Jain, Branko Kovačević, 2015-11-02 These volumes constitute the Proceedings of the 6th International Workshop on Soft Computing Applications or SOFA 2014 held on 24-26 July 2014 in Timisoara Romania This edition was organized by the University of Belgrade Serbia in conjunction with Romanian Society of Control Engineering and Technical Informatics SRAIT Arad Section The General Association of

Engineers in Romania Arad Section Institute of Computer Science Iasi Branch of the Romanian Academy and IEEE Romanian Section The Soft Computing concept was introduced by Lotfi Zadeh in 1991 and serves to highlight the emergence of computing methodologies in which the accent is on exploiting the tolerance for imprecision and uncertainty to achieve tractability robustness and low solution cost Soft computing facilitates the use of fuzzy logic neurocomputing evolutionary computing and probabilistic computing in combination leading to the concept of hybrid intelligent systems The combination of such intelligent systems tools and a large number of applications introduce a need for a synergy of scientific and technological disciplines in order to show the great potential of Soft Computing in all domains The conference papers included in these proceedings published post conference were grouped into the following area of research Image Text and Signal Processing li Intelligent Transportation Modeling and Applications Biomedical Applications Neural Network and Applications Knowledge Based Technologies for Web Applications Cloud Computing Security Algorithms and Computer Networks Knowledge Based Technologies Soft Computing Techniques for Time Series Analysis Soft Computing and Fuzzy Logic in Biometrics Fuzzy Applications Theory and Fuzzy Control Bussiness Process Management Methods and Applications in Electrical Engineering The volumes provide useful information to professors researchers and graduated students in area of soft computing techniques and applications as they report new research work on challenging issues

Digitalization And Smart Technologies In Gastronomy Dr. Cihan CANBOLAT, Dr. İbrahim ÇEKİÇ, 2022-11-23 Digitalization And Smart Technologies In Gastronomy **Biomarkers in Nutrition** Vinood B. Patel, Victor R. Preedy, 2022-10-14 This handbook provides an all inclusive insight into biomarkers assessing the impact of nutrition on human health The reader will gain insight into the area of circulating body fluid biomarkers from cardiovascular related markers to liver functional tests Various biomarkers related to the intake of micronutrient and macronutrients are presented and the effects of different diets pesticide exposure and dietary supplements are discussed so are changes of genetic cellular and histological variables This systematic handbook is a must have for biomedical researchers as well as clinicians and pharmacologists who wish to gain extensive understanding on the analysis of effects of various nutritional and dietary effects on human health ageing and longevity Artificial Intelligence-Empowered Bio-medical Applications Dimitrios P. Panagoulas, George A.

Tsihrintzis, Maria Virvou, 2025-07-19 The book delves into advancements in personalized medicine highlighting the transition from generalized treatments to tailored strategies through AI and machine learning It first emphasizes the role of biomarkers in training predictive models and neural networks enhancing disease diagnosis and patient management It then explores AI driven healthcare systems particularly the use of microservices to improve scalability and management Additionally it examines regulatory challenges the need for AI explainability and the PINXEL framework which defines explainability requirements using the technology acceptance model TAM and the diffusion of innovation theory DOI Furthermore the book evaluates the capabilities of large language models including ChatGPT and GPT 4V in medical applications with a focus on

diagnosis and structured assessments in general pathology Lastly it introduces an AI powered system for primary care diagnosis that integrates language models machine learning and rule based systems The interactive AI assistants Med Primary AI assistant and Dermacen Analytica leverage natural language processing image analysis and multi modal AI to enhance patient interactions and provide healthcare professionals with high accuracy personalized diagnostic support By taking a holistic approach the book underscores the integration of AI into healthcare aiming to support medical professionals in patient diagnosis and management with precision and adaptability

