

Lower Palaeozoic reservoirs of North Africa

ROB CROSSLEY & NEIL McDOUGALL

Robertson Research International Ltd, Llandudno, Conwy LL30 1SA, UK

Abstract: This paper provides an overview of features considered significant in the exploration and development of Lower Palaeozoic reservoirs of North Africa. Information is derived from a review of literature on the Lower Palaeozoic successions of north Africa, combined with outcrop observations from the Anti Atlas mountains of Morocco. The focus of the exploration-oriented part of the review is on identification of potential traps other than two-way structural dip closure. Stratigraphic elements described include depositional models of reservoir facies, tectonic unconformities and possible eustatic unconformities. Cases of established or potential trapping by post-depositional faulting, by diagenesis and by hydrodynamic flow are examined. Development-related topics highlighted include the impact on reservoir matrix quality of burial diagenesis and of palaeo-weathering at the Hercynian unconformity. Other issues discussed which additionally affect producibility from the reservoir matrix include tectonic fracturing, palaeotopography and unloading fracturing at the Hercynian unconformity, and induced fracturing within the present stress regimes.

The Cambrian to Silurian sequences of Algeria, Libya and Tunisia form one of the world's greatest concentrations of Lower Palaeozoic reservoirs. Algeria contains the largest number of fields discovered to date, including the giant field of Hassi Messaoud (Fig. 1). Libya also has substantial production from the Lower Palaeozoic, which is in the process of being boosted by new fields under development in the Murzuq Basin. Minor but potentially significant relatively

deep discoveries have also been made in Tunisia. Equivalent sequences in Egypt, Morocco (including former Western Sahara), Niger and Chad might also have hydrocarbon potential (see below).

To date, exploration for Lower Palaeozoic prospects has mainly focused on structural highs. As a consequence there are large areas, even close to producing fields, which remain undrilled. Most producing fields are situated on convincing

Lower Palaeozoic Of North Western And West Central Africa

R.D. Dallmeyer, J.P. Lecorche

Lower Palaeozoic Of North Western And West Central Africa:

Lower Palaeozoic of North-Western and West-Central Africa Charles H. Holland, *The Boundaries of the West African Craton* Nasser Ennih, Jean-Paul Liégeois, 2008 Geological Exploration in Murzuq Basin D. Worsley, 2000-12-19 The Murzuq Basin is a large intracratonic sag basin located in southwestern Libya Exploration efforts started in this vast and remote Saharan region already in 1957 and 60 exploratory wells have been drilled to date resulting in over 20 discoveries with around 4 000 million barrels of oil in place Most discoveries have been made in Ordovician sandstone reservoirs sourced by hot shales of the Lower Silurian Taneezuft Formation Oil is already being produced and exported from the area but the basin's total hydrocarbon potential is still poorly understood Recent exploration especially the major discovery and initial development of the Giant Elephant Field has greatly increased interest for the area's potential Many petroleum geologists and companies now believe that the basin may well develop into a new major hydrocarbon province which will significantly contribute to Europe's energy needs in the next decades This book presents papers from a conference held at Sebha University on the eastern margins of the Murzuq Basin in September 1998 The book continues an ongoing series of presentations of the geology of Libya but the 25 contributions herein mostly centre on the Murzuq Basin itself and on nearby areas There are still many unresolved questions in terms of geological and hydrocarbon exploration in these difficult desert areas but the papers herein will hopefully present a first comprehensive overview of an exciting frontier exploration region About half of the papers are directly related to hydrocarbon exploration and to source rock and reservoir development but a wide variety of other features are also described ranging from palaeontology and biostratigraphy to ore geology and water resources covering the entire geological column from the Precambrian to the Holocene The book concludes with a bibliography covering all geological aspects of this challenging but very promising frontier area The Geology of North Africa Zakaria Hamimi, Moulley Charaf Chabou, Ezzoura Errami, Abdel-Rahman Fowler, Nuri Fello, Amara Masrouhi, Rémi Leprêtre, 2024-05-20 This richly illustrated book reviews the geology tectonics sedimentary basins and strategic resources of North Africa in 21 chapters Chapter 1 is a regional synthesis Chapter 2 examines the deep crustal and upper mantle structure Chapter 3 compares the West African Craton Chapters 4 5 6 7 deal with Pan African Variscan Hercynian and Alpine Belts Precambrian Geology of Hoggar Shield north Central Africa will be addressed in Chapter 8 The North African Neoproterozoic and Phanerozoic sedimentary basins are the topic of Chapter 9 Phanerozoic magmatism and geodynamic framework of North Africa are addressed in Chapter 10 Chapters 11 12 deal with petroleum geology and water resources Important non metallic and metallic ore deposits are presented in Chapter 13 14 15 16 Chapters 17 18 explore geothermal energy and other strategic resources Chapters 19 20 discuss seismicity seismotectonics and Neotectonics and Advances of exploration geophysics in North Africa The last two chapters 20 21 focus on meteoric impact craters geoheritage geoparks and geotourism in North Africa **Glaciogenic Reservoirs and Hydrocarbon Systems** Mads Huuse, J. Redfern, D. P. Le

