Medieval Monks and Monasteries Hunt Janin, Ursula Carlson, 2023-03-01 The Middle Ages in Western Europe extended from roughly 500 to 1500 c e During these thousand years hundreds of monastic communities were founded and played important roles in religious economic social literary and even military realms Each had different emphases and goals ranging from aristocratic monasteries and nunneries that offered comfort and security to rural institutions that specialized only in the most ascetic lifestyles This book has two goals The first is to detail the most significant monastic and secular events of the Middle Ages in Western Europe such as the decline of the Roman Catholic Church the rise of Protestantism and the various types and purposes of monasteries and nunneries The second is to introduce some notable and unusual individuals who made their mark upon the Middle Ages such as Eustache the French monk who became a pirate and made a pact with the Devil

A Cultural History of Work in the Medieval Age Valerie L. Garver, 2020-09-17 Winner of the 2020 PROSE Award for Multivolume Reference Humanities Work was central to medieval life Religious and secular authorities generally expected almost everyone to work Artistic and literary depictions underlined work s cultural value The vast majority of medieval people engaged in agriculture because it was the only way they could obtain food Yet their work led to innovations in technology and production and allowed others to engage in specialized labor helping to drive the growth of cities Many workers moved to seek employment and to improve their living conditions For those who could not work charity was often available and many individuals and institutions provided forms of social welfare Guilds protected their members and created means for the transmission of skills When they were not at work medieval Christians were to meet their religious obligations yet many also enjoyed various pastimes A consideration of medieval work is therefore one of medieval society in all its creativity and complexity and that is precisely what this volume provides A Cultural History of Work in the Medieval Age presents an overview of the period with essays on economies representations of work workplaces work cultures technology mobility society politics and leisure

Childhood, Orphans and Underage Heirs in Medieval Rural England Miriam Müller, 2018-12-12 This book explores the experience of childhood and adolescence in later medieval English rural society from 1250 to 1450 Hit by major catastrophes the Great Famine and then a few decades later the Black Death this book examines how rural society coped with children left orphaned and land inherited by children and adolescents considered too young to run their holdings Using manorial court rolls accounts and other documents Miriam Müller looks at the guardians who looked after the children and the chattels and lands the children brought with them This book considers not just rural concepts of childhood and the training and schooling young peasants received but also the nature of supportive kinship networks family structures and the roles of lordship to offer insights into the experience of childhood and adolescence in medieval villages more broadly

Ramsey Anne Reiber DeWindt, Edwin Brezette DeWindt, 2006 The people of Ramsey included clerics knights and laborers and their activities overlapped to the point that the infamous tripartite division of medieval society into those who prayed fought and worked becomes meaningless The book also crosses chronological boundaries moving through decades of rebellion plague demographic turnover violence bloodshed and war and ending with religious upheaval that spelled the death of the 600 year old abbey and the intrusion of an ambitious new lay landlord with courtly connections BOOK JACKET

The Routledge Handbook of Medieval Rural Life Miriam Müller, 2021-10-26 The Routledge Handbook of Medieval Rural Life brings together the latest research on peasantry in medieval Europe The aim is to place peasants as small scale agricultural producers firmly at the centre of this volume as people with agency immense skill and resilience to shape their environments cultures and societies This volume examines the changes and evolutions within village societies across the medieval period over a broad chronology and across a wide geography Rural structures families and hierarchies are examined alongside tool use and trade as well as the impact of external factors such as famine and the Black Death The contributions offer insights into multidisciplinary research incorporating archaeological as well as landscape studies alongside traditional historical documentary approaches across widely differing local and regional contexts across medieval Europe This book will be an essential reference for scholars and students of medieval history as well those interested in rural cultural and social history

Mapping the Medieval City Catherine A M Clarke, 2011-05-15 This ground breaking volume brings together contributions from scholars across a range of disciplines including literary studies history geography and archaeology to

investigate questions of space place and identity in the medieval city Using Chester as a case study with attention to its location on the border between England and Wales its rich multi lingual culture and surviving material fabric the essays seek to recover the experience and understanding of the urban space by individuals and groups within the medieval city and to offer new readings from the vantage point of twenty first century disciplinary and theoretical perspectives The volume includes new interpretations of well known sources and features such as the Chester Whistun Plays and the city s Rows and walls but also includes discussions of less studied material such as Lucian s In Praise of Chester one of the earliest examples of urban encomium from England and an important text for understanding the medieval city and the wealth of medieval Welsh poetry relating to Chester Certain key themes emerge across the essays within this volume including relations between the Welsh and English formulations of centre and periphery nation and region different kinds of mapping and the visual and textual representation of place borders and boundaries uses of the past in the production of identity and the connections between discourses of gender and space The volume seeks to generate conversation and debate amongst scholars of different disciplines working across different locations and periods and to open up directions for future work on space place and identity in the medieval city

