## **Redefining Southern Culture Mind And Identity In The Modern South:**

*Redefining Southern Culture* James Charles Cobb, 1999 Cobb surveys the remarkable story of southern identity and its persistence in the face of sweeping changes in the South's economy, society and political structure. dust jacket [The New Encyclopedia of Southern Culture](#) Larry J. Griffin, Peggy G. Hargis, Charles Reagan Wilson, 2012-07-01 This volume of *The New Encyclopedia of Southern Culture* offers a timely authoritative and interdisciplinary exploration of issues related to social class in the South from the colonial era to the present. With introductory essays by J. Wayne Flynt and by editors Larry J. Griffin and Peggy G. Hargis, the volume is a comprehensive stand-alone reference to this complex subject which underpins the history of the region and shapes its future. In 58 thematic essays and 103 topical entries, the contributors explore the effects of class on all aspects of life in the South: its role in Indian removal, the Civil War, the New Deal, and the civil rights movement, for example, and how it has been manifested in religion, sports, country and gospel music, and matters of gender. Artisans and the working class, indentured workers and steelworkers, the Freedmen's Bureau and the Knights of Labor are all examined. This volume provides a full investigation of social class in the region and situates class concerns at the center of our understanding of Southern culture. [The New Encyclopedia of Southern Culture](#) Melissa Walker, James C. Cobb, Charles Reagan Wilson, 2014-02-01 Volume 11 of *The New Encyclopedia of Southern Culture* examines the economic culture of the South by pairing two categories that account for the ways many southerners have made their living. In the antebellum period, the wealth of southern whites came largely from agriculture that relied on the forced labor of enslaved blacks. After Reconstruction, the South became attractive to new industries lured by the region's ongoing commitment to low-wage labor and management-friendly economic policies. Throughout the volume, articles reflect the breadth and variety of southern life, paying particular attention to the region's profound economic transformation in recent decades. The agricultural section consists of 25 thematic entries that explore issues such as Native American agricultural practices, plantations, and sustainable agriculture. Thirty-eight shorter pieces cover key crops of the region, from tobacco to Christmas trees, as well as issues of historic and emerging interest, from insects and insecticides to migrant labor. The section on industry and commerce contains 13 thematic entries in which contributors address topics such as the economic impact of military bases, resistance to industrialization, and black business. Thirty-six topical entries explore particular industries such as textiles, timber, automobiles, and banking, as well as individuals including Henry W. Grady and Sam M. Walton, whose ideas and enterprises have helped shape the modern South. **South to A New Place** Suzanne W. Jones, Sharon Monteith, 2002-11-01 Taking Albert Murray's *South to a Very Old Place* as a starting point, contributors to this exciting collection continue the work of critically and creatively remapping the South through their freewheeling studies of southern literature and culture. Appraising representations of the South within a context that is postmodern, diverse, widely inclusive, and international, the essays present multiple ways of imagining the South and examine both new places and old landscapes in an attempt to tie the

mythic southern balloon down to earth In his foreword an insightful discussion of numerous Souths and the ways they are perceived Richard Gray explains one of the key goals of the book to open up to scrutiny the literary and cultural practice that has come to be known as regionalism Part I Surveying the Territory theorizes definitions of place and region and includes an analysis of southern literary regionalism from the 1930s to the present and an exploration of southern popular culture In Mapping the Region essayists examine different representations of rural landscapes and small towns cities and suburbs as well as liminal zones in which new immigrants make their homes Reflecting the contributors transatlantic perspective Making Global Connections challenges notions of southern distinctiveness by reading the region through the comparative frameworks of Southern Italy East Germany Latin America and the United Kingdom and via a range of texts and contexts from early reconciliation romances to Faulkner's fictions about race to the more recent parody of southern mythmaking Alice Randall's *The Wind Done Gone* Together these essays explore the roles that economic racial and ideological tensions have played in the formation of southern identity through varying representations of locality moving regionalism toward a new place in southern studies

