## **Loves Sweet Return The Harlequin Story:**

**An Imperialist Love Story** Amira Jarmakani, 2015-07-31 A curious figure stalks the pages of a distinct subset of mass market romance novels aptly called desert romances Animalistic yet sensitive dark and attractive the desert prince or sheikh emanates manliness and raw sexual power In the years since September 11 2001 the sheikh character has steadily risen in popularity in romance novels even while depictions of Arab masculinity as backward and violent in nature have dominated the cultural landscape An Imperialist Love Story contributes to the broader conversation about the legacy of orientalist representations of Arabs in Western popular culture Combining close readings of novels discursive analysis of blogs and forums and interviews with authors Jarmakani explores popular investments in the war on terror by examining the collisions between fantasy and reality in desert romances Focusing on issues of security freedom and liberal multiculturalism she foregrounds the role that desire plays in contemporary formations of U S imperialism Drawing on transnational feminist theory and cultural studies An Imperialist Love Story offers a radical reinterpretation of the war on terror demonstrating romance to be a powerful framework for understanding how it works and how it perseveres Love and the Novel G. Paizis, 1998-09-07 The popularity of romance fiction is such that it constitutes nearly one quarter of new paperback fiction printed in the world Its success depends on its ability to reflect and articulate the reader s aspirations for a better life and stands at the same time as a testament to her alienation This fresh look at the romantic fiction seeks to discover the reason for its appeal by combining analysis of the poetics of the genre with a study of the real reader s intervention

Transformation of Love Elif Güvendi Yalçın, 2022-11-03 Romances date back to the creation of stories Although the definition of the genre has changed in time from the Ancient Greeks to the Bildungsromans to the 19th century and today s courtship novels both scholarship and widely held attitudes towards romance has remained fixedly and prioritized only the universality unoriginality and continuity of romance fiction instead of its sociocultural effect of promoting positive ideals like female empowerment The portrayal of women in social roles has been in a state of constant change including their relationship with and relation to men This book explores only medieval historical romance fictions and their changes through the course of the time I examine three medieval romances content Walter Scott s Ivanhoe 1920 Kathleen Woodowiss The Wolf and the Dove 1974 and Amanda Quick s Mystique 1995 written in different time periods based on content analysis using Anthony Giddens s 1992 theories of intimacy In addition it will address romance novels views about sex gender and love roles

Imitations of Life Louise McReynolds, Joan Neuberger, 2002-03-29 Uses the under studied genre of melodrama as a critical prism for understanding Russian Soviet history politics and culture in particular the uses to which popular culture was put in the Soviet period **Lolita in Peyton Place** Ruth Pirsig Wood, 2014-01-14 This book analyzes the differences in content reader expectation and social moral ethical functions of the three types of novels in America of the 1950s It challenges the notion that highbrow novels Lolita do important cultural work while popular novels contribute to personal and

social decay and examines how time periods influence the moral content of novels The book separates popular fiction into lowbrow Peyton Place and middlebrow Man in the Grey Flannel Suit and explains that lowbrow like highbrow evolves from the folklore tradition and contains messages about how to be a good man or good woman and how to find a satisfying niche in the social order Middlebrow on the other hand evolves from myth tradition and relates lessons on what personal adjustments need to be made to succeed in the economic order Middlebrow novels most reflect the time and place of their writing because conditions for economic survival change more than conditions for social survival Arguing that what most distinguishes highbrow from lowbrow is the audience highbrow writers try to separate from the flock lowbrow writers to include This study differs from such well known studies of popular fiction as John Cawelti's and Janice Radway's in looking beyond the surface features of plot character and theme The book also challenges arguments that novels in which marriage is women's highest triumph and aggressive heroism men's reinforce limiting cultural paradigms **Edging Women Out**

Gaye Tuchman, Nina E. Fortin, 2012 Before 1840 there was little prestige attached to the writing of novels and most English novelists were women By the turn of the 20th century men of letters acclaimed novels as a form of great literature and most successful novelists were men Here Gaye Tuchman examines how men redefined this form of literary expression **Bedside Matters** Kathryn McPherson, 2003-12-15 Nursing embodies the seemingly timeless characteristics of feminine healing caring and nurturing yet this archetypally female vocation also boasts a distinctive and complex history Bedside Matters traces four generations of Canadian nurses to explore changes in who became nurses what work they performed and how they organized to defend their occupational interests Whether in the apprenticeship method of the early twentieth century or in the present day restructuring of hospital work the position of nurses within the health care system has been structured by class gender and ethnic and racial relations Located between the doctors and untrained or subsidiary patient care attendants nurses have struggled to define the boundaries of their occupation vis vis other members of the health care hierarchy even as tensions between bedside and administrative nurses created divisions within nursing itself Focusing on the daily labours of ordinary nurses McPherson argues that the persisting sex typing of nursing as women's work has meant that gender consistently complicated nursing's easy categorization as either professional or proletariat Combining archival records and oral histories the author shows how nurses in their work activities and social and sexual attitudes sought recognition as skilled workers in the health care system Previously published by Oxford University Press **Investigating Culture** Carol

Delaney, 2017-02-15 The third edition of Investigating Culture An Experiential Introduction to Anthropology the highly praised innovative approach to introducing aspects of cultural anthropology to students features a series of revisions updates and new material Offers a refreshing alternative to introductory anthropology texts by challenging students to think in new ways and apply cultural learnings to their own lives Chapters explore key anthropological concepts of human culture including language the body food and time and provide an array of cultural examples in which to examine them Incorporates

McWilliams, 2017-03-02 Examining Margaret Atwood s work in the context of the complex history of the Bildungsroman Ellen McWilliams explores how the genre has been appropriated by women writers in the second half of the twentieth century She demonstrates that Atwood s early work her own coming of age fiction including unpublished works as well as The Edible Woman Surfacing and Lady Oracle both engages with and works against the paradigms of identity which are traditionally associated with the genre Making extensive use of unpublished manuscripts in the Atwood Collection at the University of Toronto McWilliams uncovers influences that shaped Atwood s fashioning of identity in her early novels paying particular attention to Atwood s preoccupation with survival as a key symbol of Canadian literature culture and identity She also considers the genre s afterlife on display in Cat s Eye The Robber Bride Alias Grace The Blind Assassin and Moral Disorder in which the formulations of selfhood and identity in Atwood s early fiction are revisited and developed Atwood emerges as a writer who self consciously invokes and then undercuts the traditions of the Bildungsroman a turn that may be read as a means of at once interrogating and perpetuating the form McWilliams s book furthers our understanding of subjectivity in Atwood s fiction and contributes to ongoing conversations about the role gender and cultural contexts play in reframing generic boundaries     **Murder** Sara Louise Knox, 1998 An analysis of American murder narratives across a number of

genres including novels sociological texts and true crime accounts     **End of empire and the English novel since 1945**

Rachael Gilmour, Bill Schwarz, 2015-07-01 Available in paperback for the first time this first book length study explores the history of postwar England during the end of empire through a reading of novels which appeared at the time moving from George Orwell and William Golding to Penelope Lively Alan Hollinghurst and Ian McEwan Particular genres are also discussed including the family saga travel writing detective fiction and popular romances All included reflect on the predicament of an England which no longer lies at the centre of imperial power arriving at a fascinating diversity of conclusions about the meaning and consequences of the end of empire and the privileged location of the novel for discussing what decolonization meant for the domestic English population of the metropole The book is written in an easy style

unburdened by large sections of abstract reflection It endeavours to bring alive in a new way the traditions of the English novel
