The Resilient City Lawrence J. Vale, Thomas J. Campanella, 2005-01-20 In 1871 the city of Chicago was almost entirely destroyed by what became known as The Great Fire Thirty five years later San Francisco lay in smoldering ruins after the catastrophic earthquake of 1906 Or consider the case of the Jerusalem the greatest site of physical destruction and renewal in history which over three millennia has suffered wars earthquakes fires twenty sieges eighteen reconstructions and at least eleven transitions from one religious faith to another Yet this ancient city has regenerated itself time and again and still endures Throughout history cities have been sacked burned torched bombed flooded besieged and leveled And yet they almost always rise from the ashes to rebuild Viewing a wide array of urban disasters in global historical perspective The Resilient City traces the aftermath of such cataclysms as the British invasion of Washington in 1814 the devastation wrought on Berlin Warsaw and Tokyo during World War II the late 20th century earthquakes that shattered Mexico City and the Chinese city of Tangshan Los Angeles after the 1992 riots the Oklahoma City bombing the destruction of the World Trade Center Revealing how traumatized city dwellers consistently develop narratives of resilience and how the pragmatic process of urban recovery is always fueled by highly symbolic actions The Resilient City offers a deeply informative and unsentimental tribute to the dogged persistence of the city and indeed of the human spirit      **Hegel's Philosophy of**

**Reality, Freedom, and God** Robert M. Wallace, 2005-04-04 Showing the relevance of Hegel's arguments this book discusses both original texts and their interpretations      **Second Metropolis** Blair A. Ruble, 2001-05-28 By exploring and comparing

North America's Russia's and Japan's second cities Chicago Moscow and Osaka Second Metropolis discloses the extent to which social fragmentation frequently viewed as an obstacle to democratic development actually fostered a pragmatic

pluralism that nurtured pluralistic public policies Such policies are explored through six case studies the politics of street railways and charter reform in Chicago adult education and housing in Moscow and harbor revitalization and poverty alleviation in Osaka that illustrate how even those with massive political and economic power were stymied by the complexity of their communities Chicago Moscow and Osaka though the products of very different nations and cultures nonetheless shared an important experience of inclusive politics during an era of extraordinary growth and social diversity The success of all three cities which went well beyond mere survival rested on a distinctive political resource pragmatic pluralism

**Urban Forests, Trees, and Greenspace** L. Anders Sandberg, Adrina Bardekjian, Sadia Butt, 2014-07-25 Urban forests trees and greenspace are critical in contemporary planning and development of the city Their study is not only a question of the growth and conservation of green spaces but also has social cultural and psychological dimensions This book brings a perspective of political ecology to the complexities of urban trees and forests through three themes human agency in urban forests and greenspace arboreal and greenspace agency in the urban landscape and actions and interventions in the urban forest Contributors include leading authorities from North America and Europe from a range of disciplines including forestry ecology geography landscape design municipal planning environmental policy and environmental history Planning Asian Cities Stephen Hamnett, Dean Forbes, 2012-03-29 In Planning Asian Cities Risks and Resilience Stephen Hamnett and Dean Forbes have brought together some of the region's most distinguished urbanists to explore the planning history and recent development of Pacific Asia's major cities They show how globalization and the competition to achieve global city status has had a profound effect on all these cities Tokyo is an archetypal world city Singapore Hong Kong and Seoul have acquired world city characteristics Taipei and Kuala Lumpur have been at the centre of expanding economies in which nationalism and global aspirations have been intertwined and expressed in the built environment Beijing Hong Kong and Shanghai have played key sometimes competing roles in China's rapid economic growth Bangkok's amenity economy is currently threatened by political instability while Jakarta and Manila are the core city regions of less developed countries with sluggish economies and significant unrealized potential But how resilient are these cities to the risks that they face How can they manage continuing pressures for development and growth while reducing their vulnerability to a range of potential crises How well prepared are they for climate change How can they build social capital so important to a city's recovery from shocks and disasters What forms of governance and planning are appropriate for the vast mega regions that are emerging And given the tradition of top down centralized state directed planning which drove the economic growth of many of these cities in the last century what prospects are there of them becoming more inclusive and sensitive to the diverse needs of their populations and to the importance of culture heritage and local places in creating liveable cities Evolution of a Retail Streetscape Collin Anderson, 2012-12-13 A celebration of Orchard Road the shopping and entertainment mecca in Singapore and DP Architects significant contribution to its evolution **Triumph of the City** Edward Glaeser, 2012-01-31 Shortlisted for the

Financial Times and McKinsey Best Book of the Year Award in 2011 A masterpiece Steven D Levitt coauthor of *Freakonomics* Bursting with insights The New York Times Book Review A pioneering urban economist presents a myth shattering look at the majesty and greatness of cities America is an urban nation yet cities get a bad rap they re dirty poor unhealthy environmentally unfriendly or are they In this revelatory book Edward Glaeser a leading urban economist declares that cities are actually the healthiest greenest and richest in both cultural and economic terms places to live He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind Using intrepid reportage keen analysis and cogent argument Glaeser makes an urgent eloquent case for the city s importance and splendor offering inspiring proof that the city is humanity s greatest creation and our best hope for the future

