Kabbalah and Catastrophe Hartley Lachter, 2024-10-22 While premodern kabbalistic texts were not chronicles of historical events they provided elaborate models for understanding the secret divine plan guiding human affairs Hartley Lachter analyzes innovative kabbalistic doctrines such as the idea of reincarnation and the notion of multiple successive universes through which Jewish mystics sought to demonstrate that the misfortunes of Jewish history were in fact necessary steps toward redemption Lachter argues that these works mostly composed between the early 14th century and the generation affected by the Spanish expulsion in the early 16th century enabled Jewish readers to make sense of the troubling misfortunes of their own time Kabbalah and Catastrophe uncovers the remarkable variety of ways that kabbalists deployed esoteric tradition to argue that God had not abandoned the Jews to the inscrutable forces of history Instead they suggested to readers that Jews are history s primary actors and that despite their small numbers and lack of military power Jews nonetheless secretly push history forward For scholars of Jewish mysticism and medieval Jewish history Lachter articulates how premodern mystical texts can be crucial sources of insight into how Jews understood the meaning of history

The Architectonics of Hope Kyle Gingerich Hiebert, 2017-09-19 The Architectonics of Hope provides a critical excavation and reconstruction of the Schmittian seductions that continue to bedevil contemporary political theology Despite a veritable explosion of interest in the work of Carl Schmitt which increasingly recognizes his contemporary relevance and prescience there nevertheless remains a curious and troubling reticence within the discipline of theology to substantively engage the German jurist and sometime Nazi apologist By offering a genealogical reconstruction of the manner and extent to which recognizably Schmittian gestures are unwittingly repeated in subsequent debates that often only implicitly assume they have escaped the violent aporetics that characterize Schmitt's thought this volume illuminates hidden resonances between ostensibly opposed political theologies Using the complex relationship between violence and apocalyptic as a guide the genealogy traces the transformation of political theology through the work of a surprising collection of figures including Johann Baptist Metz John Milbank David Bentley Hart and John Howard Yoder
