Adams, Lori Gruen, 2014-07-31 This book first offers an historical overview that situates ecofeminist theory and activism and provides a timeline for important publications and events This is followed by contributions from theorists and activists on how our emotions and embodiment can and must inform our relationships with the more than human world In the final section the contributors explore the complexities of appreciating difference and the possibilities of living less violently Throughout the book the authors engage with intersections of gender and gender non conformity race sexuality disability and species **Image Analysis** Puneet Sharma, Filippo Maria Bianchi, 2017-05-22 The two volume set LNCS 10269 and 10270 constitutes the refereed proceedings of the 20th Scandinavian Conference on Image Analysis SCIA 2017 held in Troms Norway in June 2017 The 87 revised papers presented were carefully reviewed and selected from 133 submissions The contributions are structured in topical sections on history of SCIA motion analysis and 3D vision pattern detection and recognition machine learning image processing and applications feature extraction and segmentation remote sensing medical and biomedical image analysis faces gestures and multispectral analysis **Deleuze and the Animal** Colin Gardner, 2017-04-01 Becoming animal is a key concept for Deleuze and Guattari the ambiguous idea of the animal as human and nonhuman life infiltrates all of Deleuze's work These 16 essays apply Deleuze's work to analysing television film music art drunkenness mourning virtual technology protest activism animal rights and abolition Each chapter questions the premise of the animal and critiques the centrality of the human This collection creates new questions about what the age of the Anthropocene means by animal and analyses and explores examples of the unclear boundaries between human and animal **Zoopoetics** Aaron M. Moe, 2013-12-19 Zoopoetics assumes Aristotle was right The general origin of poetry

resides in part in the instinct to imitate But it is an innovative imitation An exploration of the oeuvres of Walt Whitman E E Cummings W S Merwin and Brenda Hillman reveals the many places where an imitation of another species poesis Greek makings contributes to breakthroughs in poetic form However humans are not the only imitators in the animal kingdom Other species too achieve breakthroughs in their makings through an attentiveness to the ways of being of other animals For this reason mimic octopi elephants beluga whales and many other species join the exploration of what zoopoetics encompasses Zoopoetics provides further traction for people interested in the possibilities when and where species meet Gestures are paramount to zoopoetics Through the interplay of gestures the human animal textual spheres merge making it possible to recognize how actual biological animals impact the material makings of poetry Moreover as many species are makers zoopoetics expands the poetic tradition to include nonhuman poesis

Kindred of the Wild Charles G. D. Roberts, 2001 Controversial from the first but immensely popular worldwide Charles G D Roberts animal stories fixed the landscape and wildlife of Canada in a million imaginations As popular in their day as Kipling's Jungle Book Roberts books were far more concerned with precise natural history and with the real experience of wild creatures A century later with our sense of the shrinking wilderness these stores have a fresh unsentimental and elegaic impact Introduced by Sen Virgo this edition brings back into print the best work by Canada's first and greatest storytelling naturalist

Vegan Witchcraft Corey Lee Wrenn, 2025-08-25 Vegan Witchcraft is the first book to blend theories of animal rights feminism and modern witchcraft in pursuit of total liberation Perhaps the most foundational of all ethics in modern witchcraft is the creed Do no harm Despite this multispecies suffering persists in nonvegan witchcraft Vegan Witchcraft examines this intriguing conflict unpacking the role of Nonhuman Animals in modern witchcraft from a vegan feminist perspective to illuminate inequalities that persist in alternative spiritual practices in the West Recognizing Nonhuman Animals as comrades instead of consumables vegan witchcraft confronts the harm imposed on nature humans and other animals and identifies witchery as a powerful conduit for social change that draws its energy from plant based foods multispecies solidarity and feminine power The book critically analyzes popular witchcraft pathways in Britain and America to interrogate the many ways in which Nonhuman Animals are overlooked objectified or exploited highlighting theological inconsistencies and missed opportunities that might be overcome to create a stronger practice for women and their communities It reimagines witchcraft practice and lore to manifest justice and compassion for fellow humans Nonhuman Animals and nature Veganism is advanced as a magical practice of self care community responsibility conscious consumption societal transformation and environmental protection The book calls for the redirection of the modern witch's path toward a just world and away from the systematic symbolic and material exploitation of Nonhuman Animals that permeates witchcraft today This book will be essential reading for those interested in critical animal studies animal rights ecofeminism vegan religious studies environmental philosophy and witchcraft
