The Aesthetic View of Moral Education Chuanbao Tan, 2023-11-30 The Aesthetic View of Moral Education is the result of in depth interdisciplinary research in education and aesthetic studies This book advocates the use of aesthetic ideas and methods to transform moral education activities which are often trapped in a state of forced indoctrination This book aims to address the problems of moral education in China and share certain commonalities in the exploration of educational theory The aesthetic view of moral education is a new and practical philosophy of education The author's theory of moral education as the appreciation of beauty the creation of beauty and the theory of the attainment of the ultimate realm of moral education provide an in depth analysis of the functions of aesthetic education for moral cultivation The author also offers unique interpretations of the aesthetic transformation of the process of moral education itself and the pursuit of the realm of moral life and education This book will be essential reading for students and scholars of education and philosophy East Asian studies and readers interested in China's cultural traditions

Addressing South Africa's Moral Crisis Nico Vorster, 2025-08-22 This book attempts to understand and address the psycho social dynamics behind South Africa's moral crisis It describes South Africa as afflicted by state capture violence corruption and the looting of state infrastructure thirty years after the establishment of democracy It then provides a holistic social diagnosis of this problem that integrates the findings of different disciplines into an overall picture of the forces at work in South Africa's collective moral decline Ultimately this book engages with the deeper psycho social phenomena behind South Africa's moral decline arguing that the diagnostic question of why this moral decline has taken place must be answered before turning to the normative question of what ought to happen in this situation Accordingly this book explores themes regarding the innate moral capacities of the human person the effects of need pressures and systemic pressures on ethical decision making and the phenomena of distorted motivational drives and distorted behavioral responses It shows how the framing of virtue centered moral identities might act as buffers against moral disengagement strategies and assist in promoting pro social behavior It then specifies the macro social changes required to create such an ethical social climate The book is of interest to social scientists ethicists behavioral scientists educators theologians and moral philosophers In the end this case study of South Africa shows us more broadly how maintaining public morality and social cohesion is a challenge that most modern societies face

The Oxford Handbook of Parenting and Moral Development Deborah J. Laible, Gustavo Carlo, Laura M. Padilla Walker, 2019-09-30 The Oxford Handbook of Parenting and Moral Development provides a collection of state of the art theories and research on the role that parents play in moral development Contributors who are leaders in their fields take a comprehensive yet nuanced approach to considering the complex links between parenting and moral development

Professor William Damon charts pragmatic workable approaches to foster basic virtues such as honesty responsibility kindness and fairness methods that can make an invaluable difference throughout children s lives **The ^AOxford Handbook of Moral Development** Lene Arnett Jensen,2020-01-24 Drawing together the work of over 90 authors hailing from diverse disciplines such as anthropology education human development psychology and sociology this handbook reflects the dynamic and interdisciplinary nature of the field of moral development Across more than 40 chapters this handbook opens the door to a broad view of moral motives and behaviors ontogeny and developmental pathways and contexts that children adolescents and adults experience with respect to morality It offers a comprehensive and timely tour of the field

