Nurses On The Move Migration And The Global Health Care Economy:

Nurses on the Move Mireille Kingma, 2018-07-05 South African nurses care for patients in London hospitals recruit Filipino nurses to Los Angeles and Chinese nurses practice their profession in Ireland In every industrialized country of the world patients today increasingly find that the nurses who care for them come from a vast array of countries In the first book on international nurse migration Mireille Kingma investigates one of today's most important health care trends The personal stories of migrant nurses that fill this book contrast the nightmarish existences of some with the successes of others Health systems in industrialized countries now depend on nurses from the developing world to address their nursing shortages This situation raises a host of thorny questions What causes nurses to decide to migrate Is this migration voluntary or in some way coerced When developing countries are faced with nurse vacancy rates of more than 40 percent is recruitment by industrialized countries fair play in a competitive market or a new form of colonialization What happens to these workers and the patients left behind when they migrate What safeguards will protect nurses and the patients they find in their new workplaces Highlighting the complexity of the international rules and regulations now being constructed to facilitate the lucrative trade in human services Kingma presents a new way to think about the migration of skilled health sector labor as well as the strategies needed to make migration work for individuals patients and the health systems on which they depend

The Global Health Care Chain John Connell, 2008-12-12 This book provides the first detailed analysis of the growing phenomenon of the international migration of skilled health workers and reveals its exceptional significance for both sending and receiving countries *Global Health Worker Migration* Margaret Walton-Roberts, 2023-07-13 International skilled health worker migration is a key feature of the global economy a major contributor to socio economic development and reflective of the transnationalization of health and elder care that is underway in most OECD nations The distribution of care and health workforce planning has previously been analysed solely within national contexts but increasingly scholars have shown how care deficits are being addressed through transnational responses This Element examines the complex processes that feed health worker migrants into global circulation the losses and gains associated with such mobility and examples of good practices where migrants sending and destination communities experience the best possible outcomes It will approach this issue through the lens of problems and solutions making connections across the micro meso and macro within and across the sections

Annual Review of Nursing Research, Volume 28 Annette Debisette, 2011-04-22 Annotation Internationally recognized experts critically examine the full gamut of literature on key topics in nursing practices including nursing theory care delivery nursing education and the professional aspects of nursing **High Skill Migration and Recession** Anna Triandafyllidou, Irina Isaakyan, 2016-04-29 Women migrants are doubly disadvantaged by their sex and outsider status when moving to a new country Highly skilled women are no exception to this rule This book explores the complex relationship between gender and high skill migration with a special focus on the impact of the current economic crisis on highly skilled

women migrants in Europe **Migration, Mobility and Multiple Affiliations** S. Irudaya Rajan,V. J. Varghese,Aswini Kumar Nanda,2016-03-14 This edited volume discusses how the Punjabi transnational experience has impacted Indian transnationalism and led to a diverse diaspora Applying Linguistics in Illness and Healthcare Contexts Zsófia Demjén,2020-04-16 All aspects of illness and healthcare are mediated by language experiences of illness death and healthcare provision are talked and written about face to face or online while medical consultations research interviews public health communications and even some diagnostic instruments are all inherently linguistic in nature How we talk to about and for each other in such a sensitive context has consequences for our relationships our sense of self how we understand and reason about our health as well as for the quality care we receive Yet linguistic analysis has been conspicuously absent from the mainstream of medical education health communication training and even the medical or health humanities The chapters in this volume bring together applied linguistic work using discourse analysis corpus methods conversation analysis metaphor analysis cognitive linguistics multiculturalism research interactional sociolinguistics narrative analysis and im politeness to make sense of a variety of international healthcare contexts and situations These include clinician patient interactions receptionist patient interactions online support forums online counselling public health communication media representations medical accounts diagnostic tools and definitions research interviews with doctors and patients The volume demonstrates how linguistic analysis can not only improve understandings of the lived experience of different illnesses but also has implications for communications training disease prevention treatment and self management the effectiveness of public health messaging access to appropriate care professional mobility and professional terminology among others **Ethics In Action** Peggy Connolly,David R. Keller,Martin G. Leever,Becky Cox White,2009-01-07 Through the analysis of forty ethical dilemmas drawn from real life situations Ethics in Action guides the reader through a process of moral deliberation that leads to the resolution of a variety of moral dilemmas Fosters critical thinking by evaluating the reasons people give to support their choices and actions Challenges the paradigm of moral relativism that often impedes efforts to resolve moral dilemmas Incorporates international perspectives often lacking in texts published for a U S audience **Health Inequalities and Global Justice** Patti Tamara Lenard,2014-08-19 Explores the moral dilemmas posed by disparities in health across nations The Question of Skill in Cross-Border Labour Mobilities Gracia Liu-Farrer,Brenda S.A. Yeoh,Michiel Baas,2023-03-31 Selecting migrants based on skill has become a widely practised migration policy in many countries around the world Since the late 20th century research on skilled and highly skilled migration has raised important questions about the value and ethics of skill based labour mobility More recent research has begun to question the concept of skill and skill categorisation in both government policy and academic research Taking the view that skills are socially constructed categories and highly malleable concepts in practice this edited volume centres the discussion on the following questions Who are the arbitrators of skill What constitutes skill And how is skill constructed in the migration process and in