Biochemistry, Nutrition, and Therapeutics of Black Cumin Seed Abdalbasit Adam Mariod, 2022-11-05 Biochemistry Nutrition and Therapeutics of Black Cumin Seed covers the history of medicinal uses of *N sativa* and its position in various cultures agronomy cultivation and agricultural practices The book also brings the biochemical composition carbohydrates polysaccharides and nutritional value of black cumin seeds while also exploring them as a potential functional food Written by an international team of black cumin seeds researchers this book aims to reach producers nutraceuticals and pharmaceutical companies unconventional oil producing companies seed oils researchers Institutes and research groups of medicinal plants Food and chemistry students what they need to understand about the black cumin seed Black cumin s application as a food additive and flavoring agent have been reported in various countries around the world Furthermore previous studies have identified many volatile components present in *N sativa* seeds including thymoquinone a main compound that has antioxidant antimicrobial anti malarial anti cancer activities and help in treatment of bronchial asthma ischemia and cardiovascular diseases besides many other compounds that can induce pharmacological effects and have therapeutic potential in humans Thoroughly explores the biochemical composition nutritional values functional and medicinal potentials of black cumin seed and where they can be grown worldwide Covers the cultivation and agricultural practices of black cumin seeds Brings medicinal uses of black cumin seeds such as anti malarial and anti cancer activities Details the biological activities of the black cumin seeds and its nutritional effects

Mobile Technologies and Applications for the Internet of Things Michael E. Auer, Thrasyvoulos Tsiatsos, 2019-04-17 This book discusses and assesses the latest trends in the interactive mobile field and presents the outcomes of the 12th International Conference on Interactive Mobile Communication Technologies and Learning IMCL2018 which was held in Hamilton Canada on October 11 and 12 2018 Today interactive mobile technologies are at the core of many if not all fields of society Not only does the younger generation of students expect a mobile working and learning environment but also the new ideas technologies and solutions coming out practically every day are further strengthening this trend Since its inception in 2006 the conference has been devoted to highlighting new approaches in interactive mobile technologies with a focus on learning The IMCL conferences have since established themselves as a valuable forum for exchanging and discussing new research results and relevant trends as well as practical experience and best practice examples This book contains papers in the fields of Interactive Collaborative Mobile Learning Environments Mobile Health

Care Training Game based Learning Design of Internet of Things IoT Devices and Applications Assessment and Quality in Mobile Learning Its potential readership includes policymakers educators and researchers in pedagogy and learning theory schoolteachers the learning industry further education lecturers etc Congress on Smart Computing Technologies Jagdish Chand Bansal, Harish Sharma, Antorweep Chakravorty, 2025-02-24 This book presents high quality research papers presented at Congress on Smart Computing Technologies CSCT 2023 organized by SAU Center for Research and Innovative Learning SCRIL South Asian University India from 23 December 2023 The book extensively covers recent research in algorithms for smart computing AI and machine learning in smart computing edge computing algorithms adversarial networks and autoencoders data visualization data mining data analytics machine learning game theory high performance computing mobile and ubiquitous platforms for smart environments cloud edge fog computing technologies for smart systems Internet of Things IoT and industrial IoT technologies for smart systems smart device and hardware security privacy and economics in smart environments big data healthcare informatics smart precision agriculture smart transportation social network analysis and human computer interaction The work is presented in two volumes **Polyethersulfone: Membranes for Multiple Clinical Applications** F. Locatelli, C. Ronco, Claudio Ronco, C. Tetta, 2003-07 Since high permeability membranes were first introduced their performance has constantly improved The publication at hand focuses on a new polymer polyethersulfone which was designed to provide better hydraulic permeability as well as high diffusive performance thus allowing for fine tuning for different clinical applications In the first part of the book physico chemical characteristics and ultrastructural features of the polyethersulfone membrane with regard to different clinical uses ranging from low to high permeability membranes are dealt with The second part is devoted to clinical applications of the polyethersulfone membrane in ESRD Its high biocompatibility combined with the matching set up of the hemodialyzer was associated with stable functional efficiency and permeability with regard to albumin amino acids beta 2 microglobulin and sepsis associated cytokines in different hemodialytic modalities such as hemodiafiltration high flux hemodialysis paired hemodiafiltration PHF online and low flux hemodialysis This publication is intended for students clinicians and researchers alike Descriptions of innovative technological and methodological approaches regarding the evaluation of membrane and dialyzer performances and biocompatibility make it a useful basis for those interested in future comparisons among different hemodialyzers

Handbook of Clinical Nutrition and Aging Connie Watkins Bales, Julie L. Locher, Edward Saltzman, 2014-11-27 This is the new and fully revised third edition of the well received text that is the benchmark book in the field of nutrition and aging The editors specialists in geriatric nutrition medical sociology and clinical nutrition respectively and contributors a panel of recognized academic nutritionists geriatricians clinicians and other scientists have added a number of new chapters and have thoroughly updated the widely acclaimed second edition This third edition provides fresh perspectives and the latest scientific and clinical developments on the interaction of nutrition with age associated disease and provides practical

evidence based options to enhance this at risk population s potential for optimal health and disease prevention Chapters on a wide range of topics such as the role of nutrition in physical and cognitive function and coverage of an array of clinical conditions obesity diabetes heart failure cancer kidney disease osteoporosis compliment chapters on food insecurity anti aging and nutritional supplements making this third edition uniquely different from previous editions Handbook of Clinical Nutrition and Aging Third Edition is a practical and comprehensive resource and an invaluable guide to nutritionists physicians nurses social workers and others who provide health care for the ever increasing aging population **Health Informatics Meets eHealth** Günter Schreier,2018-05-15 Biomedical engineering and health informatics are closely related to each other and it is often difficult to tell where one ends and the other begins but ICT systems in healthcare and biomedical systems and devices are already becoming increasingly interconnected and share the common entity of data This is something which is set to become even more prevalent in future and will complete the chain and flow of information from the sensor via processing to the actuator which may be anyone or anything from a human healthcare professional to a robot Methods for automating the processing of information such as signal processing machine learning predictive analytics and decision support are increasingly important for providing actionable information and supporting personalized and preventive healthcare protocols in both biomedical and digital healthcare systems and applications This book of proceedings presents 50 papers from the 12th eHealth conference eHealth2018 held in Vienna Austria in May 2018 The theme of this year s conference is Biomedical Meets eHealth From Sensors to Decisions and the papers included here cover a wide range of topics from the field of eHealth The book will be of interest to all those working to design and implement healthcare today

Nanofertilizer Delivery, Effects and Application Methods Kamel A Abd-Elsalam,2024-01-13 Nanofertilizer Delivery Effects and Application Methods explores the science of nutrient nanoformulation a potential tool toward sustainable and climate sensitive crops Wide spread use of chemical fertilizers has been shown to causes significant damage to soil structure mineral cycles soil microbial flora plants and creating human health risk both immediately and for future generations Through methods that include targeted distribution and gradual or controlled release nanostructured fertilizers can improve nutrient usage efficiency According to recent studies through environmental cues and biological demands nano fertilizers can respond to specifical challenges and boost agricultural yield by increasing the rate of seed germination seedling growth photosynthetic activity nitrogen metabolism and carbohydrate and protein synthesis Nanofertilizer Delivery Effects and Application Methods discusses the potential agricultural benefits of nanofertilizers from coverage of their formulation and delivery to application plant uptake translocation and destiny and their overall effect on plant physiology and metabolism This book is ideal for researchers in industry and academia Highlights types uses and advantages of a wide range and variety of nanofertilizers on agri food sectors Looks at current practices their challenges and future development opportunities Includes methods and applications for real world insights Conditions of Competition for Milk Protein Products in the U.S.

