Rise Of The Baltic Question:

The Rise of the Baltic Question Walther Kirchner, 1970 **The Rise of the Baltic Question** Walther Kirchner, 2011-10-01 **The Baltic Question During the Cold War** John Hiden, Vahur Made, David J. Smith, 2008-03-07

This edited volume presents a comprehensive analysis of the Baltic question which arose within the context of the Cold War and which has previously received little attention. This volume brings together a group of international specialists on the international history of northern Europe. It combines country based chapters with more thematic approaches highlighting above all the political dimension of the Baltic question, locating it firmly in the context of international politics. It explores the policy decision making mechanisms which sustained the Western non recognition of Soviet sovereignty over the Baltic States after 1940 and which eventually led to the legal restoration of the three countries statehood in 1991. The wider international ramifications of this doctrine of legal continuity are also examined within the context both of the Cold War and of relations between post soviet Russia and the enlarging Euro Atlantic area. The book ends with an examination of how this Cold War legacy continues to shape relations between Russia and the West.

Swedish Naval Administration, 1521-1721 Jan Glete, 2010. This book is a long term study of organisational capabilities as parts of early modern state formation. Sweden was a largely non maritime society which nevertheless maintained a large navy as part of the armed forces which created a Baltic empire. Many of the resources came from the peasant society which was exploited in an entrepreneurial fashion by a highly ambitious dynasty. For a long time Sweden was organisationally more advanced than its neighbours but the empire ceased to grow and finally collapsed when other Northern powers developed strong states. The book provides detailed information about the strength of the navy in terms of warships, equipment, guns and men, and it relates changes in size and structure to changes in policy.

The Fall of an Empire, the Birth of a Nation Chris Chulos, Timo Piirainen, 2017-12-01. This title was first published in 2000. A collection of articles by Russian and Western experts on nationalism. The objective of the work is to give an overview of the new Russian identity building and of the historical continuities that lie behind this ongoing process. The main theme is the shift from empire and imperial consciousness characteristic both of the imperial Russia and the Soviet Union towards a new identity as a nation state. Ultra nationalism and the threat posed by ultra right extremists groups is also among the most important themes in the book. The rising nationalist extremism is one of the several major projects that seek to redefine the Russian nationhood. The ultra nationalist challenge is examined in several articles. The anatomy of extreme Russian nationalism is also examined through a case study of a small militant group of extremists.

The Age of Wars of Religion, 1000-1650 Cathal J. Nolan, 2006-04-30. The Age of Wars of Religion saw navies, armies, armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores. Wars of religion were fought in and between all the major religions and civilizations from Europe to China, in Africa and in the isolated Americas, mixing motives of knightly idealism, mercenary greed and competing claims of divine sanction. This unparalleled work traces

the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi'ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires
