Looking North Northern England And The National Imagination:

Looking North Dave Russell, 2004-10 Investigating areas as diverse as travel literature fiction dialect the stage radio television feature film music and sport this book assesses the portrayal of the North of England within the national culture and how this has impacted upon attitudes to the region and its place within notions of Englishness The relationship between these cultural forms and the construction of regional identity has received only limited consideration and this fascinating work provides not only much new information but also a map for future writers The North although seen ultimately as other and the subject of much critical comment is also shown here as capable of stimulating the creative imagination and invigorating English culture in sometimes surprising ways Regional Identities in North-East England, 1300-2000 Adrian Gareth Green, A. J. Pollard, 2007 Is North East England really a coherent and self conscious region The essays collected here address this topical issue from the middle ages to the present day **'Race,' Space and Multiculturalism in Northern England** Shamim Miah, Pete Sanderson, Paul Thomas, 2020-06-02 This book challenges the narrative of Northern England as a failed space of multiculturalism drawing on a historically contextualised discussion of ethnic relations to argue that multiculturalism has been more successful and locally situated than these assumptions allow The authors examine the interplay between race space and place to analyse how profound economic change the evolving nature of the state individual racism and the local creation and enactment of multiculturalist policies have all contributed to shaping the trajectory of ethnic faith identities and inter community relations at a local level In doing so the book analyses both change and continuity in discussion of and national local state policy towards ethnic relations particularly around the supposed segregation integration dichotomy and the ways in which racialised events are perceived and identities are created and reflected in state policy operations Drawing on the authors long involvement in empirical research policy and practice around ethnicity race and racism in the Northern England they effectively support critical and situated analysis of controversial racialised issues and set these geographically specific findings in the context of wider international experiences of and tensions around growing ethnic diversity in the context of profound economic and social changes *Northernness, Northern Culture and Northern Narratives* Gabby Riches, Karl Spracklen, Spencer Swain, 2018-10-18 Northernness Northern culture and Northern narratives are a common aspect of popular culture and the North of England like other Northernnesses in Europe is a collection of narratives myths stereotypes and symbols In politics and everyday culture Northern culture is paradoxically a site of resistance against an inauthentic South a source of working class identity and a source of elite marginalisation This book provides a key to theorising about Northernness and a platform to scholars working away at exposing the North in different aspects of culture The aims of this book are twofold to re theorise the North and Northern culture and to highlight the ways in which constructions of Northernness and Northern culture are constituted alongside other gender racial and regional identities The contributions presented here theorise Northernness in relation to space leisure gender race class

social realism and everyday embodied practices A main thematic thread that weaves the whole book together is the notion that Northernness and the North is both an imagined discursive construct and an embodied subjectivity thus creating a paradox between the reality of North and its representation This book was originally published as a special issue of the Journal for Cultural Research

Storied Ground Paul Readman, 2018-02-22 The relationship between landscape and identity is explored to reveal how Englishness encompasses the urban and rural and the north and south