**Area Bibliography of Japan** Ria Koopmans-de Bruijn,1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area *Geisha, Harlot, Strangler, Star* William Johnston,2005 In 1936 Abe Sada committed the most notorious crime in twentieth century Japan the murder and emasculation of her lover This detailed account of Sada s personal history the events leading up to the crime and its aftermath steps beyond the simplistic view of Abe Sada as a sexual deviate or hysterical woman to reveal a survivor

**Remaking the Chinese City** Joseph W. Esherick,2001-10-31 In China today skyscrapers tower over ancient temples freeways deliver lines of cars and tour buses to imperial palaces cinema houses compete with old theaters featuring Peking Opera The disparity evidenced in the contemporary Chinese cityscape can be traced to the early decades of the twentieth century when government elites sought to transform cities into a new world that would be at once modern and distinctly Chinese *Remaking the Chinese City* aims to capture the full diversity of recent Chinese urbanism by examining the modernist transformations of China s cities in the first half of the twentieth century Collecting in one place some of the most interesting and exciting new work on Chinese urban history this volume presents thirteen essays discussing ten Chinese cities the commercial and industrial center of Shanghai the old capital Beijing the southern coastal city of Canton the interior s Chengdu the tourist city of Hangzhou the utopian New Capital built in Manchuria during the Japanese occupation the treaty port of Tianjin the Nationalists capital in Nanjing and temporary wartime capitals of Wuhan and Chongqing Unlike past treatments of early twentieth century China which characterize the period as one of failure and decay the contributors to this volume describe an exciting world in constant and fundamental change During this time the Chinese city was remade to accommodate parks and police paved roads and public spaces Rickshaws trolleys and buses allowed the growth of new downtowns Department stores theaters newspapers and modern advertising nourished a new urban identity Sanitary regulations and traffic laws were enforced and modern media and transport permitted unprecedented freedoms Yet despite their fondness for things Western and modern early urban planners envisioned cities that would lead the Chinese nation and

preserve Chinese tradition The very desire for modernity led to the construction of a visible and accessible national past and the imagining of a distinctive national future In their investigation of the national capitals of the period the essays show how cities were reshaped to represent and serve the nation To promote tourism traditions were invented and recycled for the pleasure and edification of new middle class and foreign consumers of culture Abundantly illustrated with maps and photographs Remaking the Chinese City presents the best and most current scholarship on modern Chinese cities Its thoroughness and detailed scholarship will appeal to the specialist while its clarity and scope will engage the general reader Contributors Michael Tsin on Canton Ruth Rogaski and Brett Sheehan on Tianjin David Buck on Changchun Kristin Stapleton on Chengdu Liping Wang on Hangzhou Madeleine Dong on Beijing Charles Musgrove on Nanjing Stephen MacKinnon on Wuhan Lee MacIsaac on Chongqing and Jeffrey Wasserstrom and David Strand with concluding essays

**The Cultural Meaning of Urban Space** Gary McDonogh, Robert Rotenberg, 1993-04-30 This book presents a cross cultural approach to the study of urban space Essays written by major contributors in contemporary urban studies provide a range of case studies from Asia Latin America North America and Europe to address important questions about space and power processes of change aesthetics and attitudes toward space and social divisions expressed through urban life The essays fall into three interlocking sections conceptual and linguistic approaches to urban space visual and social examinations of world cities and policy examinations of spatial analyses Together with the jointly compiled bibliography this collection of essays is designed to stimulate comparative debate and identify new areas for urban research Essays contrast empty space in Barcelona and Savannah explore the concept of healthy and unhealthy urban environments in the classical writings and in modern day Vienna and develop a model of space for Shanghai from the point of view of privacy The subcultural ethos characterizing Tokyo and the castle as a symbol for the community in Japan are two more essay topics The plaza in Spanish American towns the outdoor spaces in Italy balcony street courtyard and the school in Honduras are sites for socio cultural analyses in three more essays The last group of essays focus on discourses in urban planning especially the responses of people to the growth marketing and decay of residential places African American neighborhoods and waterfront development provide examples for this section These essays in their theoretical and geographical breadth make significant strides in defining the cultural meaning of urban space They will be read with interest by city planners ecologists and other social scientists involved in finding human solutions to the metropolitan environment

Lawrence,2008 For those who have ever wondered why we have trees in cities or what makes the layout of cities like Paris and Amsterdam seem so memorable City Trees A Historical Geography from the Renaissance through the Nineteenth

Century by Henry W Lawrence provides a comprehensive and handsome guide to the history of trees in urban landscapes. Covering four centuries of development in the cities of Europe and America, this book shows how trees became integral to urban landscapes by looking at the historical evolution of the spaces in which they were planted and how these spaces were used. Reflecting on the impact trees have had on what many consider to be the fundamental aspects of city life—people, buildings, social and economic activity—Lawrence draws on graphic materials, written descriptions, local histories, and archival research to provide a unique look at the tree's role in urban landscape history. Primarily concerned with aesthetics, power, and national traditions, Lawrence reflects on the differing impacts city trees have had on multiple aspects of culture, from their roles as symbols and their representation of economic prosperity to the differing ways nations planted their trees, which gradually blended into an international style of urban planting. Complete with fascinating illustrations, *City Trees* will appeal to those interested in urban history and geography as well as the general public interested in cities, cultural history, and landscape design.