Heron, R. J. Dixon (Geologist), A. Moscariello, Jonathan Craig, 2012 Glaciogenic reservoirs and hydrocarbon systems occur intermittently throughout the stratigraphic record with particular prominence in Neoproterozoic Late Ordovician Permian Carboniferous and Late Cenozoic strata Recent interest in glaciogenic successions has been fuelled by hydrocarbon discoveries in ancient glaciogenic reservoirs in North Africa the Middle East Australia and South America Glaciogenic deposits of Pleistocene age are noteworthy for their content of groundwater onshore and potentially prospective and or hazardous gas accumulations offshore The abundant imprints of Pleistocene glaciations in both hemispheres can be used to reconstruct complex histories of repeated ice cover and retreat and glacier bed interactions thus informing our view on the dynamics of older ice caps and predictions of future glaciations This volume aims to provide a better understanding of glaciogenic processes their stratigraphic record and reservoir characteristics of glaciogenic deposits The book comprises 3 overview papers and 16 original case studies of Neoproterozoic to Pleistocene successions on 6 continents and will be of interest to sedimentologists glaciologists geophysicists hydrologists and petroleum geologists alike P 4 of cover

African Basins R.C. Selley, 1997-11-20 Following on from the first 2 books in the series *Sedimentary Basins of the World* which covered Chinese Sedimentary Basins Volume 1 and South Pacific Sedimentary Basins Volume 2 comes Volume 3 on African Basins Africa covers a larger land area than the USA Europe India and the ASEAN nations put together It is rich in natural resources including oil gas coal and nearly every metalliferous mineral Yet Africa is still one of the least explored continents This book brings together in one volume concise reviews of basins previously documented in a vast array of diffuse literature It also contains some of the first detailed accounts of several basins which have never before been described in such depth These include the onshore Owambo Iullemmeden and Sudanese rift basins and the offshore basins of southern Africa The contributions are by authors and teams of authors with great knowledge and experience of the basins that they describe The thirteen chapters are arranged in 3 parts covering North Africa Central Africa and Southern Africa and the book is illustrated by maps cross sections stratigraphic sections and seismic lines Each chapter includes a comprehensive bibliography and the book concludes with a subject index For academic geologists researching the geology of Africa and for industrial geologists seeking natural resources within African sedimentary rocks this book is an invaluable source of information

Late Paleozoic Glacial Events and Postglacial Transgressions in Gondwana Oscar R. López-Gamundí, Luis A. Buatois, 2010 *Geology of Western Gondwana (2000 - 500 Ma)* Roland Trompette, 2020-08-26 In considering the geology of Western Gondwana this text covers the Pan African Brasiliano cratons the Pan African Brasiliano fold belts and amosaic of Pan African Brasiliano mini cratons and minor fold belts Northeast Brazil and the Central Western portion of Africa