turn how does skill affect the mobility The empirical studies in this volume show that diverse actors are involved in the process of identifying evaluating and shaping migrant skill The interpretation of migrants skill is frequently distorted by their ascriptive characteristics such as race ethnicity gender and nationality reflecting the influence of colonial legacy global inequality as well as social stratification Finally this edited volume emphasises the complex and frequently reciprocal relationship between skill and mobility This book will be of interest to researchers and advanced students of Sociology Human Geography Politics Social Anthropology Economics and Social Work It was originally published as a special issue of the Journal of Ethnic and Migration Studies

The SAGE Encyclopedia of Filipina/x/o American Studies Kevin Leo Yabut Nadal, Allyson Tintiangco-Cubales, E.J.R. David, 2022-09-13 Filipino Americans are one of the three largest Asian American groups in the United States and the second largest immigrant population in the country Yet within the field of Asian American Studies Filipino American history and culture have received comparatively less attention than have other ethnic groups Over the past twenty years however Filipino American scholars across various disciplines have published numerous books and research articles as a way of addressing their unique concerns and experiences as an ethnic group The SAGE Encyclopedia of Filipina x o American Studies the first on the topic of Filipino American Studies offers a comprehensive survey of an emerging field focusing on the Filipino diaspora in the United States as well as highlighting issues facing immigrant groups in general It covers a broad range of topics and disciplines including activism and education arts and humanities health history and historical figures immigration psychology regional trends and sociology and social issues

A Research Agenda for Migration and Health K. Bruce Newbold, Kathi Wilson, 2019 Evidenced by Europe's refugee crisis and the movement of undocumented workers into the US international migration has emerged as one of the most pressing issues faced by national and regional governments The health impacts of migration can be significant and multifaceted with access to health care often denied or limited with immigrants experiencing declining health The health of more vulnerable groups including women and the disabled is further compromised A Research Agenda for Migration and Health provides insight into key research directions and scholarship with topics including food security disability cultural safety and health care access

The Migration Industry and the Commercialization of International Migration Thomas Gammeltoft-Hansen, Ninna Nyberg Sørensen, 2013 Migration has become business big business Over the

last few decades a host of new business opportunities have emerged that capitalize both on the migrants desires to migrate and the struggle by governments to manage migration From the rapid growth of specialized transportation and labour immigration companies to multinational companies managing detention centres or establishing border security to the organized criminal networks profiting from human smuggling and trafficking we are currently witnessing a growing commercialization of international migration This volume claims that today it is almost impossible to speak of migration without also speaking of the migration industry Yet acknowledging the role the migration industry plays prompts a number of questions that have so far received only limited attention among scholars and policy makers The book offers new concepts and theory for the study of international migration by bringing together cross disciplinary theoretical explorations and original case studies It also provides a global coverage of the phenomena under study covering migrant destinations in Europe the United States and Asia and migrant sending regions in Africa Asia and Latin America

New and Old Routes of Portuguese Emigration Cláudia Pereira,Joana Azevedo,2019-06-17 This open access book offers a comparative overview on Portuguese emigration in Europe and outside the EU in times of recession It looks at Portuguese emigrants who after the crisis of 2008 moved both intra EU such as UK France Switzerland Germany and Spain but also into countries with historical links such as the USA and Canada and to Portuguese speaking countries such as Brazil Angola and Mozambique as well as the processes of return In addition to the dynamics of movement the book provides an in depth analysis of the heterogeneity of this emigration It deepens the multifaceted identities concerning social and professional pathways among highly skilled and less skilled emigrants The labour market continues to be the main regulatory force of Portuguese emigration which helps to explain the outflow and the processes of settlement and return Nonetheless this book demonstrates that non economic factors have likewise been of great importance in the decision to emigrate As such this book will be a valuable read to policy makers students and scholars in migration

