Islam and the Trajectory of Globalization Louay M. Safi, 2021-10-18 The book examines the growing tension between social movements that embrace egalitarian and inclusivist views of national and global politics most notably classical liberalism and those that advance social hierarchy and national exclusivism such as neoliberalism neoconservatism and national populism In exploring issues relating to tensions and conflicts around globalization the book identifies historical patterns of convergence and divergence rooted in the monotheistic traditions beginning with the ancient Israelites that dominated the Near East during the Axial age through Islamic civilization and finally by considering the idealism realism tensions in modern times One thing remained constant throughout the various historical stages that preceded our current moment of global convergence a recurring tension between transcendental idealism and various forms of realism Transcendental idealism which prioritize egalitarian and universal values pushed periodically against the forces of realism that privilege established law and power structure Equipped with the idealism realism framework the book examines the consequences of European realism that justified the imperialistic venture into Africa the Middle East and Latin America in the name of liberation and liberalization The ill conceived strategy has ironically engendered the very dysfunctional societies

that produce the waves of immigrants in constant motion from the South to the North simultaneously as it fostered the social hierarchy that transfer external tensions into identity politics within the countries of the North The book focuses particularly on the role played historically by Islamic rationalism in translating the monotheistic egalitarian outlook into the institutions of religious pluralism legislative and legal autonomy and scientific enterprise at the foundation of modern society It concludes by shedding light on the significance of the Muslim presence in Western cultures as humanity draws slowly but consistently towards what we may come to recognize as the Global Age The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003203360> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

THE SIXTH SEAL II Cliff Kelly, 2024-01-30 Today we are witnessing the historically powerful American Order experiencing perhaps its greatest peril as it struggles against the tidal wave of new challenges from Covid 19 the rapid rise of Christian Nationalism large scale Apostasy and an increasingly divided nation streaming toward increased violence and possibly even Civil War Dr Kelly takes on these growing trends by examining Scripture by Scripture the Sixth Chapter of the Book of Revelation as a Template to help explain the reasons for the current Crisis and where America is likely headed if we do not effectively and biblically confront it He argues that these events constitute the many Birth Pangs leading up to the stunning Return of Jesus Christ to rescue His true Church and judge the nations But before that Day Christians in America and around the world must prepare to move through those first tumultuous Seals as God sifts and separates the true follower of Christ from the impostors This is a riveting ride and the reader is urged to have a Bible and a notepad close by as we explore what Dr Kelly termed in the first edition of this book *The End of History as We Know It 2*