Palaeozoic Reefs and Bioaccumulations J. Javier Álvaro, 2007 The geological record contains a fascinating diversity of reefs and shell accumulations As with many other biosedimentary structures their facies characterization requires careful observation at outcrop and sample scale and in thin section to provide information about the global geometries fabrics and textures

respectively This collection of papers encompasses the breadth of sedimentary geometries and facies displayed by Palaeozoic reefs shell accumulations and transitional composite deposits The definition of reefs and shell concentrations has given rise to variations in nomenclature The papers in this volume cover specific problems regarding the nomenclature and facies characterization of reefs shell accumulations and transitional composite deposits However rather than attempt a complete revision of terms the authors have touched on some of the important issues at this stage of development in the field the main climatic environmental and evolutionary factors that controlled the Palaeozoic development of shell accumulations and reefs

The Formation and Evolution of Africa Douwe J. J. van Hinsbergen, 2011 The African continent preserves a long geological record that covers almost 75% of Earth's history The Pan African orogeny c 600 500 Ma brought together old continental kernels West Africa Congo Kalahari and Tanzania to form Gondwana and subsequently the supercontinent Pangaea by the late Palaeozoic The break up of Pangaea since the Jurassic and Cretaceous primarily through opening of the Central Atlantic Indian and South Atlantic oceans in combination with the complicated subduction history to the north gradually shaped the African continent This volume contains 18 contributions that discuss the geology of Africa from the Archaean to the present day

Geology of the Appalachian—Caledonian Orogen in Canada and Greenland Harold Williams, 1995 This volume focuses on the Canadian Appalachian region The chapter on the East Greenland Caledonides stands alone and there is no attempt to integrate the geological accounts of the two far removed regions Rocks of the Canadian Appalachian region are described under four broad temporal divisions lower Paleozoic and older middle Paleozoic upper Paleozoic and Mesozoic The rocks of these temporal divisions define geographic zones belts basins and graben respectively The area is of special interest because so many modern concepts of mountain building are based on Appalachian rocks structures

A Global Synthesis of the Ordovician System: Part 2 T. Servais, D.A.T. Harper, B. Lefebvre, I. G. Percival, 2023-06-08 The Ordovician was one of the longest of the geological periods characterized by major magmatic and tectonic activity an immense biodiversification swings in climate and sea levels and the first Phanerozoic mass extinction A Global Synthesis of the Ordovician System is presented in two volumes in The Geological Society Special Publications Whereas the first volume SP532 concentrates on general aspects and a synthesis of the Ordovician geology of Europe this volume SP533 includes reviews of Ordovician successions of most other parts of the world The classic successions of the Ordovician basins of North America are presented as well as those of China where several of the Ordovician Global Boundary Stratotype Sections and Points are defined The volume also includes syntheses of the Ordovician geology of Africa South America most regions of Asia from the Near to the Far East along with Central Asia as well as Australia New Zealand and Antarctica

The West African Orogens and Circum-Atlantic Correlatives R.D. Dallmeyer, J.P. Lecorche, 2012-12-06 In December 1987 Project 233 of the International Geological Correlation Program hosted an international conference in Nouakchott Mauritania Discussions were focused on the Tectonothermal Evolution Of The West African Orogens And Circum

Atlantic Terrane Linkages A wealth of new information was presented during the conference and it was apparent that the time was appropriate to prepare a systematic volume dealing with the geology of northwest Africa The present volume is an outgrowth of this conference but is not merely a compilation of the papers presented in Nouakchott Instead it represents a coordinated volume designed to present a balanced comprehensive view of our present understanding of West African geology and potential correlations in other Circum Atlantic Paleozoic orogens We sincerely appreciate the efforts of all the reviewers whose comments have greatly helped to improve the quality of this volume We also thank the various contributors for their diligence and perseverance in manuscript preparation The calibre of the present volume is a reflection of their labor

Athens Marseille Autumn 1990 R D DALLMEYER J P LECORCHE Contents Chapter 1 Introduction 3 R D DALLMEYER and J P LECORCHE Chapter 2 Geophysics and the Crustal structure of West Africa 9 J ROUSSEL and A LESQUER Chapter 3 Crystalline Basement of the West African Craton 31

