Rise Of The Gunbelt The Military Remapping Of Industrial America:

The Rise of the Gunbelt Ann R. Markusen, 1991 Index and bibliographical references included **The Rise of the Gunbelt** Ann Markusen, 2023 This monograph argues that America's economic landscape has undergone a profound transformation since 1945 as a result of the rise of the military industrial complex and the formation of a new industry based on defence spending **Abolition Geography** Ruth Wilson Gilmore, 2022-05-10 THE POLITICS OF ABOLITION The first ever collection of writings from one of the foremost contemporary critical thinkers on racism geography police brutality and mass incarceration filled with sharp intelligence and even wit Gilmore forces us to think of race class prisons and the world in entirely new ways NPR Gathering together Ruth Wilson Gilmore's work from over three decades Abolition Geography presents her singular contribution to the politics of abolition as theorist researcher and organizer offering scholars and activists ways of seeing and doing to help navigate our turbulent present Abolition Geography moves us away from explanations of mass incarceration and racist violence focused on uninterrupted histories of prejudice or the dull compulsion of neoliberal economics Instead Gilmore offers a geographical grasp of how contemporary racial capitalism operates through an anti state state that answers crises with the organized abandonment of people and environments deemed surplus to requirement Gilmore escapes one dimensional conceptions of what liberation demands who demands liberation or what indeed is to be abolished Drawing on the lessons of grassroots organizing and internationalist imaginaries Abolition Geography undoes the identification of abolition with mere decarceration and reminds us that freedom is not a mere principle but a place Scholars like Ruthie Gilmore filmmakers like Ava Duvernay have all done work to expose the many injustices of the industry of our prison system Jay Z Time **From Bible Belt to Sunbelt: Plain-Folk Religion, Grassroots Politics, and the Rise of Evangelical Conservatism** Darren Dochuk, 2010-12-13 A prize winning five decade history of the evangelical movement in Southern California that explains a sweeping realignment of American politics From Bible Belt to Sun Belt tells the dramatic and largely unknown story of plain folk religious migrants hardworking men and women from Oklahoma Texas and Arkansas who fled the Depression and came to California for military jobs during World War II Investigating this fiercely pious community at a grassroots level Darren Dochuk uses the stories of religious leaders including Billy Graham as well as many colorful lesser known figures to explain how evangelicals organized a powerful political machine This machine made its mark with Barry Goldwater inspired Richard Nixon's Southern Solution and achieved its greatest triumph with the victories of Ronald Reagan Based on entirely new research the manuscript has already won the prestigious Allan Nevins Prize from the Society of American Historians The judges wrote Dochuk offers a rich and multidimensional perspective on the origins of one of the most far ranging developments of the second half of the twentieth century the rise of the New Right and modern conservatism [The British Economy in Transition](#) Royce Logan Turner, 1995 An examination of attempts at economic regeneration in areas that have experienced decline in traditional industry Coal steel

defence textiles and the motor industry are discussed by an expert in the area **Understanding the Firm** Michael Taylor, Päivi Oinas, 2006-12-21 Firms are at the very heart of modern day life They come in a seemingly infinite variety from transnationals to small firm from corporations to branch plants to subsidiaries and joint ventures from subcontractors to franchisees from sole proprietorships to partnerships from manufacturers to service providers and retailers For the most part we view them as the creators destroyers and repositories of jobs the creators and destroyers of people s livelihoods lives and dreams But deciding just what a firm is is neither a simple nor a straightforward task Against a background of the dynamic complexity and plurality that business forms and firms can assume there is a constant search within academic research for the processes that create and maintain both enterprise and enterprises in capitalist societies a search for a theory of the firm This book addresses some of the gaps in the current state of the theory of the firm from an economic geography perspective issues around the boundaries of the firm the collective agency of the firm the political firm financial markets and the state and the firm in place *American Corporate Economy* William Lazonick, 2002 The Myth of Southern Exceptionalism Matthew D. Lassiter, Joseph Crespino, 2010 The Myth of Southern Exceptionalism dismantles clichés about regional distinctiveness and rewrites modern American history through a national focus on topics such as the civil rights movement conservative backlash and liberal reform the rise of the Religious Right the emergence of the Sunbelt and the increasing diversity of the suburbs *Cold War Country* Joseph M. Thompson, 2024-03-22 Country music maintains a special decades long relationship to American military life but these ties didn t just happen This readable history reveals how country music s Nashville based business leaders on Music Row created partnerships with the Pentagon to sell their audiences on military service while selling the music to servicemembers Beginning in the 1950s the military flooded armed forces airwaves with the music hosted tour dates at bases around the world and drew on artists from Johnny Cash to Lee Greenwood to support recruitment programs Over the last half of the twentieth century the close connections between the Defense Department and Music Row gave an economic boost to the white dominated sounds of country while marginalizing Black artists and fueling divisions over the meaning of patriotism This story is filled with familiar stars like Roy Acuff Elvis Presley and George Strait as well as lesser known figures industry executives who worked the halls of Congress country artists who dissented from the stereotypically patriotic trappings of the genre and more Joseph M Thompson argues convincingly that the relationship between Music Row and the Pentagon helped shape not only the evolution of popular music but also race relations partisanship and images of the United States abroad Militarization and the American Century David Fitzgerald, 2022-01-13 Taking American mobilization in WWII as its departure point this book offers a concise but comprehensive introduction to the history of militarization in the United States since 1940 Exploring the ways in which war and the preparation for war have shaped and affected the United States during The American Century Fitzgerald demonstrates how militarization has moulded relations between the US and the rest of the world Providing a timely synthesis

of key scholarship in a rapidly developing field this book shows how national security concerns have affected issues as diverse as the development of the welfare state infrastructure spending gender relations and notions of citizenship It also examines the way in which war is treated in the American imagination how it has been depicted throughout this era why its consequences have been made largely invisible and how Americans have often considered themselves to be reluctant warriors In integrating domestic histories with international and transnational topics such as the American empire of bases and the experience of American service personnel overseas the author outlines the ways in which American militarization had and still has global consequences Of interest to scholars researchers and students of military history war studies US foreign relations and policy this book addresses a burgeoning and dynamic field from which parallels and comparisons can be drawn for the modern day
