Redeeming Creation Fred Van Dyke, 1993-06-01 *Christian Faith and Environmental Stewardship* Daniel K. Lagat, 2019-03-15 This book covers the contribution of Christianity in the care stewardship and management of the environment It uses ideas from the logical position of a Christian created in God s image redeemed by God and given responsibility to subdue and keep the earth arguing that a Christian has the responsibility and mandate to care for the environment It shows that successful stewardship happens when a Christian is aware of God s intention for creation exerts effort to increase it and is expected to give an account to God for their actions toward it The book presents environmental concerns in Kenya as an opportunity for change describing situations and why they could become opportunities for change Seven worldviews are presented that discourage Christians who want to do environmental stewardship and Christian theological doctrines are discussed that could be used to cause ecclesial participation in environmental stewardship Finally the book envisions a Conserving Church with specific activities the church can do to successfully influence people to do environmental stewardship

Christians, the Care of Creation, and Global Climate Change Lindy Scott, 2008-03-01 Christians the Care of Creation and Global Climate Change is a wake up call for Christians and others It is a cogent and persuasive call to love God and our neighbors by caring for creation especially in light of the dramatic climate changes occurring before our eyes This book is not the final word on the subject but it is a sincere invitation to examine the scientific evidence for global warming and to respond with individual and collective faithful actions

The Nature of Environmental Stewardship Johnny Wei-Bing Lin, 2016-12-29 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In The Nature of Environmental Stewardship climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavour He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology sciencepolicy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues

Means Creation Healed Howard A. Snyder,Joel Alan Scandrett,2011-07-13 The Bible promises the renewal of all creation a new heaven and earth based on the incarnation life death and resurrection of Jesus Christ For centuries this promise has been sidelined or misunderstood because of the church s failure to grasp the full meaning of biblical teachings on creation and new creation The Bible tells the story of the broken and restored relationship between God people and land not just God and people This is the full gospel and it has the power to heal the church s long theological divorce between earth and heaven Jesus resurrection in the power of the Holy Spirit is the key and the church as Christ s body is the primary means by which God is reconciling all things through Jesus Christ Jesus ultimate healing of all creation is the great hope and promise of the gospel and he calls the church to be his healing community now through evangelism discipleship and prophetic mission