Geophysical Exploration for Hydrocarbon Reservoirs, Geothermal Energy, and Carbon Storage Said Gaci, 2025-08-25 A practical guide to the latest technologies and techniques in subsurface energy exploration In Geophysical Exploration for Hydrocarbon Reservoirs Geothermal Energy and Carbon Storage New Technologies and AI based Approaches distinguished researcher Said Gaci delivers a practice oriented overview and comparison of the concepts methods and workflows for the geophysical characterization of hydrocarbon and geothermal reservoirs including those reservoirs suitable for large scale carbon sequestration Organized into four parts the book begins with a summary of novel petroleum exploration technologies and discussions of illustrative case studies from around the world It then explains how to integrate seismic and other non invasive surveying methods for a comprehensive multiscale reservoir characterization The third part explores the implementation of artificial intelligence tools in remote exploration rock typing and fluid prediction The final part demonstrates how to apply hydrocarbon exploration methods to the exploration and development of geothermal reservoirs and underground carbon dioxide storage sites Readers will find A multidisciplinary approach to combining conventional hydrocarbon exploration techniques with the power of artificial intelligence A thorough understanding of subsurface reservoir systems that links recent technical advances with new geological insights Practice oriented discussions of advanced technologies for non invasive reservoir characterization Selected case studies that illustrate the application of novel concepts in a real world setting Perfect for geologists geoengineers geophysicists and fossil fuel professionals Geophysical Exploration for Hydrocarbon Reservoirs Geothermal Energy and Carbon Storage will also benefit anyone aiming to remain at the forefront of subsurface energy exploration in the twenty first century

Papers from the 6th International Conference on Trilobites and their Relatives Alan W. Owen, David L. Bruton, 2019-09-10 A volume from a monograph series featuring seven papers on trilobites with brief summaries This research volume is entitled Papers from the 6th International Conference on Trilobites and their Relatives It is Volume 64 within the Fossils and Strata monograph series The research compilation originated from a 2017 conference in Estonia Seven

papers on trilobites are included with summaries in the publication The papers topics cover trilobites from the Early Cambrian to the Late Devonian

Regional Geology and Tectonics David G. Roberts,A.W. Bally,2012-12-31 Volume 1A Principles of Geologic AnalysisA how to primer describes the basic concepts petroleum geologists and students need to understand hydrocarbon exploration in a broad range of geological settings globally Volume 1B Phanerozoic Rift Systems and Sedimentary BasinsIncorporates industry data to present regional seismic lines and cross sections to accurately document and analyze proven hydrocarbon systems It also includes summaries of analogue and theoretical models as an essential backdrop to the structure and stratigraphy of a variety of geological settings Volume 1C Phanerozoic Passive Margins Cratonic Basins and Global Tectonic MapsFocuses on both volcanic and non volcanic passive margins as well as cratonic basins critical habitats for hydrocarbons It provides a unique basis for comparison of different passive margins and for an understanding of their structural and stratigraphic evolution as well as their petroleum systems especially useful to explorationists working in deep water basins and researchers examining the tectonic evolution of the continent ocean transition A vast amount of data to enable hydrocarbon play assessments and analysis on passive margins is also included in this thorough yet accessible reference Individual volumes can also be purchased

978044453042497804445635699780444563576 Volume 1A discusses in detail the principles of regional geological analysis and the main geological and geophysical tools used in basin analysis Volume 1B features simple documentation and analysis of major rift systems developed in contrasting geological settings as well as in depth analyses of active rifts in various regions all over the world for immediately implementable petroleum exploration applications Volume 1C features real world case studies and analyses useful summaries of analogue and theoretical models thorough documentation of numerous passive margins that are the focus of deep water oil exploration and unique tectonic maps facilitating access to exact basin locations and their tectonic settings A companion website offers select downloadable images from the books <http://booksite.elsevier.com/9780444530424/index.php>

Geology of Northwest Africa Alain Piqu ,2001 Northwest Africa comprises a vast territory from Morocco Algeria Tunisia to Mauritania made up out of rocks which range in age from the Archaean Early Precambrian to the Quaternary The book is the result of the author s extensive field studies in many parts of the covered area and a comprehensive compilation of previously published data Alain Pique is professor of structural geology at the Universite de Bretagne occidentale Brest France

