

Four years of coal phase-outs in Europe

In 2015, the UK was the first country in the world to announce an explicit coal phase-out. Since then, a further 14 European countries have announced that they will phase-out coal generation.

These countries are on a journey. One country, Belgium, has already phased out coal, but for most countries this journey will take a decade, or longer.

- Dark Green: No Coal Generation
 - Light Green: Phase-out coal by 2030 or earlier
 - Grey: Phase-out coal only after 2030
 - Yellow: Phase-out under discussion
 - Red: No phase-out discussion
- GW: Current operating capacity of coal-fired power plants in gigawatts (GW) (Oct 2020)

Rise And Decline Of Industry In Central And Eastern Europe

Valentina Meliciani

Rise And Decline Of Industry In Central And Eastern Europe:

Rise and Decline of Industry in Central and Eastern Europe Bernhard Müller, 2005 In the course of the tremendous political and economic upheaval starting in 1989 1990 many industrial cities and regions in Central and Eastern Europe have been confronted with profound problems This book presents eleven detailed national reports which describe the situation in such cities and regions as well as the strategies which have been employed to cope with structural change The country reports are complemented by short case studies of selected cities and regions An introduction gives background to such topics as structural change and the ramifications of EU enlargement Finally some conclusions are drawn and recommendations offered for future policy

Rise and Decline of Industry in Central and Eastern Europe Bernhard Müller, Maros Finka, Gerd Lintz, 2005-08-29 In the course of the tremendous political and economic upheaval starting in 1989 1990 many industrial cities and regions in Central and Eastern Europe have been confronted with profound problems This book presents eleven detailed national reports which describe the situation in such cities and regions as well as the strategies which have been employed to cope with structural change The country reports are complemented by short case studies of selected cities and regions An introduction gives background to such topics as structural change and the ramifications of EU enlargement Finally some conclusions are drawn and recommendations offered for future policy

Computer Modelling in Atmospheric and Oceanic Sciences Peter Müller, 2004 In the course of the tremendous political and economic upheaval starting in 1989 1990 many industrial cities and regions in Central and Eastern Europe have been confronted with profound problems This book presents eleven detailed national reports which describe the situation in such cities and regions as well as the strategies which have been employed to cope with structural change The country reports are complemented by short case studies of selected cities and regions An introduction gives background to such topics as structural change and the ramifications of EU enlargement Finally some conclusions are drawn and recommendations offered for future policy

Regional Disparities in the Enlarged European Union Valentina Meliciani, 2015-10-14 The last twenty years have seen an increase in European integration and the emergence of the technological revolution Although tighter integration coupled with technological innovation should facilitate cross regional convergence some European regions have managed to jump ahead while others have been left behind This book examines the regional characteristics that favour growth and analyses the relevance of innovation socio economic and structural factors in shaping regional economic disparities In this book particular attention is devoted to the EU enlargement towards the East to its consequences on Europe's traditional North South divide and to the increasing regional disparities in new member states after the transition It demonstrates the growing importance of innovation and human capital in explaining the increase in income and employment disparities in old EU members particularly after the 2008 financial crisis It also shows that for newcomers regional disparities are essentially linked to socio economic factors as capital regions approach Western standards while others

mainly old industrial regions and peripheral ones lag behind This book integrates theoretical discussion with empirical evidence and will appeal to regional scientists interested in regional inequalities and to policy makers concerned with devising effective strategies to tackle regional disparities in Europe *The Economic History of Central, East and South-East Europe* Matthias Morys, 2020-12-29 The collapse of communism in Central East and South East Europe CESEE led to great hopes for the region and for Europe A quarter of a century on the picture is mixed in many CESEE countries the transformation process is incomplete and the economic catch up has taken longer than anticipated The current situation has highlighted the need for a better understanding of the long term political and economic implications of the Central East and South East European historical experience This thematically organised text offers a clear and comprehensive guide to the economic history of CESEE from 1800 to the present day Bringing together authors from both East and West the book also draws on the cutting edge research of a new generation of scholars from the CESEE region Presenting a thoroughly modern overview of the history of the region the text will be invaluable to students of economic history and CESEE area studies

Encyclopedia of Violence, Peace, and Conflict, 2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world [A Life Cycle for Clusters?](#) Kerstin Press, 2006-09-05 rium states but on the development process following an external shock Kerstin Press adopts a new methodological approach She develops a theoretic model of clusters change and adaptation that is based on the

N K model of complex systems Kauffman 1993 Taking the existing insight on the dynamics of NK systems propositions on the influence of cluster architecture on adaptability are derived In a second step these propositions are tested by simulations comparing the adaptability of clusters with given differences in their architecture regarding the degree of division of labour on the one and the governance structure on the other hand Both aspects division of labour governance were found to matter for cluster adaptability in previous empirical studies but general causalities for their role in cluster adjustment could not be derived from individual case studies Within the all else held equal perspective adopted in the simulation model one explanation for how and when division of labour and governance matter for cluster adjustment is found While the model faces several limitations these are more to be seen as possible areas for future research The present study opens up new avenues in cluster research Rather than just focussing on emergence or existence clusters are viewed as entities underlying a dynamic development The analysis of their adaptability to external changes constitutes a first important step towards a non deterministic perspective on cluster development

Central and Eastern Europe, 1991 **Recent Developments in the Coalmining Industry** International Labour Organisation. Sectoral Activities Programme, International Labour Organisation. Coal Mines Committee, 1994 **The Rise and Fall of Privatization in the Russian Oil Industry** L. Sim, 2008-10-24 A study of the actors and institutions that shaped decision making on privatization in the Russian oil industry between 1992 and 2006 The book analyses the origins of privatization as a policy on a macro industry wide level as well as presenting three in depth case studies of privatization on a company level
