Love Work Children:

Love, Work, Children Cheryl Mendelson, 2007-12-18 Morningside Heights a Manhattan neighborhood sandwiched between Columbia University and the Hudson River is home to an eclectic mix of academics struggling artists and rooted families In this distinctive world Peter Frankel a successful partner in a prestigious law firm lives a seemingly contented life with his talented wife and his two Ivy League educated children Yet in middle age Peter finds himself discontent His wife's narrowness and her preoccupation with appearances leaves him cold his job does not fulfill his creative bent and he fears that his children Susan and Louis have grown into skeptical young adults who shun marriage and stability So when Peter's wife is badly hurt in a car accident and lies in a coma he finds himself guiltily relieved and newly drawn toward his children as they too struggle with ambivalent feelings about the mother who's never really shown them much love As Susan a cerebral doctoral student becomes unhappily involved with an aspiring playwright and Louis is caught up in a futile pursuit of an ambitious journalist Peter's own quiet life is shaken up and longings he has stifled for years come rumbling to the surface Freed from his wife's judgments Peter throws himself into his greatest pleasure the work he does for a foundation that funds offbeat artistic projects And as his passion for this work ignites so does his desire for another woman But the stubborn morality that has steered Peter's life is a force to be reckoned with and one from which he may never entirely escape **Love Work Children** is a profoundly insightful novel about two generations and the colorful urban world they inhabit A superb portrayal of one of New York's exceptional neighborhoods this is a story ultimately about the self-imposed obstacles to true happiness and a testament to the joy one can find in overcoming them [#WorkSchoolHours](#) Dr Ellen Joan Ford, 2024-03-04 Every working parent knows how hard the juggle is Now we know the cause It's time to get work to work better for people Right now we are expected to work as though we don't have kids and parent as though we don't have jobs It is not sustainable It's causing people to leave the workforce or to sacrifice valuable family time and simultaneously hurting organisations as retention and productivity take a nosedive WorkSchoolHours offers us all a better framework one that takes us far beyond how we structure our work schedules to deliver us better commercial outcomes for businesses better careers for all working people and better lives for everyone Building on decades of research and lived experiences WorkSchoolHours gives us practical insights and immediately actionable solutions Let's reduce hours spent working so we can connect more with what matters in life and do it in a way that is commercially smart for organisations Praise for WorkSchoolHours A change the freaking world book Mark Crysell TVNZ SUNDAY correspondent An absolute must read that will linger in your thoughts long after you've turned the final page Steve Jurkovich Chief Executive KiwiBank Even the skeptic in me is totally convinced Eric Chapman Director of Business Transformation EY Ellen's precise wisdom is a game changer Dr Ron McDowall ONZM Director of Rutherford Business Institute A research backed implementable solution where everybody wins Stephania Varalli Story Strategist serial entrepreneur and former CEO and owner of Women of Influence Canada **Developing as a**

Reflective Early Years Professional Carol Hayes, Ruth Hudson, Jayne Daly, Mandy Duncan, 2025-02-28 Helps early years students and practitioners to get to grips with the key issues through a critical and thematic approach which focuses on reflective practice Theories and research into the nature of reflection are examined how they can be used and how they can improve practice producing a more responsive and thoughtful research based workforce for young children and their families In this third edition there is greater emphasis on issues related to inclusion and diversity mental health and communication with parents New pedagogic features include Team Talk designed to get all members of a work based team to pool their expertise and knowledge and to think critically and reflectively upon aspects that may directly affect their settings There is also a new Evidence Informed Research Practice and Reflection feature which offers questions that emphasise the importance of up to date research material informing practice within a setting

Works of Love Robert L. Perkins, 1999 To claim that Works of Love is an important philosophical essay is to assume hazardous burden of proof The book's title is an allusion to the Bible's injunction that we should love our neighbor as we love ourselves a far cry far instance from Diotima's ladder of erotic desire up which we climb from the love of bodies until we catch a vision of that single sea of beauty beauty itself Plato Symposium This contrast given that some of some of our neighbors may not be particularly likable or one may even be a determined enemy suggests immediately to some that a book with such an obviously religious title must be excessively moralistic and at best full of sermon helps for the harried clergy or at worst laden with rules for the unlearned laity A casual perusal of a few paragraphs however shows these put down views of the book to be unfounded

Handbook of Prosocial Education Philip M. Brown, Michael W. Corrigan, Ann Higgins-D'Alessandro, 2012-10-12 Handbook of Prosocial Education is the definitive theoretical practical and policy guide to the prosocial side of education the necessary second side of the educational coin Academic teaching and learning are the first side of education however academic success depends upon the structures and support of prosocial educational efforts from promoting positive school climate to fostering student and teacher development to civic literacy and responsible and critical citizenship participation The Handbook of Prosocial Education chapters written by highly respected researchers and outstanding educators represent the wide range of research based prosocial interventions from pre school through high school The chapters explore and explain how prosocial education helps teachers create effective classroom learning environments to support the development of the whole student principals encourage positive school climate and superintendents work to improve the health and well being of their systems As readers will learn when done well prosocial education develops the capacities and competencies of students teachers and school administrators that lead to a more autonomous positive self concept greater sense of purpose more socially responsible behaviors and increased connections between families schools and communities This book pulls together in one place for the first time the various threads that create the prosocial education tapestry making a compelling case for the necessity of changing national educational policy that continues to be ever more oriented to only the academic side of the educational coin thus jeopardizing the foundational and historic purpose of educating our children for their full human development and participation in our democracy

Gordon Bigelow, 2003-11-20 We think of economic theory as a scientific speciality accessible only to experts but Victorian writers commented on economic subjects with great interest Gordon Bigelow focuses on novelists Charles Dickens and Elizabeth Gaskell and compares their work with commentaries on the Irish famine 1845-1852 Bigelow argues that at this moment of crisis the rise of economics depended substantially on concepts developed in literature These works all criticized the systematized approach to economic life that the prevailing political economy proposed Gradually the romantic views of human subjectivity described in the novels provided the foundation for a new theory of capitalism based on the desires of the individual consumer Bigelow's argument stands out by showing how the discussion of capitalism in these works had significant influence not just on public opinion but on the rise of economic theory itself *Arthur's Home Magazine*, 1881
