Comprehensive Children's Mental Health Services in Schools and

Communities Robyn S. Hess, Rick Jay Short, Cynthia E. Hazel, 2013-06-19 Despite the growing emphasis on a population based training and service delivery model for school psychology few resources exist to provide guidance concerning how such services might be conceptualized and put into place In this book the authors propose a public health model for comprehensive children s mental health services that expands rather than replaces the traditional model of school psychology The background and theoretical perspective for this public health model are discussed as an important way to solve problems and accomplish goals in schools after which the authors outline and develop a clear practical procedure for implementing and evaluating programs based on public health ideas A case study in one elementary school walks readers through the stages of applying a public health model detailing the key steps of each stage Finally the authors consider the changes to the role of school psychologist that will be required to practice a public health problem solving model Accompanying downloadable resources contain sample forms handouts and other valuable materials that will be of use to school psychologists implementing this public health model in their schools

Counselling Adolescents Kathryn Geldard, David Geldard, 2004-06-30 The book does provide an excellent resource offering a holistic and flexible approach and a variety of techniques These provide a useful toolkit of practitioners working closely with young people However its core readership is counsellors with young people Though there are now many different kinds of counselling leading to qualification and careful selection is necessary there are few that are particularly oriented towards counselling young people Counselling Adolescents goes a good way towards filling that gap It will be an effective support to the professional counselor working with young people In fact many wonder how they functioned without it Youth Policy This book is a useful text for professionals with knowledge of counselling skills and the ideas are well presented The book gave me the opportunity to question my counselling skills especially with regard to adolescents and in so doing identify areas for progression and further training Emotional Behavioural Difficulties Counselling Adolescents Second Edition includes two new important chapters The first discusses how counsellors can make use of adolescent communication processes Counsellors who understand these processes are better equipped to connect with young clients The second new chapter explores the way in which the psychotherapeutic process can promote change in adolescents The authors suggest that to be an effective counsellor of young people these processes need to be fully understood The book closes with practical case studies to show how counsellors can work pro actively with adolescents This book will be invaluable to those working

with emotionally distressed adolescents and will provide an excellent resource for students and professionals working in a range of helping professions When it comes to working with adolescents in a therapeutic setting counsellors are divided Some work exclusively with adolescents in a successful and fulfilling way however others find it difficult to work with them In this new edition of Counselling Adolescents Kathryn and David Geldard provide a practical introduction to the principles and practices required for successful counselling to show that working with adolescents can be both challenging and effective The book is divided into three main parts covering how to understand the adolescent as a person the pro active approach of working with adolescents the counselling skills and strategies needed TO READ A SAMPLE CHAPTER AND DOWNLOAD RESOURCES FROM THE BOOK PLEASE CLICK HERE [Ellis' Handbook of Mental Deficiency, Psychological Theory and Research](#) William E.
