 Norwich (Conn.). Otis Library,1900 The Evolution of Love Emil Lucka,1922 Live! Love! Forgive! Dr. Phyllis
 Thomas,2017-06-23 This book discusses how struggles could turn into accomplishments Obstacles and hurdles never stop
 individuals from moving forward in life Theres growth and prosperity in every situation Loving and forgiving increases an
 individuals success Catalog of Copyright Entries Library of Congress. Copyright Office,1963 **Change Your Life**
Through Love Stella Terrill Mann,2018-02-27 Change Your Life Through Love is Stella Terrill Mann s second book on
 inspirational living Filled with concrete examples from life of how others have solved their problems by learning the spiritual
 laws and how to work them this book will be welcomed by Unity and all New Thought students but is by no means confined
 to this field The author is widely known through former writings especially her first book Change Your Life Through Prayer
 This book deals with the fact that man has within himself a power which when rightly used will heal prosper inspire and
 guide him in his daily life But this force must be used within the Law of Love The author says that anyone can learn about his
 own inner creative power and how to use it to change his life to all he desires it to be from all that he does not want The
 purpose of her book is to show the reader how to do that for himself The Complete Concordance to Shakespere: Being a
Verbal Index to All the Passages in the Dramatic Works of the Poet Hary-Cowden Clarke,1845 **Virginia Geographic**
Names Geological Survey (U.S.). Branch of Geographic Names,1981 **Erotic Faith** Robert M. Polhemus,1995-03 In this
 profoundly original and far reaching study Robert M Polhemus shows how novels have helped to make erotic love a matter of
 faith in modern life Erotic faith Polhemus argues is an emotional conviction ultimately religious in nature that meaning value
 hope and even the possibility of transcendence can be found in love Drawing on a wide range of disciplines Polhemus shows
 the reciprocity of love as subject the novel as form and faith as motive in important works by Jane Austen Walter Scott the
 Bront s Dickens George Eliot Trollope Thomas Hardy Joyce D H Lawrence Virginia Woolf and Samuel Beckett Throughout
 Polhemus relates the novelists representation of love to that of such artists as Botticelli Vermeer Claude Lorrain Redon and
 Klimt Juxtaposing their paintings with nineteenth and twentieth century texts both reveals the ways in which novels develop
 and individualize common erotic and religious themes and illustrates how the novel has influenced our perception of all art
Evolution of Love Emil Lucka,Ellie Schleussner,2024-11-24 The object of this book which is addressed to all cultured
 men and women is to set forth the primitive manifestations of love and to throw light on those strange emotional climaxes
 which I have called Metaphysical Eroticism I have taken no account of historical detail except where it served the purpose of
 proving explaining and illustrating my subject Nor have I hesitated to intermingle psychological motives and motives arising
 from the growth and spread of civilisation The inevitable result of a one sided glimpse at historical facts would have been a
 history of love an undertaking for which I lack both ability and inclination On the other hand had I written a merely
 psychological treatise disregarding the succession of periods I should have laid myself open to the just reproach of giving

rein to my imagination instead of dealing with reality I have availed myself of historical facts to demonstrate that what psychology has shown to be the necessary phases of the evolution of love have actually existed in historical time and characterised a whole period of civilisation The history of civilisation is an end in itself only in the chapter entitled The Birth of Europe My work is intended to be first and foremost a monograph on the emotional life of the human race I am prepared to meet rather with rejection than with approval Neither the historian nor the psychologist will be pleased Moreover I am well aware that my standpoint is hopelessly old fashioned To day nearly all the world is content to look upon the sexual impulse as the source of all erotic emotion and to regard love as nothing more nor less than its most exquisite radiation My book on the contrary endeavours to establish its complete independence of sexuality My contention that so powerful an emotion as love should have come into existence in historical not very remote times will seem very strange for all outward profession of faith in evolution notwithstanding men are still inclined to take the unchangeableness of human nature for granted The facts on which I have based my arguments are well known but my deductions are new it is not for me to decide whether they are right or wrong In the first introductory part I have made use of works already in existence in addition to Plato and the poets but the second and third parts are founded almost entirely on original research E L
