Modern Algeria The Origins And Development Of A Nation:

Modern Algeria John Douglas Ruedy,1992 One of the largest countries in Africa and in the Arab world Algeria in the last half of the twentieth century has stood as a compelling model of national liberation and development Yet as the century nears a close Algeria is beset by a national crisis its economy in virtual collapse its single party political system discredited and its cultural identity challenged by emergent Islamic fundamentalism John Ruedy provides the first up to date history of Algeria s evolution from a segmented tribal order under the Ottoman Empire through five generations of French colonial exploitation to an eight year war of liberation and finally to independent statehood A concluding chapter surveys the developing political and economic crisis of the 1980s and 1990s which witnessed Algeria at a crossroads between the Islamists and military rule Back cover

Understanding and Teaching the Modern Middle East Omnia El Shakry,2020-10-20 Many students learn about the Middle East through a sprinkling of information and generalizations deriving largely from media treatments of current events This scattershot approach can propagate bias and misconceptions that inhibit students abilities to examine this vitally important part of the world Understanding and Teaching the Modern Middle East moves away from the Orientalist frameworks that have dominated the West s understanding of the region offering a range of fresh interpretations and approaches for teachers The volume brings together experts on the rich intellectual cultural social and political history of the Middle East providing necessary historical context to familiarize teachers with the latest scholarship Each chapter includes easy to explore sources to supplement any curriculum focusing on valuable and controversial themes that may prove pedagogically challenging including colonization and decolonization the 1979 Iranian revolution and the US led war on terror By presenting multiple viewpoints the book will function as a springboard for instructors hoping to encourage students to negotiate the various contradictions in historical study

Citizenship after Orientalism Engin

Isin,2016-04-29 This edited volume presents a critique of citizenship as exclusively and even originally a European or Western institution It explores the ways in which we may begin to think differently about citizenship as political subjectivity

Sustainability in Algerian Higher Education Salim Bouherar,Sihem Salem,2025-01-10 This volume provides a comprehensive overview of the current state of sustainability in Algerian higher education It examines the policies initiatives and practices that have been implemented across universities and other educational institutions while also identifying the gaps and opportunities that remain Through case studies interviews and analyses the authors explore how these institutions are working to align their missions with the broader goals of sustainable development and how they are contributing to the national and global discourse on sustainability

The Imperial Nation Josep M. Fradera,2021-06-08 How the legacy of monarchical empires shaped Britain France Spain and the United States as they became liberal entities Historians view the late eighteenth and early nineteenth centuries as a turning point when imperial monarchies collapsed and modern nations emerged Treating this pivotal moment as a bridge rather than a break *The Imperial Nation* offers a sweeping examination of four of these modern powers Great Britain France Spain and the United States and asks how after the great revolutionary cycle in Europe and America the history of monarchical empires shaped these new nations Josep Fradera explores this transition paying particular attention to the relations between imperial centers and their sovereign territories and the constant and changing distinctions placed between citizens and subjects Fradera argues that the essential struggle that lasted from the Seven Years War to the twentieth century was over the governance of dispersed and varied peoples each empire tried to ensure domination through subordinate representation or by denying any representation at all The most common approach echoed Napoleon s special laws which allowed France to reinstate slavery in its Caribbean possessions The Spanish and Portuguese constitutions adopted specialness in the 1830s the United States used comparable guidelines to distinguish between states territories and Indian reservations and the British similarly ruled their dominions and colonies In all these empires the mix of indigenous peoples European origin populations slaves and indentured workers immigrants and unassimilated social groups led to unequal and hierarchical political relations Fradera considers not only political and constitutional transformations but also their social underpinnings Presenting a fresh perspective on the ways in which nations descended and evolved from and throughout empires *The Imperial Nation* highlights the ramifications of this entangled history for the subjects who lived in its shadows

A Comparative Historical and Typological Approach to the Middle Eastern State System Lars Mjøset,Nils Butenschøn,Kristian Berg Harpviken,2024-04-19 Showcasing the legacy of Norwegian political scientist and sociologist Stein Rokkan this volume ushers in a new vision in the field of state formation and nation building

The Berber Identity Movement and the Challenge to North African States Bruce Maddy-Weitzman,2011-05-01 Like many indigenous groups that have endured centuries of subordination the Berber Amazigh peoples of North Africa are demanding linguistic and cultural recognition and the redressing of injustices Indeed the

movement seeks nothing less than a refashioning of the identity of North African states a rewriting of their history and a fundamental change in the basis of collective life In so doing it poses a challenge to the existing political and sociocultural orders in Morocco and Algeria while serving as an important counterpoint to the oppositionist Islamist current This is the first book length study to analyze the rise of the modern ethnocultural Berber Amazigh movement in North Africa and the Berber diaspora Bruce Maddy Weitzman begins by tracing North African history from the perspective of its indigenous Berber inhabitants and their interactions with more powerful societies from Hellenic and Roman times through a millennium of Islam to the era of Western colonialism He then concentrates on the marginalization and eventual reemergence of the Berber question in independent Algeria and Morocco against a background of the growing crisis of regime legitimacy in each country His investigation illuminates many issues including the fashioning of official national narratives and policies aimed at subordinating Berbers in an Arab nationalist and Islamic centered universe the emergence of a counter movement promoting an expansive Berber imagining that emphasizes the rights of minority groups and indigenous peoples and the international aspects of modern Berberism
