Clark, 2014-02-15 Teeming with convulsive energy raw brush strokes and Fauvist colors the paintings of Robert Qualters reflect the multifaceted and kinetic spirit of the artist himself In these pages the art historian Vicky A Clark presents the first in depth study of the art and life of this iconic Pittsburgh artist Complemented by over eighty color images Clark follows Qualters's development from early childhood sketches through his recent autobiographical work As she reveals Qualters is truly a quotidian raconteur who infuses allegory narrative and memory into his paintings of urban landscapes neighborhoods lunch counters and amusement parks Here we witness coming of age and sexuality economic hardship working class identities death and rebirth and many other themes both personal and universal As Clark shows Qualters's oeuvre is the culmination of a lifelong artistic journey recalling a host of influences from Japanese prints to Matisse Bruegel and Rembrandt Throughout his career and despite the popularity of his contemporaries many of whom adopted abstract painting Qualters has maintained a distinctly representational style keeping a close link to his audience through the power of visual storytelling *Saint Paul and Philosophy* Gert Jan van der Heiden, George Henry van Kooten, Antonio Cimino, 2017-08-07 The much acclaimed present day philosophical turn to the letters of Saint Paul points to a profound consonance between ancient and modern thought Such is the bold claim of this study in which scholars from contemporary continental philosophy new testamentary studies and ancient philosophy discuss with each other the meaning Paul's terms *pistis* faith In this volume this theme discusses in detail the threefold relation between Paul and 1 continental thought 2 the Graeco Roman world and 3 political theology It is shown that *pistis* does not only concern a mode of knowing but rather concerns the human ethos or mode of existence as a whole Moreover it is shown that the present day political theological interest in Paul can be seen as an attempt to recuperate Paul's *pistis* in this comprehensive sense Finally an important discussion concerning the specific ontological implications and background of this reinterpretation of *pistis* is examined by comparing the ancient ontological commitments to those of the present day philosophers Thus the volume offers an insight in a crucial consonance of ancient and modern thought concerning the question of *pistis* in Paul while not

Sheriff whose unpublished chapter on women artists' self-portraiture opens the book *The Invention of the Self* Andrew Spira, 2020-06-25 This book is an examination of personal identity exploring both who we think we are and how we construct the sense of ourselves through art It proposes that the notion of personal identity is a psycho-social construction that has evolved over many centuries While this idea has been widely discussed in recent years Andrew Spira approaches it from a completely new point of view Rather than relying on the thinking subject's attempts to identify itself consciously and verbally it focuses on the traces that the self-sense has unconsciously left in the fabric of its environment in the form of non-verbal cultural conventions Covering a millennium of western European cultural history it amounts to an anthropology of personal identity in the West Following a broadly chronological path Spira traces the self-sense from its emergence from the collectivity of the medieval Church to its consummation in the individualistic concept of artistic genius in the nineteenth century In doing so it aims to bridge a gap that exists between cultural history and philosophy Regarding cultural history especially art history it elicits significances from its material that have been thoroughly overlooked Regarding philosophy it highlights the crucial role that material culture plays in the formation of philosophical ideas It argues that the sense of personal self is as much revealed by cultural conventions and as a cultural convention as it is observable to the mind as an object of philosophical enquiry *The Road to McCarthy* Pete McCarthy, 2024-01-17 Pete McCarthy established one cardinal rule of travel in his bestselling debut *McCarthy's Bar* Never pass a bar with your name on it In this equally wry and insightful follow-up his characteristic good humor curiosity and thirst for adventure take him on a fantastic jaunt around the world in search of his Irish roots from Morocco where he tracks down the unlikely chief of the McCarthy clan to New York and finally to remote McCarthy, Alaska *The Road to McCarthy* is a quixotic and anything but typical Irish odyssey that confirms Pete McCarthy's status as one of our funniest and most incisive writers *Word & Image in Colonial and Postcolonial Literatures and Cultures* Michael Meyer, 2009 Verbal imagery and visual images as well as the intricate relationships between verbal and visual representations have long shaped the imagination and the practice of intercultural relationships The contributions to

and Nostalgia in Literature and Culture Regina Rudaitytė, 2018-07-27 The advent of the new age has alerted us to the
conflicted nature of historical memory which defined the 20th century while simultaneously assaulting us with new historical
upheavals that demand responsibility and critical consideration As the historical text bears traces of the writing subject the
element of deception is remarkable meaning historical memory easily lends itself to forgery and false and subjective
projections As such how do we think about the past about history about memory and how does memory function Is history an
objective account a collection of dry reliable facts Is it an imaginative narrative tinged with nostalgia a projection of our
wishful thinking the workings of our subjective perceptions and attitudes our states of mind The essays in this volume focus
on the relevance of the past to the present and future in terms of the shifting attitudes to personal and collective experiences
that have shaped dominant Western critical discourses about history memory and nostalgia The contributors here take issue
with the epistemological hermeneutic ethical and aesthetic dimensions of the representational practices through which we
revisit and revise the meaning of the past
