Chinese Aid and African Development D. Bräutigam,1998-06-21 Since 1957 more than 45 African countries have received aid from China yet until

recently little has been known about the effectiveness or impact of this assistance Br utigam provides the first authoritative account of China s experience as an aid donor in rural Africa In a detailed and highly readable analysis the author draws on anthropology economics organization theory and political science to explain how China s domestic agenda shaped the design of its aid and how domestic politics in African countries influenced its outcome Including the Poor Michael Lipton,J. van der Gaag,1993-01-01 Explores the role of government policy in economic development in the Republic of Korea The Republic of Korea has achieved economic success on many fronts Real GNP has tripled every decade since the 1960s A dynamic and flexible manufacturing sector now dominates the economy The benefits of growth have been widely distributed with a sharp decrease in poverty This study like others in the series seeks to draw lessons from such success and to identify and analyze the policies behind this strong economic performance Koreas development strategy and macroeconomic performance are outlined in Part I Several factors are seen to underlie strong growth including the maintenance of a stable macroenvironment flexible and pragmatic policies and investment in infrastructure and human capital Part II assesses the role played by industrial policy since 1961 Particular attention is given to the Heavy and Chemical Industry HCI drive launched in 1973 to diversify and upgrade Koreas industrial sector The authors note that while the HCI has been largely successful it also has been very costly particularly to the financial sector Part III outlines the role of institutions and the close relationships among the government the bureaucracy and business The key to Koreas rapid development according to the authors was the governments commitment to growth and its early focus on equity and wide distribution of the gains from growth The authors also laud the efficiency and effectiveness of Koreas public and private sector institutions which they see as models for all developing nations Workers' Dilemmas Margaret Grieco,2022-08-24 Originally published in 1996 Workers Dilemmas analyses the management skills of those with least resources the women of the urban poor and finds that there is an abundance of evidence on the high levels of managerial competence within this group It is information which has largely been hidden from history This study of poor women s involvement in the world of work corrects this missing record For over a century 1850 1960s women and children travelled from their urban homes in the East End of London to work in the hop picking fields of Kent and Hampshire The scale of the annual migration and the complexity of neighbourhood and household organization it required to provide this volume of labour have escaped the literature Drawing on a variety of historical records and on oral history this book explores the high level of management and occupational skills possessed by the urban poor in their construction of household survival strategies Above all this book highlights the key entrepreneurial role played by women in this labour market and the importance of the financial support provided by this regular seasonal labour for household survival Workers Dilemmas provides a fresh look at how work patterns family structure and community networks interrelate and in the process challenges accepted ideas in the wider fields of anthropology and the sociology of work
