Their Master's Voice Chris Woodall,2020-11-03 Of the five books that make up the Major Prophets in the Old Testament three are amongst the largest of the Bible Isaiah Jeremiah and Ezekiel As if to underscore their Major status each one is significantly longer than the Minor Prophets combined Although the specific details of each prophet s contribution differ a more general overarching theme may be discerned in them all to remind their respective target audiences of their covenantal obligations The prevailing human condition throughout the ages ensures that while circumstances cultural development and technological advancements do change with time the underlying sinful disposition of mankind remains constant in every epoch Mercifully God s messages to both victim and perpetrator alike are similarly unchanging In the stream of progressive revelation it would be irresponsible simply to dip into the waters of the Old Testament and translate its lessons to our day without due process That process might include asking certain questions of the texts under consideration Are the lessons provided by these Old Testament saints applicable to us as Christians in the twenty first century Do their words still speak today Only if Christian believers are still prone to such folly as chasing disposable pleasures instead of choosing meaningful pursuits

In the Authorized Version, with Notes and Introductions Christopher Wordsworth, 2024-03-18 Reprint of the original first published in 1875 **Major Prophets of To-Day** Edwin Emery Slosson, 1916-01-30 Each age has its own

prophets men who bring to it distinctive messages and present them in such effective form as to sway the currents of contemporary thought No age perhaps has had more diverse theories of life and the meaning of things presented to it than our own and certainly none has ever given such an opportunity for the original thinker to reach quickly a world wide audience as he can now through the medium of cheap books and free schools This volume originated in my own desire to find out what was being said by certain persons who I had reason to believe were worth attention But unless one is abnormally selfish he always wants to introduce others to an interesting acquaintance It is then simply as introductions that I would wish the following chapters to be taken In one way or another such men are influencing the thought of all of us but since we mostly get their philosophy at second hand or at third fourth or nth hand we fail to recognize its origin and are apt to misconceive its intent Ideas that reach us in fragmentary form and often after multiple translation through minds sometimes alien or hostile are not very useful It is always safer to drink at the source I have endeavored to give some idea of the scope and character of each man s work so that the reader may judge for himself whether it is profitable for him to follow up the acquaintance If he does he will find at the end of the chapter directions how to proceed further
