Gender and Sexuality in Latin America - Cases and Decisions

Cristina Motta,Macarena Saez,2013-05-23 Translated and updated from the seminal Spanish text on legal decisions affecting gender and sexuality in Latin America this English edition is the only law text to focus specifically on the rights of lesbians gays bisexuals and the transgender population in addition to women s rights more broadly The volume provides close analysis of some of the most important decisions made by Latin American national courts as well as those made by international legal bodies that affect the rights and interests of these groups Specially selected for their depth of argument and value as exemplars the studies of good legal practice chart the path of the region s normative values of justice as they have evolved away from a partial and patriarchal exercise of the law They show how cases with vastly differing contexts such as property rights and domestic violence have resulted in a mixed body of Latin American law Some decisions are protective

of women's and minority rights. Some assess the wider social impacts of case law in which recognition of the discrete legal identities within households challenges established precepts including religious ones. Other cases have been chosen as cautionary examples of bad decision making and for the poverty of their legal debate. Updated to include the latest relevant jurisprudence from across the continent, this book is an informed, cohesive and comprehensive guide to understanding women's and gender-based rights in Latin America. *Trager's The Law of Journalism and Mass Communication* Victoria Smith Ekstrand, Caitlin Ring Carlson, Erin Coyle, Susan Dente Ross, Amy Reynolds, 2023-06-26. *Trager's The Law of Journalism and Mass Communication* provides a clear and engaging introduction to media law with comprehensive coverage and analysis for future journalists and media professionals. The Eighth Edition brings the law to life with cutting edge research, the latest court and legislative rulings and a wealth of new content. *A Handbook of Legal Education in Nigeria* Emiri, Oghenemaro Festus, 2018-05-22. This book is on the nature and practice of legal education in Nigeria with comparative material sometimes deployed to shed light on current local situation. The primary goal of legal education is to prepare students for the profession. To do this, a faculty will need to pay attention to a theory of learning to guide it in implementing a programme that will serve the mission. It is hoped that the basic information here provided on the basic structure and content of legal education and ensuing challenges should point in more fruitful directions to all in the legal profession in Nigeria. **Cases on Crimes, Investigations, and Media Coverage** Leonard, Liam James, 2022-07-01. Media has a great influence on the perceptions and opinions of the public throughout varying areas, particularly for crimes investigations and trials. People receive information about these key events through some form of media and the way the facts are represented is crucial to what people will believe. To fully understand the sway media has on public opinion, further study is required. *Cases on Crimes, Investigations and Media Coverage* examines famous crime cases and the media coverage that surrounded them, including film, television and wider media coverage of major crimes such as murders, the investigations that followed and the subsequent trials. Covering critical topics such as press coverage, television biases, news perceptions and film, this reference work is ideal for criminal justice professionals, forensics specialists, criminal justice advocates, journalists, media professionals, psychologists, sociologists, researchers, scholars, academicians, practitioners, instructors and students. **Contextualizing Critical Race Theory on Inclusive Education from A Scholar-Practitioner Perspective** Jose W. Lallas, Heidi Luv Strikwerda, 2023-12-12. Race does not only resonate with the dichotomy of blackness and whiteness but also on its impact on non-physical attributes; this includes factors such as indigenous status, social class, religion, language, ethnicity, class, gender, sexuality and immigration. The intersection of these factors are key considerations on inclusive education. *Resources in Education*, 1999-10. **Perspectives on Legal Education** Chris Ashford, Nigel Duncan, Jessica Guth, 2015-11-19. This edited collection offers a critical overview of the major debates in legal education set in the context of the Lord Upjohn Lectures, the annual event that draws together legal educators and professionals in the United Kingdom to consider the major debates and

changes in the field Presented in a unique format that reproduces classic lectures alongside contemporary responses from legal education experts this book offers both an historical overview of how these debates have developed and an up to date critical commentary on the state of legal education today As the full impact of the introduction of university fees the Legal Education and Training Review and the regulators responses are felt in law departments across England and Wales this collection offers a timely reflection on legal education s legacy as well as critical debate on how it will develop in the future

