Making Merit Making Art A Thai Temple In Wimbledon:

Making Merit, Making Art Sandra Cate, 2003-01-01 Their work both celebrated and controversial depicts stories from the Buddha's lives in otherworldly landscapes punctuated with sly references to this worldly politics and popular culture. Schooled in international art trends the artists reverse an Orientalist narrative of the Asian Other telling their own stories to diverse audiences and subsuming Western spaces into a Buddhist worldview. **BOOK JACKET** **Long-distance**

Merit-making Sandra Louise Cate, 1998 *Thai Art* David Teh, 2017-03-31 The interplay of the local and the global in contemporary Thai art as artists strive for international recognition and a new meaning of the national. Since the 1990s Thai contemporary art has achieved international recognition circulating globally by way of biennials, museums, and commercial galleries. Many Thai artists have shed identification with their nation but Thainess remains an interpretive crutch for understanding their work. In this book the curator and critic David Teh examines the tension between the global and the local in Thai contemporary art. Writing the first serious study of Thai art since 1992 and noting that art history and criticism have lagged behind the market in recognizing it, he describes the competing claims to contemporaneity as staked in Thailand and on behalf of Thai art elsewhere. He shows how the values of the global art world are exchanged with local ones, how they do and don't correspond, and how these discrepancies have been exploited. How can we make sense of globally circulating art without forgoing the interpretive resources of the local, national, or regional context? Teh examines the work of artists who straddle the local and the global, becoming willing agents of assimilation yet resisting homogenization. He describes the transition from an artistic subjectivity couched in terms of national community to a more qualified postnational one against the backdrop of the singular but waning sovereignty of the Thai monarchy and sustained political and economic turmoil. Among the national currencies of Thai art that Teh identifies are an agricultural symbology, a Siamese poetics of distance and itinerancy, and Hindu-Buddhist conceptions of charismatic power. Each of these currencies has been converted to a legal tender in global art, signifying sustainability, utopia, the conceptual, and the relational, but what is lost and what may be gained in such exchanges? **A Companion to Asian Art and Architecture** Rebecca M. Brown, Deborah S. Hutton, 2015-06-22 A
