[Living with Disappointment in the Face of Environmental Crisis](#) Arne Johan Vetlesen, 2025-09-12 While the impacts of climate change become increasingly severe efforts to prevent them suffer one blow after the other as seen in the rise of far right populist parties in Western democracies Why does denialism thrive when blatantly contradicted by the realities before our very eyes be it wild fires floods drought and melting glaciers Should we abandon the assumption that the more solid the knowledge about climate change the more eager will ordinary people as well as political leaders be to take action This book sets out to explain the contradiction witnessed between knowledge and action Inspired by Clive Hamilton's claim that denial is due to a surplus of culture rather than a deficit of information the book critiques the focus on cognitive dissonance in individual agents advocated by climate psychology as well as the individualistic bias in liberal political theory To get out of the current theoretical as well as political impasse the author suggests three moves are necessary from knowledge to first hand experience and so to feelings from the tension within the individual to the social organization of denial and from the obsession with personal responsibility nowadays in the guise of building resilience to exposing the complicity of the culture of neoliberalism in the intimately intertwined crisis of politics and the climate alike A highly timely and sharp analysis of the roots of inaction and denial and possible strategies for resistance the book will appeal to scholars and upper level students with interests in social political and environmental philosophy and psychology political

theory and environmental studies *Beyond Harm* Derek R. Brookes, 2019-05-11 We have all been hurt by someone in some cases very seriously And we have all inflicted pain on someone else even if it was unintended The consequences have often been devastating and continue to this day We find ourselves stuck in anger fear isolation disbelief bitterness self blame denial guilt or shame Our friends and family plead with us to move on and put the past behind us But it's never that simple There is no magic wand that can instantly sweep away this kind of pain So what can we do How can we find some peace Is it possible to heal from what has happened Would some kind of punishment make a difference Do we need to forgive Would an apology help How can we find a way out of this agonising hurt and negativity Will it ever be possible to make things right *Beyond Harm* explores all of these questions and offers a way forward The first Part looks at what it means to be wronged and why it hurts so much It sets out an explanation for why we react to wrongdoing in the ways that we do so many of which only cause us more suffering and pain And it offers an alternative a kind of justice that can bring the healing and peace that we crave This is a response that honours our moral values and acknowledges our common humanity It is also evidence based it takes seriously how we actually think and feel about wrongdoing The second Part builds on the first by exploring what it would take for this alternative to become a reality It shows how it is possible to make things right by using a tried and tested practice called restorative justice and what is needed for this approach to be safe and effective **CBT for Compulsive**

Sexual Behaviour Thaddeus Birchard, 2015-05-15 Increasing numbers of therapists are coming into contact with the problem of compulsive sexual behaviour disorders However it is still a relatively new field and there is little in the current literature available that enables the therapist to work with and treat this problem *CBT for Compulsive Sexual Behaviour* A guide for professionals addresses this by providing a guide to cognitive behavioural theory and practice which includes the assessment diagnosis and treatment of addictive sexually compulsive disorders Beginning with a description of addictive sexuality and an overview of cognitive behavioural therapy in which CBT is presented as the most useful response Thaddeus Birchard provides clear therapeutic information about the implementation of CBT treatment intervention The chapters included cover the neuroscience that underpins the addictive process a how to chapter on the use of groups paraphilias trauma and attachment comorbid disorders and cross addictions and analysis on the function of internet pornography all written from a cognitive behavioural stance Using case vignettes throughout Thaddeus Birchard draws on his own experience as a psychosexual therapist along with the latest research in the field to enable the therapist to treat a range of compulsive sexual problems in a way that can be applied in individual practice or in a group setting as well as how to prevent relapse This book will be essential reading for psychosexual therapists cognitive behaviour therapists and other professional working with sexual compulsive disorders **Restorative Justice Theory and Practice: Addressing the Discrepancy**
