Language across Difference Django Paris, 2011-07-28 Once a predominantly African American city South Vista opened the twenty first century with a large Latino a majority and a significant population of Pacific Islanders Using an innovative blend of critical ethnography and social language methodologies Paris offers the voices and experiences of South Vista youth as a window into how today s young people challenge and reinforce ethnic and linguistic difference in demographically changing urban schools and communities The ways African American language Spanish and Samoan are used within and across ethnicity in social and academic interactions text messages and youth authored rap lyrics show urban young people enacting both new and old visions of pluralist cultural spaces Paris illustrates how understanding youth communication ethnicity and identities in changing urban landscapes like South Vista offers crucial avenues for researchers and educators to push for more equitable schools and a more equitable society

All About Language Barry J. Blake, 2008-04-24 In clear congenial style Barry Blake explains how language works He describes the make up of words and how they re built from sounds and signs and put together in phrases and sentences He examines the dynamics of conversation and the relations between the sound and meaning He shows how languages help their users connect to each other and to the world how they vary around the world why they never stop changing and that no two people speak a language in the same way He looks at how language is acquired by infant children how it relates to thought and its operations in the brain He investigates current trends and issues such as the levelling of linguistic class differences and the rise of new secret or in group languages such as argot and teenspeak He describes the history of writing from its origins to digital diffusion and ends by looking at how language might have originated and then evolved among our distant hominid and primate ancestors Language is crucial to every aspect of our lives whether we re thinking talking or dreaming Barry Blake reveals the wonders that lie beneath the surface of everyday communication enriching his exposition with a unique blend of anecdote and humour His engaging guide is for everyone curious about language or who needs to know more about it

Looking Like a Language, Sounding Like a Race Jonathan Rosa, 2019

Looking like a Language Sounding like a Race examines the emergence of linguistic and ethnoracial categories in the context of Latinidad The book draws from more than twenty four months of ethnographic and sociolinguistic fieldwork in a Chicago public school whose student body is more than 90% Mexican and Puerto Rican to analyze the racialization of language and its relationship to issues of power and national identity It focuses specifically on youth socialization to U S Latinidad as a contemporary site of political anxiety raciolinguistic transformation and urban inequity Jonathan Rosa s account studies the

fashioning of Latinidad in Chicago's highly segregated Near Northwest Side he links public discourse concerning the rising prominence of U S Latinidad to the institutional management and experience of raciolinguistic identities there Anxieties surrounding Latinx identities push administrators to transform at risk Mexican and Puerto Rican students into young Latino professionals This institutional effort which requires students to learn to be and importantly sound like themselves in highly studied ways reveals administrators attempts to navigate a precarious urban terrain in a city grappling with some of the nation's highest youth homicide dropout and teen pregnancy rates Rosa explores the ingenuity of his research participants responses to these forms of marginalization through the contestation of political ethnoracial and linguistic borders
