Making Common Sense Of Japan

William D. Hoover

Making Common Sense Of Japan:

Making Common Sense of Japan Steven R. Reed, 2010-11-23 Common misconceptions about Japan begin with the notion that it is a small country it is actually larger than Great Britain Germany or Italy and end with pronouncements that the Japanese think differently and have different values they do things differently because that is the way they are Steven Reed takes on the task of demystifying Japanese culture and behavior Through examples that are familiar to an American audience and his own personal encounters with the Japanese he argues that the apparent oddity of Japanese behavior flows quite naturally from certain objective conditions that are different from those in the United States Mystical allegations about national character are less useful for understanding a foreign culture than a close look at specific situations and conditions Two aspects of the Japanese economy have particularly baffled Americans that Japanese workers have permanent employment and that the Japanese government cooperates with big business Reed explains these phenomena in common sense terms He shows how they developed historically why they continue and why they helped produce economic growth He concludes that these practices are not as different from what happens in the United States as they may appear *The Hatoyama Dynasty* M. Itoh, 2003-11-07 This is a multi generational political history of the Hatoyamas a family that has participated at the highest levels of Japan's parliamentary government from its inception in the late 1800s The Hatoyama family is one of the most prominent political families in modern Japanese government It has produced six members of the Diet Japan's parliament many of whom have served as cabinet members and party leaders Due to the family's political legacy they have often been likened to the Kennedy family in American politics though they have been spared the tragedy and scandal visited upon the Kennedys Despite the significance of the Hatoyamas to modern Japanese politics this is the first comprehensive study available in English In tracing the rising political fortunes of this family it is also possible to study the role of hereditary politicians in Japan the growth and evolution of Japanese political parties and perhaps most importantly the way political leadership functions in Japan a society known more for consensus building than strong leaders *Geography and Japan's Strategic Choices* Peter J. Woolley, 2014-05-27 Geography this author contends is the indisputably unique feature of any country Geography and Japan's Strategic Choices begins by explaining Japan's unique location and topography in comparison to other countries Peter Woolley then examines the ways in which the country's political leaders in various eras understood and acted on those geographical limitations and advantages Proceeding chronologically through several distinct political eras the book compares the Tokugawa era the opening to the West the Meiji Restoration the long era of colonialization industrialization and liberalization the militarist reaction and World War II the occupation the Cold War and finally the rudderless fin de siècle Finally Woolley demonstrates how Japan's strategic situation in the twenty first century is informed by past and present geo strategic calculations as well as by current domestic and international changes For students and scholars of U S Japan relations and of Japanese history and politics this book offers any informed reader a fresh

perspective on a critical international relationship Japan's Navy Peter J. Woolley, 2000 An examination of the development and potential of the Japanese navy in the context of the US Japan alliance It presents Japan's coming of age as a military primarily naval power in a series of case studies on sea lane defence minesweeping and participation in UN peacekeeping operations

Modern Japan Elise K. Tipton, 2008-03-19 This thoroughly updated second edition of *Modern Japan* provides a concise and fascinating introduction to the social cultural and political history of modern Japan Ranging from the Tokugawa period to the present day the book charts the country's evolution into a modernized economic and political world power Dealing with a broad and stimulating range of topics in an engaging style that will appeal to university students and the general reader this book weaves social and political developments and balances a micro with a macro approach introducing details about everyday lives that shed light on the bigger picture of major historical changes Its systematic attention to gender issues minorities and popular culture distinguishes this history and contributes to a sense of the complexity and diversity of modern Japanese society Completely up to date and including many new images and a timeline that charts important events this highly accessible and comprehensive textbook is an essential resource for students scholars and teachers of Japanese history politics culture and society

Cultural and Social Division in Contemporary Japan Yoshikazu Shiobara, Kohei Kawabata, Joel Matthews, 2019-07-30 The recent manifestation of exclusionism in Japan has emerged at a time of intensified neoliberal economic policies increased cross border migration brought on by globalization the elevated threat of global terrorism heightened tensions between East Asian states over historical and territorial conflicts and a backlash by Japanese conservatives over perceived historical apologism The social and political environment for minorities in Japan has shifted drastically since the 1990s yet many studies of Japan still tend to view Japan through the dominant discourses of ethnic homogeneity *tanitsu minzoku shakai* and middle class society *so churyu shakai* which positions the exclusion of minorities as an exceptional phenomenon While exclusionism has been recognized as a serious threat to minority groups it has not often been considered a representative issue for the whole of Japanese society This tendency will persist until the discourses of *tanitsu minzoku shakai* and *so churyu shakai* are systematically debunked and Japan is widely recognized as both multiethnic and socio economically stratified Today as with most advanced capitalist countries serious social divides occasioned by the impacts of globalization and neoliberalism have destabilized Japanese society This book explores not only how Japanese society is diversified and unequal but also how diversity and inequality have caused people to divide into separate realities from which conflict and violence have emerged It empirically examines the current situation while considering the historical development of exclusionism from the interdisciplinary viewpoints of history policy studies cultural studies sociology and cultural anthropology In addition to analyzing the realities of division and exclusionism the authors propose theoretical alternatives to overcome such cultural and social divides

