Rising Sun World War 2:

The Rising Sun Arthur Zich, History Channel Club, 2003 **Killing the Rising Sun** Bill O'Reilly, Martin Dugard, 2016-09-13 Across the globe in Los Alamos New Mexico Dr J Robert Oppenheimer and his team of scientists are preparing to test the deadliest weapon known to mankind In Washington DC FDR dies in office and Harry Truman ascends to the presidency only to face the most important political decision in history whether to use that weapon And in Tokyo Emperor Hirohito who is considered a deity by his subjects refuses to surrender despite a massive and mounting death toll Told in the same page turning style of *Killing Lincoln* *Killing Kennedy* *Killing Jesus* *Killing Patton* and *Killing Reagan* this epic saga details the final moments of World War II like never before **The Rising Sun** John Toland, 2003-05-27 The Rising Sun is quite possibly the most readable yet informative account of the Pacific war Chicago Sun Times This Pulitzer Prize winning history of World War II chronicles the dramatic rise and fall of the Japanese empire from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki Told from the Japanese perspective The Rising Sun is in the author's words a factual saga of people caught up in the flood of the most overwhelming war of mankind told as it happened muddled ennobling disgraceful frustrating full of paradox In weaving together the historical facts and human drama leading up to and culminating in the war in the Pacific Toland crafts a riveting and unbiased narrative history In his Foreword Toland says that if we are to draw any conclusion from *The Rising Sun* it is that there are no simple lessons in history that it is human nature that repeats itself not history Unbelievably rich readable and exciting The best parts of Toland's book are not the battle scenes but the intimate view he gives of the highest reaches of Tokyo politics Newsweek *The Rising Sun* Arthur Zich, 1980 ***The Rising Sun ; World War 2*** Arthur Zich, 1977 *The Eagle and the Rising Sun* Alan Schom, 2004 On Saturday August 2 1941 the Washington Post reported that President Franklin D Roosevelt would depart the next day for a fishing vacation aboard his yacht Potomac By the morning of August 5 the Potomac was sailing toward the fishing waters off Cape Cod but the president was not on board Having quietly disembarked in the middle of the night the president now joined by his top military advisors was headed for Newfoundland where the U S and British governments would meet in a secret summit to coordinate their military efforts although the United States had yet to declare war on Germany The British were appalled at the state of American preparedness one British colonel remarking They have a long way to go before they can play any decisive part in the war But ready or not the United States would be catapulted into World War II within a matter of months Alan Schom's superb histories and biographies have been lauded for their dramatic sweep their focus on extraordinary personalities and their refreshingly iconoclastic perspective Schom begins this magisterial account of World War II in the Pacific by demonstrating an ironic paradox on one hand the American government and people were as inadequately prepared for war as any major power ever has been on the other the Japanese high command plunged headlong into the Pacific campaign despite clear evidence from their own analysts that Japan had too little oil and too feeble an

economy to prevail against the United States. It was a war that should not have been fought. Schom recounts a tense saga of diplomatic maneuvering, strategic blunders and pivotal successes played out in the halls of the White House, Downing Street and the Imperial Palace as well as on the seas and shores of the Pacific. Key figures in the war come vividly to life in a series of brilliant biographical sketches: Emperor Hirohito, a devotee of Western pursuits such as golf and jazz who hungered to expand Japan's global reach; the destructively egotistical General Douglas MacArthur whose splendid achievements in World War I stood in stark contrast to his incompetent leadership in the Philippines; Rear Admiral Kelly Turner whose realism and tactical savvy played a crucial role in turning the tide of the war; and the cool-headed Admiral Tanaka Raizo who repeatedly slipped through the Allied net transporting troops and supplies to and from Guadalcanal. The *Eagle and the Rising Sun* embraces the broad strategic concerns of the war and the telling details and turning points of individual engagements. As Rear Admiral Thomas Marfiak, Ret. CEO and publisher of the U.S. Naval Institute writes in the Foreword: "From time to time we are privileged to be given extraordinary insights into the history of our age. Alan Schom has given us a tapestry into which he has woven figures of immense proportions yet he has not lost sight of their humanity." He writes in the grand tradition of Barbara Tuchman's *The Guns of August*. Book jacket: WWII In The Light Of Rising Sun Edgar Wollstone, Japanese Second World War commanders committed suicide, some were captured and executed, some went down with their sinking carriers. If you knew their stories, your perception about Japan may never be the same again. Japan's most decorated commanders of World War Two committing seppuku, Japanese traditional suicide, battle-hardened Japanese Admirals going down with their scuttled ships, captains opting to die with their commanders, Kamikaze attacks where young pilots crash-diving into enemy carriers. Japanese version of Second World War is full of legendary heroism straight out of a fictional book, but how many of us know the Japanese perspective of the bloodiest battle in the history of mankind? Isoroku Yamamoto, Nagumo Chuichi, Hideki Tojo, Tamon Yamaguchi, Emperor Hirohito, all are familiar names of Second World War literature, but what were they really like? What were their intentions and aspirations? Did Japan really dream of world hegemony like the Allies feared? In that case, was America's decision to bomb Japanese cities justified? Can war be justified under any circumstance? Did Roosevelt give the GET YAMAMOTO message: "Was Operation Vengeance a cold-blooded murder of Yamamoto, the right revenge for the sneaky attack on Pearl Harbor?" Read the book to know the least explored Japanese perspective of World War Two. History is written by the victors, but this is a story of the vanquished, the extraordinary story of the Second World War through a Japanese lens.

The Rising Sun World War 2, On Board the USS Boise in World War II Ian S. Bertram, 2025-09-17. The story of the USS Boise CL 47 is one of fear, loss, endurance, fame, triumph and pain. The light cruiser endured a remarkable career through the entirety of World War II with a redemption arc that took its crew from the position of scapegoats to heroes and ultimately to the vanguard of America's liberation forces. One man, Donald D.B. Fitch, witnessed the entire conflict from his battle station on the bridge. The ship conducted secret missions and fought at Guadalcanal, Sicily, New Guinea and the Philippines. Through

Fitch's eyes this book relives the terrors and thrills of naval combat along with the pranks shenanigans and the rumors that were the lifeblood of a ship through four years of war Fitch and his friends fought for each other and their country and in the end they left their mark on history **The Rising Sun** ,1977-01-01 Japanese victories in World War II from Pearl Harbor to Japan's first major defeat in Midway are told in words and many illustrations From Time Life Books