The Future of Religion in American Politics Charles Dunn,2010-09-12 Should parents receive vouchers to send their children to religious schools What limits if any should the government place on abortion Should the government permit and fund stem cell research Should religious organizations have the right to prohibit the employment of homosexuals Should public schools teach both creationism and evolution How does religion influence our political stances on gay marriage The death penalty Immigration The issues are real The emotions are intense The solutions are difficult to reach and often problematic From the White House to the courthouse from governors mansions to the United States Supreme Court religion factors into many contemporary legal controversies Efforts to establish the proper balance between church and state create heated debates in America and raise seemingly insoluble questions Politicians and their advisers walk a fine line when addressing religious issues in an increasingly pluralistic society where religious factions attempt to impose their values on the electoral and legislative processes The Future of Religion in American Politics presents thoughtful wide ranging essays by twelve eminent public intellectuals and scholars offering rich and stimulating views on one of the most divisive issues of our time Editor Charles W Dunn and the contributors assess the impact of religion on American politics in four distinct time periods the founding the Civil War the New Deal era and the modern era Dunn out lines seven propositions that characterize the interaction of religion and politics during these time periods and describes how and why religion continues to influence politics in America Contributors to this volume argue that whereas religion in the founding era held society together in a shared belief of the biblical portrayal of humanity today s pluralistic religious interpretations of God appear to be tearing society apart The rise of Islam and other world religions poses perplexing questions about the issue of tolerance Can America survive as a free society without commonly accepted morals that are based in religion Is America a secular society with a clear separation of church and state or a government created and informed by ever changing religious values The Future of Religion in American Politics includes essays about religion in the public square evangelical and faith based politics in presidential elections The authors investigate many thought provoking questions about the extent of religious influence in the U S government today and its likely impact in the future Lucid and accessible this book covers a wide range of issues and will be invaluable to students of politics religious studies and history *Character Education for 21st Century Global Citizens*

Ruth W. Grant,2011-03-15 The recent spate of books and articles reflecting on the question of evil might make one forget that the question of just what constitutes goodness is no less urgent or perplexing Everyone wants to think of him or herself as good But what does a good life look like And how do people become good Are there multiple competing possibilities for what counts as a good life all equally worthy Or is there a unified and transcendent conception of the good that should guide our judgment of the possibilities What does a good life look like when it is guided by God How is a good life involved with the lives of others And finally how good is good enough These questions are the focus of In Search of Goodness the product of a year long conversation about goodness The eight essays in this volume challenge the dichotomies that usually govern how goodness has been discussed in the past altruism versus egoism reason versus emotion or moral choice versus moral character Instead the contributors seek to expand the terms of the discussion by coming at goodness from a variety of perspectives psychological philosophic literary religious and political In each case they emphasize the lived realities and particulars of moral phenomena taking up examples and illustrations from life literature and film From Achilles and Billy Budd to Oskar Schindler and Shel Silverstein s The Giving Tree to Iris Murdoch and the citizens of Flagstaff Arizona readers will find a wealth of thought provoking insights to help them better understand this most basic but complex element of human life and happiness **Liminality in Tourism**

Robert S. Bristow,Ian Jenkins,2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism Liminality in Tourism Spatial and Temporal Considerations aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the

current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal *Tourism Geographies* **New Wars and New Soldiers** Asst Prof Jessica Wolfendale, Dr Paolo Tripodi, 2013-03-28 Modern conflicts now bear little relation to traditional wars between states The threat of terrorism the creation of new military technologies the rise of private military companies and the increasing involvement of the military in counter terrorism and humanitarian operations all pose challenges to traditional ideas about the ethics of war the relevance of current international law governing armed conflict and Just War theory How then should military ethics approach these new forms of conflict Modern military ethics now includes work from disciplines as diverse as philosophy history sociology international relations politics and psychology This diversity of approaches suggests that the approach to contemporary military ethics that is best suited to understanding the wars of today is a broad multidisciplinary vision By bringing together contributors from philosophy international relations security studies and strategic studies this volume offers just such an interdisciplinary analysis The chapters in this volume explore the ethical issues posed by recent developments in both the nature and conduct of war as well as focusing on the role and needs of modern military personnel This comprehensive approach allows the reader to see the broad scope of modern military ethics and to understand the numerous questions about modern conflict that require critical scrutiny Aimed at both military and academic audiences this volume will be of significant interest to researchers and students in philosophy sociology military and strategic studies international relations politics and security studies [Nine Commentaries on the Communist Party](#), 2015-02-04 *Nine Commentaries on the Communist Party* was published amidst one of Chinese Communist Party's most brutal persecution against the 100 million practitioners of Falun Gong in China When loved ones and witnesses see innocent meditators behind bars tortured and harvested for their organs it is hard to stand on the sideline That is why so many Chinese people and those sympathetic to the cause are doing one thing they know they can do Spread the word quit the Party [Personality, Identity, and Character](#) Darcia Narváez, Daniel K. Lapsley, 2009-06-29 This edited volume features cutting edge work in moral psychology by pre eminent scholars in moral self identity moral character and moral personality **Nine Commentaries on the Communist Party** The Epoch Group, 2004 This groundbreaking book is systematically dismantling the Chinese Communist Party CCP It is a final verdict on the CCP that has been rapidly spreading in China During the CCP's 80 year history its lies dictatorship various political movements and crackdowns have wreaked unprecedented havoc on the land of China and caused irreversible damage to China's traditional moral values In today's China under the CCP's violent and