Japan's Multilayered Democracy Sigal Ben-Rafael Galanti, Alon Levkowitz, Nissim Otmazgin, 2014-12-24 This book introduces a multilayered approach to the study of

democracy combining specific knowledge of Japan with theoretical insights from the literature on democratization. It examines different aspects of Japanese democracy: historical, institutional, and sociocultural, to provide a conscious understanding of the nature and practice of democracy both in Japan and beyond. The book's chapters give testimony to the dynamic nature and continuity of Japanese democracy and analyze its strengths and weaknesses. The central argument of this book is that Japan's democratization should be seen as a multilayered experience shaped by the gradual process of absorbing democratic ideas, forming democratic institutions, and practicing democratic behaviors and rituals at various levels of society. As the case of Japan shows, democracy is neither a structured formula nor only a set of democratic laws and institutions but a continuous gradual process.

The Japan Handbook Patrick Heenan, 2014-01-27. The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts, focusing on the relations among regions as they meet the challenges of the twenty-first century. The series allows the non-specialist student to explore a wide range of complex factors: social and political as well as economic, that affect the growth of developing regions in Asia, Europe, and South America. Each Handbook provides an overview chapter discussing the region's economic conditions within an historical and political context, as well as 20 or more chapter-length essays written by recognized experts which analyze the key issues affecting a region's economy, its population, natural resources, foreign trade, labor problems, and economic inequalities, and other vital factors. In addition, the volumes offer useful support materials, including a series of appendices that include a detailed chronology of events in the region, a glossary of terms, biographical entries on key personalities, an annotated bibliography of further reading, and a comprehensive analytical index.

Historical Dictionary of Postwar Japan William D. Hoover, 2018-12-15. Japan is a mix of the old and the new, traditional and modern, and old-fashioned and innovative. It has traveled the road to a modern destination without totally losing sight of its traditions and values. Although some in Japan lament the passing of old ways, Japan has held on to a reasonable amount of its traditions and values. This is easier to find in its arts and crafts and its literature and films as well as in its social habits. This book will introduce the broad sweep of people, events, and trends, including the successes and failures of postwar Japan. This second edition of *Historical Dictionary of Postwar Japan* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Japan.

A Companion to Japanese History William M. Tsutsui, 2009-07-20. *A Companion to Japanese History* provides an authoritative overview of current debates and approaches within the study of Japan's history. Composed of 30 chapters written by an international group of scholars, it combines traditional perspectives with the most recent scholarly concerns. It supplements a chronological survey with targeted thematic analyses. It presents stimulating interventions into individual controversies.

Japanese Society Since 1945 Edward R. Beauchamp, 1998. Volume II of a six-volume study of the history of

contemporary Japan Written by leading academicians 20 essays cover topics including changes and continuities in Japan's culture similarities and differences in Japanese and American life the media and its role the problem of the graying of Japanese society the issue of long term care and the very un-Japanese idea of nursing homes for the elderly the relationship between marriage and names mothers and children the resolution of disputes popular culture and sex roles the transition from Hirohito's six decades of rule to that of a younger and more modern leader and current social issues such as homelessness child abuse and juvenile crime

Japan's Postwar Party Politics Masaru Kohno, 2020-11-10 In this sophisticated theoretical work Masaru Kohno presents a systematic reexamination of the evolution of party politics in Japan since the end of the second World War Because of the long one party dominance by the Liberal Democratic Party Japan's parliamentary democracy has often been viewed as unique in the developed world and most of the existing studies of Japanese party politics have addressed such determinants as its political culture historical background and socio-ideological cleavages According to the author these explanations do not adequately account for some of the most important changes that took place in Japanese party politics during the postwar period This study advances an alternative set of interpretations based on a microanalytic approach that highlights the incentive and bargaining power of individual political actors and their competitive and strategic behavior under existing institutional constraints According to Kohno the evolution of political life in postwar Japan depends on the same factors that are acknowledged to be at work in other industrialized nations He reveals through detailed case studies of government formation processes and statistical examinations of candidate nomination patterns that the microanalytic approach can establish forward looking and internally consistent interpretations of the postwar development of Japanese party politics Because Japan has usually been treated as a country of unique cultural historical and societal characteristics the analyses of this study point to the broader applicability of the microanalytic approach in the field of comparative politics especially for the exploration of party competition in advanced industrial democracies

