The Rise of Interactive Governance and Quasi-Markets S.A. Denters,Oscar van Heffen,J. Huisman,P.J. Klok,2013-06-29 It has taken a long time to make this book Many initial drafts of the chapters published in this book were presented in November 2000 during a two day conference on Interactive governance towards a post parliamentary democracy held in Enschede The Netherlands The Netherlands Institute of Governance NIG sponsored the conference After this conference the organisers discussed the possibility of making a book on the basis of papers presented at this event In the end it was agreed that such a publication would indeed be worthwhile provided the initial papers were fundamentally revised Moreover it was agreed that also supplementary chapters should be included in order to strengthen the international comparative perspective On this basis authors of the conference papers chapters and envisioned new chapters were invited to re submit drafts The completion of the book however was unexpectedly halted by the tragic sudden death of our co editor and dear friend Oscar van Heffen In his lifetime he was the driving force behind this project Without his efforts insightful comments and helpful suggestions this book in its present form would never have been published As such we dedicate this volume to his memory the completion of the book being an honorary debt to our friend and his wife Mirjan

Interactive Governance Jacob Torfing,B. Guy Peters,Jon Pierre,Eva Sørensen,2012-01-12 Governance has become one of the most commonly used concepts in contemporary political science It is however often used to mean a variety of different things This book helps to clarify this conceptual muddle by concentrating on one variety of governance interactive governance The authors argue that although the state may remain important for many aspects of governing interactions between state and society represent an important and perhaps increasingly important dimension of governance These interactions may be with social actors such as networks

with market actors or with other governments but all these forms represent means of governing involving mixtures of state action with the actions of other entities This book explores thoroughly this meaning of governance and links it to broader questions of governance In the process of explicating this dimension of governance the authors also explore some of the more fundamental questions about governance theory For example although governance is talked about a great deal political science has done relatively little about how to measure this concept Likewise the term multi level governance has become widely used but its important to understand that idea more fully and see how it functions in the context of interactive forms of governance The authors also link governance to some very fundamental questions in political science and the social sciences more broadly How is power exercised in interactive governance How democratic is interactive governance and is democratic governance always advanced through transparency

Managing Uncertainties in Networks Johannes Franciscus Maria Koppenjan,Erik-Hans Klijn,2004 Despite sophisticated technology and knowledge the strategic networks and games required to solve uncertainties becomes more complex and more important than ever before

Critical Reflections on Interactive Governance Jurian Edelenbos,Ingmar van Meerkerk,2016-08-26 In many countries government and society have undergone a major shift in recent years now tending toward smaller government and bigger society This development has lent increased meaning to the notion of interactive governance a concept that this book takes not as a normative ideal but as an empirical phenomenon that needs constant critical scrutiny reflection and embedding in modern societies

Remaking Market Society Antonino Palumbo,Alan Scott,2017-07-14 Neoliberalism has been one of the most hotly contested themes in academic and political debate over the last 30 years Given the global and persistent influence of neoliberal ideas on contemporary styles of governance social service provision and public policy this intensive interest is understandable At the same time the use of the term has become loose vague and over extended particularly in the extensive critical literature Rather than engage in further critique or in the reconstruction of the history of neoliberalism this volume seeks to bring analytical clarity to the ongoing debate Drawing inspiration from the work of the Hungarian economic historian Karl Polanyi Remaking Market Society combines critique original formulations and case studies to form an analytical framework that identifies the key instruments of neoliberal governance These include privatization marketization and liberalization The case studies examine the development of neoliberal instruments reform of the British civil service their refinement reform of higher education in England and Wales and their dissemination across national borders EU integration policies Rather than look back nostalgically on the post war welfare state settlement in the final chapter the authors ask why the coalitions that supported that settlement broke down in the face of the neoliberal reform movement This highly original work offers a distinctive transdisciplinary approach to political economy and therefore is an important read for students and academics who are interested in political economy as well as social theory and political philosophy

Local Economic and Employment Development (LEED) Local Governance and the Drivers of Growth OECD,2005-12-01 Innovation skills

entrepreneurship and social cohesion are key drivers of growth Each has a strong governance component which is analysed in this OECD book *Democratic Network Governance in Europe* M. Marcussen, J. Torfing, 2006-11-14 In Northern and Western Europe and within the EU governance networks are increasingly conceived as an efficient and legitimate way of formulating and implementing public policy in a complex differentiated and multilayered world This book assesses the recent experiences with governance at local national and transnational levels *Sustainability in European Environmental Policy* Rob Atkinson, Terizakis Georgios, Karsten Zimmermann, 2010-10-18 This book examines sustainability in European environmental policy and explores the related challenges of governance and knowledge featuring cross national and comparative case studies on nine European countries *Local Participatory Governance and Representative Democracy* Nils Hertting, Clarissa Kugelberg, 2017-07-20 Over the past few decades and throughout the world numerous government initiated experiments and attempts at directly engaging and including citizens have emerged as remedies for a variety of problems faced by modern democracies including political disaffection and insufficient capacity to deal with the complexity inherent in many contemporary public problems such as climate change and segregation In practice these attempts are given many names such as citizen panels deliberative fora collaborative dialogues etc In the academic literature as well the phenomenon falls under many different headings for instance collaborative deliberative or interactive governance Participatory Governance and Representative Democracy refers to this empirical phenomenon as local participatory governance that is government sponsored direct participation between invited citizens and local officials in concrete arrangements and concerning problems that affect them Participatory governance we argue may take many forms regarding 1 type of interaction and type of communication between participants within the specific participatory arrangement e g deliberative vs aggregative as well as regarding 2 the relation and connection between the specific arrangement and the more traditional representative structures e g compatible incompatible transformative or irrelevant The proposed edited volume addresses the matter of institutionalization highlighting the difficulties associated with establishing stability and a shared understanding of the roles and rules among citizens local politicians and administrators in participatory arrangements
