## **Loyalists And Revolutionaries Political Leaders Compared:**

Loyalists and Revolutionaries Mostafa Rejai, Kay Phillips, 1988-04-21 What motivates political leaders to seek office What social backgrounds do political leaders exhibit Are all leaders fundamentally alike or do we find important differences between them These and related questions concerning political leadership are examined in this unique new work The authors concentrate on two principal types of political leaders Loyalists those who seek office through peaceful processes whether appointive or elective and Revolutionaries those who seize power in violent ways By systematically comparing the similarities and differences between these two groups Rejai and Phillips find that Loyalists and Revolutionaries are basically the same type of person However their most significant differences lie in their relative access to positions of power and authority within their respective societies *Political Leadership and the Northern Ireland Peace Process C.*

Gormley-Heenan, 2006-11-14 By providing a critical interpretation of political leadership during the Northern Ireland peace process Gormley Heenan shows the leadership lens offers insights not offered by conventional analyses of peacemaking processes The book discusses the confusions contradictions and chameleonic nature of leadership and its role capacity and effect **King of the Mountain** Arnold M. Ludwig, 2013-07-24 People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired socially purposeful or even self serving all of which they attribute to being human but they masticate fornicate and procreate much as chimps and apes do so they should have little cause to get upset if they learn that they act like other primates when they politically agitate debate abdicate placate and administrate too King of the Mountain presents the startling findings of Arnold M Ludwig s eighteen year investigation into why people want to rule The answer may seem obvious power privilege and perks but any adequate answer also needs to explain why so many rulers cling to power even when they are miserable trust nobody feel besieged and face almost certain death Ludwig s results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power govern and rule Profiling every ruler of a recognized country in the twentieth century over 1 900 people in all Ludwig establishes how rulers came to power how they lost power the dangers they faced and the odds of their being assassinated committing suicide or dying a natural death Then concentrating on a smaller sub set of 377 rulers for whom more extensive personal information was available he compares six different kinds of leaders examining their characteristics their childhoods and their mental stability or instability to identify the main predictors of later political success Ludwig s penetrating observations though presented in a lighthearted and entertaining way offer important insight into why humans have engaged in war throughout recorded history as well as suggesting how they might live together in peace Modern Latin American Revolutions Eric Selbin, 2018-02-07 In contrast to previous studies that have centered on the institutionalization of revolution in Latin America and the Caribbean Modern Latin American Revolutions Second Edition introduces the concept of consolidation of the revolutionary process the efforts of revolutionary leaders to transform society and the acceptance by a significant majority of

the population of the core of the social revolutionary project As a result the spotlight is on people not structures and transformation not simply revolutionary transition The second edition of this acclaimed book has been revised to include new information on the cases of Bolivia Cuba Nicaragua and Grenada assessing the extent to which each revolution was both institutionalized and consolidated This edition also boasts expanded coverage on Che Guevara's visionary leadership and an all new section that addresses the future of revolution in Latin America and the Caribbean Dr Selbin argues that there is a strong link between organizational leadership and the institutionalization process on the one hand and visionary leadership and the consolidation process on the other Particular attention is given to the ongoing revolutionary process in Nicaragua with an emphasis on the implications and ramifications of the 1990 electoral process A final chapter includes brief analyses of the still unfolding revolutionary processes in El Salvador and Peru

### **Explanations and Predictions of Political Success of the Heads of Government**

**Since 1945** Meeyoung Ju,1994 **Japanese Diplomacy** H. D. P. Envall,2015-02-17 Groundbreaking study demonstrating how Japan's leaders play an important role in diplomacy A political leader is most often a nation's most high profile foreign policy figure its chief diplomat But how do individual leadership styles personalities perceptions or beliefs shape diplomacy In Japanese Diplomacy the question of what role leadership plays in diplomacy is applied to Japan a country where the individual is often viewed as being at the mercy of the group and where prime ministers have been largely thought of as reactive and weak In challenging earlier simplified ideas of Japanese political leadership H D P Envall argues that Japan's leaders from early Cold War figures such as Yoshida Shigeru to the charismatic and innovative Koizumi Jun ichir to the present leadership of Abe Shinz have pursued leadership strategies of varying coherence and rationality often independent of their political environment He also finds that different Japanese leaders have shaped Japanese diplomacy in some important and underappreciated ways In certain environments individual difference has played a significant role in determining Japan's diplomacy both in terms of the country's strategic identity and summit diplomacy What emerges from Japanese Diplomacy therefore is a more nuanced overall picture of Japanese leadership in foreign affairs