High Courts in Global Perspective Nuno Garoupa, Rebecca D. Gill, Lydia B. Tiede, 2021-08-27 High courts around the world hold a revered place in the legal hierarchy These courts are the presumed impartial final arbiters as individuals institutions and nations resolve their legal differences But they also buttress and mitigate the influence of other political actors protect minority rights and set directions for policy The comparative empirical analysis offered in this volume highlights important differences between constitutional courts but also clarifies the unity of procedure process and practice in the world s highest judicial institutions High Courts in Global Perspective pulls back the curtain on the interlocutors of court systems internationally This book creates a framework for a comparative analysis that weaves together a collective narrative on high court behavior and the scholarship needed for a deeper understanding of cross national contexts From the U S federal courts to the constitutional courts of Africa from the high courts in Latin America to the Court of Justice of the European Union high courts

perform different functions in different societies and the contributors take us through particularities of regulation and legislative review as well as considering the legitimacy of the court to serve as an honest broker in times of political transition Unique in its focus and groundbreaking in its access this comparative study will help scholars better understand the roles that constitutional courts and judges play in deciding some of the most divisive issues facing societies across the globe From Africa to Europe to Australia and continents and nations in between we get an insider's look into the construction and workings of the world's courts while also receiving an object lesson on best practices in comparative quantitative scholarship today Contributors Aylin Aydin Cakir Yeditepe University Turkey Tanya Bagashka University of Houston Clifford Carrubba Emory University Amanda Driscoll Florida State University Joshua Fischman University of Virginia Joshua Fjelstul Washington University in St Louis Tom Ginsburg University of Chicago Melinda Gann Hall Michigan State University Chris Hanretty University of London Lori Hausegger Boise State University Diana Kapiszewski Georgetown University Lewis A Kornhauser New York University Dominique H Lewis Texas A M University Chien Chih Lin Academia Sinica Taiwan Sunita Parikh Washington University in St Louis Russell Smyth Monash University Australia Christopher Zorn Pennsylvania State University Constitutionalism and Democracy Nineteenth Century Perspectives on Private International Law Roxana Banu, 2018-07-19 Private International Law is often criticized for failing to curb private power in the transnational realm The field appears disinterested or powerless in addressing global economic and social inequality Scholars have frequently blamed this failure on the separation between private and public international law at the end of the nineteenth century and on private international law's increasing alignment with private law Through a contextual historical analysis Roxana Banu questions these premises By reviewing a broad range of scholarship from six jurisdictions the United States France Germany the United Kingdom Italy and the Netherlands she shows that far from injecting an impetus for social justice the alignment between private and public international law introduced much of private international law's formalism and neutrality She also uncovers various nineteenth century private law theories that portrayed a social relationally constituted image of the transnational agent thus contesting both individualistic and state centric premises for regulating cross border inter personal relations Overall this study argues that the inherited shortcomings of contemporary private international law stem more from the incorporation of nineteenth century theories of sovereignty and state rights than from theoretical premises of private law In turn by reconsidering the relational premises of the nineteenth century private law perspectives discussed in this book Banu contends that private international law could take centre stage in efforts to increase social and economic equality by fostering individual agency and social responsibility in the transnational realm *Criminological Theory* Stephen G. Tibbetts, 2011-04-06 Criminological Theory The Essentials sheds light on some of history's most renowned criminologists and their theories In addition policy implications brought about by theoretical perspectives that have developed from recent critical work together with practical applications compel the reader to apply theories to the contemporary social milieu

New Private Law Theory Stefan Grundmann, Hans-W. Micklitz, Moritz Renner, 2021-03-18 New Private Law Theory opens a new pathway to private law theory through a pluralistic approach. Such a theory needs a broad and stable foundation which the authors have built here through a canon of nearly seventy texts of reference. This book brings these different texts from different disciplines into conversation with each other, grouping them around central questions of private law and at the same time integrating them with the legal doctrinal analysis of example cases. This book will be accessible to both experienced and early career scholars working on private law.
