise

Shifting Power in Asia-Pacific? Enrico Fels, 2016-11-03 This book investigates whether a power shift has taken place in the Asia Pacific region since the end of the Cold War By systematically examining the development of power dynamics in Asia Pacific it challenges the notion that a wealthier and militarily more powerful

China is automatically turning the regional tides in its favour With a special emphasis on Sino US competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power CIAP that includes 55 variables for 44 regional countries and covers a period of twenty years Moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts By addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing

South Asian Regionalism Chakma, Bhumitra, 2020-07-22 Leading South Asia expert Bhumitra Chakma explains the politics of regionalism in South Asia and traces the origins and evolution of the South Asian Association for Regional Cooperation SAARC from its inception to the present day He takes an International Relations perspective and engages three major IR theoretical approaches neorealism institutionalism and constructivism to explain the complex dynamics of South Asian regionalism Using comparative perspectives based on the experiences of similar regional organizations the author provides an in depth analysis of the challenges of cooperation in the region and explores how progress might be made in the future

Sea Power and the Asia-Pacific Geoffrey Till, Patrick Bratton, 2012-02-07 This volume examines the rise and fall of sea powers in the Asia Pacific region
