Beatty, Lee A. Rochwerger, 2009 *Defending the West* Ibn Warraq, 2010-06-03 This is the first systematic critique of Edward Said s influential work Orientalism a book that for almost three decades has received wide acclaim voluminous commentary and translation into more than fifteen languages Said s main thesis was that the Western image of the East was heavily biased by colonialist attitudes racism and more than two centuries of political exploitation Although Said s critique was controversial the impact of his ideas has been a pervasive rethinking of Western perceptions of Eastern cultures plus a tendency to view all scholarship in Oriental Studies as tainted by considerations of power and prejudice In this thorough reconsideration of Said s famous work Ibn Warraq argues that Said s case against the West is seriously flawed Warraq accuses Said of not only willfully misinterpreting the work of many scholars but also of systematically misrepresenting Western civilization as a whole With example after example he shows that ever since the Greeks Western civilization has always had a strand in its very makeup that has accepted non Westerners with open arms and has ever been open to foreign ideas The author also criticizes Said for inadequate methodology incoherent arguments and a faulty historical understanding He points out not only Said s tendentious interpretations but historical howlers that would make a sophomore blush Warraq further looks at the destructive influence of Said s study on the history of Western painting especially of the

19th century and shows how once again the epigones of Said have succeeded in relegating thousands of first class paintings to the lofts and storage rooms of major museums An extended appendix reconsiders the value of 18th and 19th century Orientalist scholars and artists whose work fell into disrepute as a result of Said's work **Einstein, Michael Jackson & Me** Howard Bloom, 2020-04-15 Howard Bloom called the greatest press agent that rock and roll has ever known by Derek Sutton the former manager of Styx Ten Years After and Jethro Tull is a science nerd who knew nothing about popular music But he founded the biggest PR firm in the music industry and helped build or sustain the careers of our biggest rock and roll legends including Michael Jackson Prince Bob Marley Bette Midler Billy Joel Billy Idol Paul Simon Peter Dinklage David Byrne AC/DC Aerosmith Queen Kiss Grandmaster Flash and the Furious Five Run-DMC ZZ Top Joan Jett Chaka Khan and one hundred more What was he after He was on a hunt for the gods inside of you and me Einstein Michael Jackson Me is Bloom's story the strange tale of a scientific expedition into the dark underbelly of science and fame where new myths and movements are made *Cosmos & Culture: Cultural Evolution in a Cosmic Context* Steven J.
