Rising From The Ruins Reason Being And The Good After Auschwitz:

Rising from the Ruins Garth Gillan, 1998 *Rising from the Ruins* is an assessment of reason being and the good in a world fractured by the passage of the Shoah or Holocaust. The historical character of evil that appeared in the Shoah damaged the relationship of human existence to being, creating a time when the confidence of reason to possess the truth no longer exists. *Rising from the Ruins* relocates the relationships among being, reason, and the good in terms of a metaphysics, ethics, and politics that derive from faith and heteronomy. Rather than another attempt to document the horror of the Shoah, this book chronicles what the world is like for those who have read and listened to previous accounts. *Rising from the Ruins* doesn't celebrate surviving the Holocaust; instead, it speaks of a rationality that sees truth and the good through the eyes of suffering and the silence of death. Such a rationality, Gillan suggests, looks more like faith and it takes its place among the sweat and tears of common men and women who are dedicated to building a human city populated with children, the poor, the sick, and the aged.

Adorno on Politics after Auschwitz Gary A. Mullen, 2015-12-30 In the minds of many critical theorists, Theodor W. Adorno epitomizes the failure of critical theory to provide any concrete guidance for political practice. His name is almost synonymous with the retreat of the progressive intellectual from the creeping totalitarianism of contemporary mass democracy. This book endeavors to disrupt this misconception by offering a close reading of Adorno's philosophical confrontation with the Holocaust and the modern conceptions of history, morality, and subjectivity that are complicit in genocide. By rethinking the relationship between reason and remembrance, morality and materiality, mimesis and political violence, Adorno's work offers not only incisive criticism of modern political ideas and institutions; it also shows us intimations of a different political practice.

Human Rights for Refugees and Other Marginalised Persons Devorah Wainer, 2023-08-07 This book provides a new framework for conducting qualitative research into Asylum Seeking Refugees based on Emmanuel Levinas's ethic of the face-to-face encounter. The methodology originates in the term *Midrash*, a narrative form that exposes, investigates, and searches. It reconceptualises encounters between Asylum Seeking Refugees and those

researching their experiences in a manner that moves beyond the possibility of Othering and the removal of voice that can characterise research into refugees This methodology allows a complex and rich multidimensional text with heterogeneity of voices experiences and subjects As a phenomenological method of research the internal phenomena of the researcher feeling intuition and personal perception are legitimate sites of knowledge and understanding and are not considered separate from the external objectively observable world While the researcher is not researching herself she is also not separate from the research field and data The Midrash methodology is an honest and explicit method of research designed to re invigorated the passion of academics and researchers

Bradley, 2022-11-08 This book is an update extension and radicalization of Guattari s philosophy of the postmedia It is the first of its kind to comprehensively apply Guattari s thought on postmedia to post millennium technological developments Given the considerable interest in F lix Guattari and Gilles Deleuze s work and its influence in Asia and South East Asia and beyond the book is a timely contribution and update of Guattari s essential concepts It offers a fresh approach to applying Guattari and Deleuze to local contexts Both F lix Guattari s schizoanalysis and Gilles Deleuze s philosophy remain excellent tools to decode the politics of postmedia The book centres around the influence of Guattari s work on the Japanese archipelago and how Japan itself impacted on the work of Guattari in the 1980s The book updates Guattari s work and apply it to the problems which are affecting societies in Asia and beyond It highlights current research on postmedia by scholars who are working to understand how Japanese society is functioning post Fukushima and how the country continues to toil from the geo trauma of the real The Genocidal Mind Dennis B.
