Organizing the Curriculum, 2019-02-11 Contemporary American youth live in a culture that ignores or denigrates labor unions Mainstream media cover labor issues only sparingly and unions no longer play much of a role in popular culture texts films or images In our schools labor has been limited to a footnote in textbooks instead of being treated seriously as the most effective force for championing the rights of working people the vast majority of the citizenry Teachers have been convinced that to bring up class or to teach about the labor movement may be construed as taking sides while the all pervasive presence of corporate America in our schools is rarely questioned So for all the talk of schools preparing young people for the work world we are failing to teach them even the basics of how that world is structured or how they can be empowered through collective action Organizing the Curriculum Perspectives on Teaching the US Labor Movement is the first book length treatment of this blind spot in contemporary curriculum and pedagogy Contributors to this collection unionists activists teachers teacher educators and academics interrogate the ways in which knowledge is constructed in school discourses conceptualize pedagogical strategies and curricula that open discussions around class analysis and political economy via studies of the labor movement and put forward an activist vision of education that truly engages young people beyond the classroom walls

BOOK JACKET **India-South Asia Interface** Partha S. Ghosh, 2021-12-22 India South Asia Interface raises the fundamental question How does one make sense of South Asia Conventional wisdom defines it primarily in terms of regional and international politics The failures of the South Asian Association for Regional Cooperation SAARC are emblematic of that wisdom Marking a departure from such approaches Partha Ghosh makes the case that more than merely a political construct South Asia must be understood as a shared social consciousness Through chapters that explore topics such as threats to democracy religion and politics the place of Kashmir different conceptions of regionalism the roles of America and China and the issue of refugees and migrants he demonstrates that there is no escape from reinventing the region from a people's perspective Only this way can South Asia retrieve its soul and replace its cynicism and despair with expectation and hope Based primarily on Ghosh's research articles and newspaper columns written over the last five years the volume can be viewed as an intimate statement of his understanding of the region an understanding that has matured through decades long interactions with the region's academics politicians and the so-called man on the street In some sense the volume is also a semi-autobiographical treatise which spells out Ghosh's systematic evolution as a confirmed South Asianist The region's destiny ought to be wrested he therefore argues from the