Market, Inv. 332-453 United States International Trade Commission,2004 Handbook of Materials for Nanomedicine Vladimir Torchilin,Mansoor M. Amiji,2011-11 The fast developing field of nanomedicine uses a broad variety of materials to serve as delivery systems for drugs genes and diagnostic agents This book is the first attempt to put under one cover all major available information about these materials both still on experimental levels and already applied in patients

Intelligent Computing Kohei Arai,2024-06-14 Explore the forefront of computing with the proceedings of the Computing Conference 2024 Featuring 165 carefully selected papers from a pool of 457 submissions this collection encapsulates the cutting edge research and innovation presented during the conference Delve into a diverse range of topics insights and methodologies that shape the future of computing Whether you re an academic researcher or enthusiast this concise volume offers a snapshot of the dynamic and collaborative spirit defining the Computing Conference 2024 Nutritional Health Norman J. Temple,Ted Wilson,David R. Jacobs, Jr.,George A. Bray,2023-05-10 This fourth edition brings together a diverse range of experts in nutrition related areas to discuss recent thinking and discoveries in nutrition especially in relation to topics that have the greatest capacity to improve human health and nutritional implementation An overview of nutrition science in the third decade of the twenty first century reveals that much water has flown under the bridge of the advancing river that is nutrition research and practice With these large accumulations of developments in the field of nutrition the need for a new edition of this book is obvious Our vastly improved nutrition knowledge gives us the capability of preventing a sizable fraction of the chronic diseases that afflict the people of our world but only if these discoveries can be translated into effective action at the population level Nutritional Health endeavours to address the needs of those who would most benefit from up to date information on key areas in the field of nutrition The book starts with a discussion of the nature of nutritional research then moves into an overview of the most important aspects of the complex interactions between diet its nutrient components and their impacts on disease states and on those health conditions that increase the risk of chronic diseases Parts three and four discuss diet and include new chapters on the Mediterranean diet the DASH diet the flexitarian diet and the low carbohydrate diet The final two parts of the book discuss emerging trends in nutrition science such as gut microbiome and sustainable diet and areas of controversy in nutrition such as the influence of the food industry and dietary supplements Up to date and comprehensive Nutritional Health Strategies for Disease Prevention Fourth Edition offers physicians dietitians and nutritionists a practical data driven integrated resource to help evaluate the critical role of nutrition

Organizational Knowledge Management Tanusree Chakraborty,Tahir Mumtaz Awan,Muhammad Kamran,Malabika Tripathi,2025-07-07 This new volume explores the multifaceted landscape of knowledge management with a particular emphasis on its application in higher education The book offers diverse perspectives strategies and tools to enable global institutions to succeed and remain competitive in today s disruptive business environment Recognizing higher education as a conduit for global knowledge acquisition propagation and continuous learning the book discusses the interplay between

technologies techniques and people the strategic value of knowledge the role of reward systems and the significance of tacit knowledge presenting diverse global perspectives and showcasing strategies that foster better knowledge retention aiming to elevate the standards of higher education **Science, technology, and foreign affairs** Diane B. Bendahmane, David William McClintock, 1985 *Food in the Metaverse and Web 3.0 Era: Intersecting Food, Technology, and Culture* Alhussaini Hamad, Ahmed M., Soni, Rashmi, 2025-02-13 In the ever evolving landscape of technology the emergence of the metaverse and web 3 0 is set to revolutionize how we interact work and eat From virtual restaurants and augmented reality to personalized nutrition apps and blockchain powered food traceability the metaverse and web 3 0 are transforming the food industry Digital dining experiences are on the rise while social media and influencer culture continue to impact food trends The potential of emerging technologies such as 3D food printing lab grown meat and smart agriculture revolutionize the way we produce distribute and consume food Further research into these technologies may reveal their impact on the future of food in the digital age Food in the Metaverse and Web 3 0 Era Intersecting Food Technology and Culture explores the intersection of food technology and culture offering insights into the future of gastronomy and culinary experiences It examines the evolving relationship between food and technology and encourages reimagined possibilities for the future of food This book covers topics such as influencer marketing food science and machine learning and is a useful resource for computer engineers data scientists sociologists business owners healthcare workers academicians and researchers