Literature and class Andrew Hadfield,2021-08-24 This book explores the intimate relationship between literature and class in England and later Britain from the Peasants Revolt at the end of the fourteenth century to the impact of the French Revolution at the end of the eighteenth century and beginning of the nineteenth The book argues throughout that class cannot be seen as a modern phenomenon that occurred after the Industrial revolution but that class divisions and relations have always structured societies and that it makes sense to assume a historical continuity The book explores a number of themes relating to class class consciousness class conflict commercialisation servitude rebellion gender relations and colonisation After outlining the history of class relations five chapters explore the ways in which social class consciously and unconsciously influenced a series of writers Chaucer Shakespeare Behn Rochester Defoe Duck Richardson Burney Blake and Wordsworth

Contesting the Middle Ages John Aberth,2018-10-03 Contesting the Middle Ages is a thorough exploration of recent arguments surrounding nine hotly debated topics the decline and fall of Rome the Viking invasions the Crusades the persecution of minorities sexuality in the Middle Ages women within medieval society intellectual and environmental history the Black Death and lastly the waning of the Middle Ages The historiography of the Middle Ages a term in itself controversial amongst medieval historians has been continuously debated and rewritten for centuries In each chapter John Aberth sets out key historiographical debates in an engaging and informative way encouraging students to consider the process of writing about history and prompting them to ask questions even of already thoroughly debated subjects such as why the Roman Empire fell or what significance the Black Death had both in the late Middle Ages and beyond Sparking discussion and inspiring examination of the past and its ongoing significance in modern life Contesting the Middle Ages is essential reading for students of medieval history and

historiography **Lordship and Literature** Elliot Kendall,2008-05-08 In a sustained new reading of John Gower's major English poem *Confessio Amantis* 1390-3 Elliot Kendall shows how deeply the great household shaped the way Gower and his contemporaries including Chaucer, Langland, chroniclers and parliamentary petitioners imagined their world

Anglo-Saxon Keywords Allen J. Frantzen,2012-03-08 *Anglo Saxon Keywords* presents a series of entries that reveal the links between modern ideas and scholarship and the central concepts of Anglo Saxon literature, language and material culture. Reveals important links between central concepts of the Anglo Saxon period and issues we think about today. Reveals how material culture, the history of labor, medicine, technology, identity, masculinity, sex, food, land use is as important as the history of ideas. Offers a richly theorized approach that intersects with many disciplines inside and outside of medieval studies.

Medieval English in a Multilingual Context Sara M. Pons-Sanz, Louise Sylvester,2023-11-14 This edited book examines the multilingual culture of medieval England, exploring its impact on the development of English and its textual manifestations from a multi-disciplinary perspective. The book offers overviews of the state of the art of research and case studies on this subject in sub-disciplines of linguistics including historical linguistics, onomastics, lexicology and lexicography, sociolinguistics, code switching and language contact, and also includes contributions from literary and socio-cultural studies, material culture and palaeography. The authors focus on the variety of languages in use in medieval Britain including English, Old Norse, Old Dutch, Welsh, French and Latin, making the argument that understanding the impact of medieval multilingualism on the development of English requires multidisciplinaryity and the bringing together of different frameworks in linguistics and cultural studies to achieve more nuanced answers. This book will be of interest to academics and students of historical linguistics and medieval textual culture.

Arrowstorm Richard Wadge,2009-03-10 This book chronicles the overwhelming importance of the military archer in the late medieval period. The longbow played a central role in the English victory at the battles of Crecy and Agincourt. Completely undermining the supremacy of heavy cavalry, the longbow forced a wholesale reassessment of battlefield tactics. Richard Wadge explains what made England's longbow archers so devastating, detailing the process by which their formidable armament was manufactured and the conditions that produced men capable of continually drawing a bow under a tension of 100 pounds. Uniquely, Wadge looks at the economics behind the supply of longbows to the English army and the social history of the military archer. Crucially, what were the advantages of joining the first professional standing army in England since the days of the Roman conquest? Was it the pay, the booty or the glory? With its painstaking analysis of contemporary records, *Arrowstorm* paints a vivid portrait of the life of a professional soldier in the war which forged the English national consciousness.