The Ritual of Rights in Japan Eric A. Feldman, 2000-03-30 The Ritual of Rights in Japan challenges the conventional wisdom that the assertion of rights is fundamentally incompatible with Japanese legal political and social norms It discusses the creation of a Japanese translation of the word rights Kenri examines the historical record for words and concepts similar to rights and highlights the move towards recognising patients rights in the 1960s and 1970s Two policy studies are central to the book One concentrates on Japan's 1989 AIDS Prevention Act and the other examines the protracted controversy over whether brain death should become a legal definition of death Rejecting conventional accounts that recourse to rights is less important to resolving disputes than other cultural forms The Ritual of Rights in Japan uses these contemporary cases to argue that the invocation of rights is a critical aspect of how conflicts are articulated and resolved

The Japan That Never Was Dick Beason, Dennis Patterson, 2012-02-01 In this book the authors address Japan's economic crisis of the 1990s They argue that most attempts to reconcile Japan's past success with its current problems have been

inadequate primarily because scholars fail to fully understand how Japan's political economic system was organized and how it operated in the past. Revealing that certain long term political and economic trends suggested in subtle but unambiguous ways that the crisis of the 1990s was long in the making, the authors offer an alternative explanation for Japan's postwar political economic trajectory and a better understanding of the challenges that Japan currently faces.

The Nature of the Japanese State Brian J. McVeigh, 2013-09-13 Brian J. McVeigh uses a unique anthropological approach to step outside flawed stereotypes of Japanese society and really engage in the current debate over the role of bureaucracy in Japanese politics. To many in the West, Japan appears as a paradox: a rational high tech economic superpower and yet at the same time a deeply ritualistic and ceremonial society. This adventurous new study demonstrates how these nominally conflicting impressions of Japan can be reconciled and a greater understanding of the state achieved.

Japan's Politics and Economy Marie Söderberg, Patricia Nelson, 2009-12-16 For some time Japan has been under fire for adjusting too slowly to new realities. While this criticism may be valid on some levels, Japan has been transforming in tandem with both regional and global forces. However, these changes have been largely overshadowed by the immense changes in Asia, including the rise of China, the 1997 Southeast Asian financial crisis, and North Korea's development of nuclear weapons. Has Japan, the world's second largest economy, only been muddling through? In this volume, the contributors show that although the challenges faced are great, Japan is changing in areas ranging from political leadership, education policy, official development assistance, peace building, and security to defence, production, business associations, and innovation policy. The book analyses processes of change, focusing on the dynamics of change rather than structural change or institutional change per se, from four levels: the individual, domestic, regional, and global. Forces from outside Japan, such as a changing world order and changes in power relationships in Asia, have driven change along with pressures emerging within Japan, such as the increasing power of public opinion and competitiveness within markets. This book will be of interest to scholars and students of Japanese and Asian Studies, Politics, International Relations, Globalization, Business, and Economics.

Area Bibliography of Japan Ria Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art, feminism, and linguistics to corporate culture, history, and medicine. Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area.

Japanese Science Samuel Coleman, 1999-09-09 This ethnographic study of Japan's scientists looks firsthand at career structures and organizational issues that have hampered the advancement of scientists and scientific research in Japan. It provides analysis of the problem of career mobility in science, the status quo in university and government laboratories, relations between scientists and

Machiavelli's Children Richard J. Samuels, 2019-06-30 Two late developing nations, Japan and Italy, similarly obsessed with achieving modernity and with joining the ranks of the great powers, have traveled parallel courses with very different national identities. In this audacious book about leadership and historical choices, Richard J. Samuels emphasizes the role of human

ingenuity in political change He draws on interviews and archival research in a fascinating series of paired biographies of political and business leaders from Italy and Japan Beginning with the founding of modern nation states after the Meiji Restoration and the Risorgimento Samuels traces the developmental dynamic in both countries through the failure of early liberalism the coming of fascism imperial adventures defeat in wartime and reconstruction as American allies Highlights of Machiavelli s Children include new accounts of the making of postwar Japanese politics using American money and Manchukuo connections and of the collapse of Italian political parties in the Clean Hands Mani Pulite scandal The author also tells the more recent stories of Umberto Bossi s regional experiment the Lega Nord the different choices made by Italian and Japanese communist party leaders after the collapse of the USSR and the leadership of Silvio Berlusconi and Ishihara Shintaro on the contemporary right in each country

The Japanese Way of Justice David Ted Johnson, 2002 The major achievements of Japanese criminal justice are thus inextricably intertwined with its most notable defects and efforts to fix the defects threaten to undermine the accomplishments

BOOK JACKET

This is likewise one of the factors by obtaining the soft documents of this **Making Common Sense Of Japan** by online. Making Common Sense Of Japan Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Making Common Sense Of Japan free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Making Common Sense Of Japan free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced

search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Making Common Sense Of Japan free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Making Common Sense Of Japan. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Making Common Sense Of Japan any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Making Common Sense Of Japan Books