Health Systems in Low- and Middle-Income Countries Richard D. Smith,Kara Hanson,2012 Outlines the key aspects issues concerning health systems of low middle income countries recognising the current global context within which these systems operate the dynamics of this context It brings together a set of renowned authors to tackle the issues that face population health health care in the twenty first century

Primary Health Care: People, Practice, Place Valorie A. Crooks,Gavin J. Andrews,2016-04-08 Health care is constantly undergoing change and refinement resulting from the adoption of new practices and technologies the changing nature of societies and populations and also shifts in the very places from which care is delivered Primary Health Care People Practice Place draws together significant contributions from established experts across a variety of disciplines to focus on such changes in primary health care not only because it is the most basic and integral form of health service delivery but also because it is an area to which geographers have made significant contributions and to which other scholars have engaged in thinking geographically about its core concepts and issues Including perspectives from both consumers and producers it moves beyond geographical

accounts of the context of health service provision through its explicit focus on the practice of primary health care. With arguments well supported by empirical research, this book will appeal not only to scholars across a range of social and health sciences but also to professionals involved in health services. *Handbook of Digital Homecare* Kanagasingam

Yogesani, Peter Brett, Michael Christopher Gibbons, 2009-10-01 Digital Homecare is a collection of services to deliver, maintain and improve care in the home environment using the latest ICT technology and devices. It is important to recognize the wide range of issues that are covered by digital homecare. This book shows a good selection of related issues, be it experience, technologies, managerial issues or standardization. A very diverse audience, elderly people with chronic conditions, disabled to name the most important groups, benefits from digital homecare within the comfort and protection of their own homes.

Migration, Education and Socio-Economic Mobility Nitya Rao, 2014-06-11 The primacy of education in development agendas is unquestioned. With the gradual acknowledgement of the potential benefits that migration can hold for development, the relationship between migration and education is a growing area of research. *Migration, Education and Socio-Economic Mobility* explores how the decisions people make in terms of both their migration choices and educational investments, mediated as they are by gender, class, caste and nationality, can potentially contribute to earning incomes, building social and symbolic capital or reshaping gender relations, all elements contributing to the process of economic and social mobility. Much of the existing literature examining the links between migration and education focuses either on the investment of migrant remittances in the education of their children back home or on brain drain, that refers to the migration of skilled workers from the developing to the developed world. Most of these discussions are firmly rooted in materialist arguments and while undeniably important, tend to underplay the social processes through which migration and education interact to shape people's lives, identities and status in society. Along with economic security, people also aspire to social mobility and status enhancement. The ideas presented in this book take a more varied and nuanced view of the relationship between education and migration. This book was originally published as a special issue of *Compare: A Journal of Comparative and International Education*. *Global Health Nursing in the 21st Century* Suellen Breakey, Inge B. Corless, Nancy L.

Meedzan, Patrice K. Nicholas, 2015-03-16 THE FIRST BOOK TO PRESENT THE SUCCESSES, CHALLENGES AND OPPORTUNITIES OF GLOBAL HEALTH NURSING. This text is designed specifically for nurses and nursing students who have an interest in global health as a specialty, regardless of experience or education level. It reflects both the unique contributions of the nursing profession and of other disciplines, which is in keeping with the editors' perspective on how to bring about lasting change. The text views global health through a nursing lens but maintains this awareness and appreciation of interprofessionalism throughout. The editors and contributors have firsthand experience of the complex dynamics in achieving global health and bring a wealth of knowledge to this important field, which has grown as a course and specialty. The text depicts the worldwide expansion of nursing partnerships between resource-rich and resource-limited

countries discusses challenges and obstacles and provides cases and guidance on how to achieve global health. It will appeal to all nurses from student nurses embarking on a global health experience to more experienced global health nurses who offer professional nursing expertise from around the world. The text responds to a recent WHO mandate which seeks the input of nurses and midwives as part of an interprofessional team of key strategists for facilitating global health. The Lancet report is also an important document used throughout the text and an interview with Dr Julio Frenk, author of that report, is included. Social, political, cultural, economic, and environmental factors, including climate change, are integrated into determinants of global health. The text covers the foundations of global health, including the emerging concept of climate justice, the ethical context of global health, and the importance of interprofessional education. It addresses key issues of global health with a focus on poor and vulnerable individuals, particularly women and children, and those living in areas of conflict. In addition to describing notable accomplishments toward achieving global health, the book focuses on the need for increasing access to primary care, improving clinical practice through expanded education, and engaging interdisciplinary researchers in discovery of viable solutions. The book includes the perspectives of nurses and colleagues from other disciplines in both resource-rich and resource-limited countries. References provide resources for additional study, and PowerPoint slides and a test bank for instructors accompany the text.