**The Resilience of Southern Identity** Christopher A. Cooper, H. Gibbs Knotts, 2017-02-01 The American South has experienced remarkable change over the past half century Black voter registration has increased the region's politics have shifted from one party Democratic to the near domination of the Republican Party and in migration has increased its population manyfold At the same time many outward signs of regional distinctiveness have faded chain restaurants have replaced mom and pop diners and the interstate highway system connects the region to the rest of the country Given all of these changes many have argued that southern identity is fading But here Christopher A Cooper and H Gibbs Knotts show how these changes have allowed for new types of southern identity to emerge For some identification with the South has become more about a connection to the region's folkways or to place than about policy or ideology For others the contemporary South is all of those things at once a place where many modern day southerners navigate the region's confusing and omnipresent history Regardless of how individuals see the South this study argues that the region's drastic political racial and cultural changes have not lessened the importance of southern identity but have played a key role in keeping regional identification relevant in the twenty first century

*Southern Cultures* Harry L. Watson, Larry J. Griffin, 2008-04-28 What does redneck mean What's going to happen to the southern accent What makes black southerners laugh What is real country music These are the kinds of questions that pop up in this collection of notable essays from *Southern Cultures* the journal of the Center for the Study of the American South at the University of North Carolina at Chapel Hill Intentionally plural *Southern Cultures* was founded in 1993 to present all sides of the American South from sorority sisters to Pocahontas from kudzu to the blues This volume collects 27 essays from the journal's first fifteen years bringing together some of the most memorable and engaging essays as well as some of those most requested for use in courses A stellar cast of contributors discusses themes of identity pride traditions changes conflicts and stereotypes Topics

range from black migrants in Chicago to Mexican immigrants in North Carolina from Tennessee wrestlers to Martin Luther King from the Civil War to contemporary debates about the Confederate flag Funny and serious historical and contemporary the collection offers something new for every South watcher with fresh perspectives on enduring debates about the people and cultures of America s most complex region Contributors Derek H Alderman East Carolina University Donna G Segner Alderman Greenville North Carolina S Jonathan Bass Samford University Dwight B Billings University of Kentucky Catherine W Bishir Preservation North Carolina Kathleen M Blee University of Pittsburgh Elizabeth Boyd Vanderbilt University James C Cobb University of Georgia Peter A Coclanis University of North Carolina at Chapel Hill Joseph Crespino Emory University Drew Gilpin Faust Harvard University franklin forts University of Georgia David Goldfield University of North Carolina at Charlotte Larry J Griffin University of North Carolina at Chapel Hill Adam Gussow University of Mississippi Trudier Harris University of North Carolina at Chapel Hill Patrick Huber University of Missouri Rolla Louis M Kyriakouides University of Southern Mississippi Melton McLaurin University of North Carolina at Wilmington Michael Montgomery University of South Carolina Steve Oney Los Angeles California Theda Perdue University of North Carolina at Chapel Hill Dan Pierce University of North Carolina at Asheville John Shelton Reed University of North Carolina at Chapel Hill Mart Stewart Western Washington University Thomas A Tweed University of North Carolina at Chapel Hill Timothy B Tyson Duke University Anthony Walton Bowdoin College Harry L Watson University of North Carolina at Chapel Hill Charles Reagan Wilson University of Mississippi C Vann Woodward 1908 1999