despotic rule social tensions are dangerously high and crises are appearing in succession The Chinese communist regime is seated on an active volcano that may erupt at any moment The Nine Commentaries have posed the greatest challenge to the CCP's ideology since the party was established The book has struck a chord deep in the hearts of many Chinese people in China and around the world It is poised to be a major part in the rebirth of the nation's soul **Dialogue and the New Cosmopolitanism** Fred Dallmayr, 2022-11-28 Dialogue and the New Cosmopolitanism Conversations with Edward Demenchonok stands in opposition to the doctrine that might makes right and that the purpose of politics is to establish domination over others rather than justice and the good life for all In the pursuit of the latter goal the book stresses the importance of dialogue with participants who take seriously the views and interests of others and who seek to reach a fair solution In this sense the book supports the idea of cosmopolitanism which by contrast to empire involves multi lateral cooperation and thus the quest for a just cosmopolis The international contributors to this volume with their varied perspectives are all committed to this same quest Edited by Fred Dallmayr the chapters take the form of conversations with Edward Demenchonok a well known practitioner of international and cross cultural philosophy The conversations are structured in parts that stress the philosophical anthropological cultural and ethical dimensions of global dialogue In our conflicted world it is inspiring to find so many authors from different places agreeing on a shared vision Cognition, Literature, and History Mark J. Bruhn, Donald R. Wehrs, 2013-11-26 Cognition Literature and History models the ways in which cognitive and literary studies may collaborate and thereby mutually advance It shows how understanding of underlying structures of mind can productively inform literary analysis and historical inquiry and how formal and historical analysis of distinctive literary works can reciprocally enrich our understanding of those underlying structures Applying the cognitive neuroscience of categorization emotion figurative thinking narrativity self awareness theory of mind and wayfinding to the study of literary works and genres from diverse historical periods and cultures the authors argue that literary experience proceeds from qualitatively heightens and selectively informs and even reforms our evolved and embodied capacities for thought and feeling This volume investigates and locates the complex intersections of cognition literature and history in order to advance interdisciplinary discussion and research in poetics literary history and cognitive science **The Psychology of the Armenian Genocide** George Green, 2025-02-25 This book examines the radicalization of beliefs tactics and oppression by a dominant governing group when faced with a subordinate group's historic quest for basic human rights dating back for five centuries A unique approach an analysis of archival documents including minutes of Turkish meetings provides a window into the inner workings and decision making of the leaders Their persuasive propaganda campaign is demystified by applying contemporary social psychological research to identify and explain their use of psychological mechanisms to weaponize intergroup prejudice and exclusionary ideology Social antagonistic traits of the leader's ideology dark personality traits and propensity for moral disengagement are readily apparent in their highly effective propaganda

campaign to gain the necessary support from their party and Turkish civilians for their genocidal agenda The Psychology of the Armenian Genocide will appeal to scholars and students alike interested in better understanding how a nation of people can be manipulated to support the annihilation of subordinate groups It will also appeal to a much wider range of people who would be interested in better understanding the manipulation of beliefs and morality to create intergroup divisions and intolerance for cooperation

The Disabled Contract Jonas-Sébastien Beaudry,2021-03-18 Beaudry shows how the social contract fails to take account of the moral status of people with severe intellectual disabilities