Regional Geology and Tectonics: Phanerozoic Passive Margins, Cratonic Basins and Global Tectonic Maps A.W. Bally,2012-05-31 Expert petroleum geologists David Roberts and Albert Bally bring you Regional Geology and Tectonics Phanerozoic Passive Margins Cratonic Basins and Global Tectonic Maps volume three in a three volume series covering Phanerozoic regional geology and tectonics Its key focus is on both volcanic and non volcanic passive margins and the importance of salt and shale driven by sedimentary tectonics to their evolution Recent innovative research on such critical locations as Iberia Newfoundland China and the North Sea are incorporated to provide practical

real world case studies in regional geology and tectonics The vast amount of volcanic data now available to form accurate hydrocarbon assessments and analysis at passive margin locations is also included into this thorough yet accessible reference Named a 2013 Outstanding Academic Title by the American Library Association s Choice publication A how to practical reference that discusses the impact of the development of passive margins and cratonic basins on the structural evolution of the Earth in regional geology and tectonic applications Incorporates the increased availability of industry data to present regional seismic lines and cross sections leading to more accurate analysis and assessment of targeted hydrocarbon systems Analyses of passive margins and cratonic basins in East Africa China Siberia the Gulf of Suez and the Laptev Sea in the Russian Arctic provide immediately implementable petroleum exploration applications Summaries of analogue and theoretical models are provided as an essential backdrop to the structure and stratigraphy of various geological settings

A Geologic Time Scale 1989 Walter Brian Harland,1990-06-29 A concentrated review of the time scales used in geology in order to date stratigraphic sequences and to define geological epochs It is the planned successor to *A Geologic Timescale* and adopts the same style and employs similar methods

The Great Ordovician Biodiversification Event: Insights from the Tafilalt Biota, Morocco A.W. Hunter,J.J. Álvaro,B. Lefebvre,P. Van Roy,S. Zamora,2022 Special Publication 485 About 40 million years after the Cambrian Explosion the Great Ordovician Biodiversification Event GOBE represents a second and dramatic burst in marine biodiversity with major changes in the structure of ecosystems and the progressive replacement of the distinctive Cambrian Evolutionary Fauna by the Paleozoic Evolutionary Fauna However the GOBE is not a single worldwide short term event but rather the complex sum of successive diversifications occurring in distinct taxonomic groups trophic guilds and regions This book focuses on the Late Ordovician Tafilalt Biota Anti Atlas Morocco which provides a snapshot of the GOBE in high latitude regions of the Southern Hemisphere A series of contributions explore different aspects of the Tafilalt Biota including its geological setting the international fossil trade in this area and a series of detailed systematic contributions describing many new taxa of marine invertebrates This volume represents a significant contribution to the understanding of the Tafilalt Biota and its significance to the GOBE

Lower Palaeozoic Of North Western And West Central Africa Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Lower Palaeozoic Of North Western And West Central Africa**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve to the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.

Lower Palaeozoic Of North Western And West Central Africa Introduction

In the digital age, access to information has become easier than ever before. The ability to download Lower Palaeozoic Of North Western And West Central Africa has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Lower Palaeozoic Of North Western And West Central Africa has opened up a world of possibilities. Downloading Lower Palaeozoic Of North Western And West Central Africa provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Lower Palaeozoic Of North Western And West Central Africa has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Lower Palaeozoic Of North Western And West Central Africa. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Lower Palaeozoic Of North Western And West Central Africa. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Lower Palaeozoic Of North Western And West Central Africa, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves,

individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Lower Palaeozoic Of North Western And West Central Africa has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Lower Palaeozoic Of North Western And West Central Africa Books

1. Where can I buy Lower Palaeozoic Of North Western And West Central Africa books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Lower Palaeozoic Of North Western And West Central Africa book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Lower Palaeozoic Of North Western And West Central Africa books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Lower Palaeozoic Of North Western And West Central Africa audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible,

LibriVox, and Google Play Books offer a wide selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Lower Palaeozoic Of North Western And West Central Africa books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