**Race Mixing** Suzanne W. Jones, 2006-02-15 In the southern United States there remains a deep need among both black and white writers to examine the topic of race relations whether they grew up during segregation or belong to the younger generation that graduated from integrated schools In *Race Mixing* Suzanne Jones offers insightful and provocative readings of contemporary novels the work of a wide range of writers black and white established and emerging Their stories explore the possibilities of cross racial friendships examine the repressed history of interracial love reimagine the Civil Rights era through children s eyes herald the reemergence of the racially mixed character investigate acts of racial violence and interrogate both rural and urban racial dynamics Employing a dynamic model of the relationship between text and context Jones shows how more than thirty relevant writers including Madison Smartt Bell Larry Brown Bebe Moore Campbell Thulani Davis Ellen Douglas Ernest Gaines Josephine Humphreys Randall Kenan Reynolds Price Alice Walker and Tom Wolfe illuminate the complexities of the color line and the problems in defining racial identity today While an earlier generation of black and white southern writers challenged the mythic unity of southern communities in order to lay bare racial divisions Jones finds in the novels of contemporary writers a challenge to the mythic sameness within racial communities and a broader definition of community and identity Closely reading these stories about race in America *Race Mixing* ultimately points to new ways of thinking about race relations We need these fictions Jones writes to help us imagine our way out of the social structures and mind sets that mythologize the past fragment individuals

prejudice people and divide communities      *What Good is Journalism?* George Kennedy, Daryl R. Moen, 2007 A compilation of essays that show how good journalistic practices enrich the daily lives of citizens trace the development of free expression through American history and enable citizens to play their own roles in the democracy while also showing how these principles are playing a revolutionary role in emerging democracies Provided by publisher      **Presidents and Place** Olga Maria May Akroyd, Thomas Cobb, 2023-03-20 *Presidents and Place* America's Favorite Sons highlights the interrelationship between America's leading political icons and various facets of space and place including places of birth and death as well as regional allegiances among others The chapters examine the legacy of relationships between presidents and place in a variety of social and cultural forms ranging from famous political campaigns to television series to developments in tourism Beginning with the political iconography of New York's Federal Hall in early eighteenth century America and ending with a focus on the Republican Party's electoral relationship with the South the interdisciplinary and methodologically diverse nature of the chapters reveals that place has more than a biographical significance in relation to US presidents      Southern Enclosure John H. Cable, 2023-12-15 Historians of the American South have come to consider the mechanization and consolidation of cotton farming the Southern enclosure movement to be a watershed event in the region's history In the decades after World War II this transition pushed innumerable sharecroppers tenant farmers and smallholders off the land redistributing territory and resources upward to a handful of large mainly white operators By disproportionately displacing Black farmers enclosure also slowed the progress of the civil rights movement and limited its impact John Cable's *Southern Enclosure* is among the first studies to explore that process through the interpretive lens of settler colonialism Focusing on east central Mississippi home of the Mississippi Band of Choctaw Indians Cable situates enclosure in the long history of dispossession that began with Indian Removal The book follows elite white landowners and Black and Choctaw farmers from World War II to 1960 the period when the old labor intensive farm structure collapsed By acknowledging that this process occurred on taken land Cable demonstrates that the records of agricultural agents segregationist politicians and the Bureau of Indian Affairs BIA are traces of ongoing colonization The settler colonial framework rarely associated with the postwar South sheds important light on the shifting categories of race and class It also prompts comparisons with other settler societies states in southern and eastern Africa for instance whose timelines racial regimes and agrarian transitions were similar to those of the South This postwar history of the South suggests ways in which the BIA's termination policy dovetailed with Southern segregationism and at the same time points to some of the shortcomings of the burgeoning field of settler colonial studies      Away Down South James Charles Cobb, 2005 In this unique synthesis of political cultural and intellectual history James C Cobb spans more than two centuries in tracing the origins and development of the South as not just an exception to the national rule but as an internal other against which American nationhood was defined      *Realizing Our Place* Catherine Egley Waggoner, Laura Egley Taylor, 2018-07-12 What does it mean to be from somewhere Does place seep

into one's very being like roots making their way through rich soil shaping a sense of self. In particular, what does it mean to be from a place with a storied past, one mythologized as the very best and worst of our nation? Such questions inspired Catherine Egley Waggoner and Laura Egley Taylor, sisters and Delta expatriates, themselves to embark on a trail of conversations through the Mississippi Delta. Meeting in evocative settings from kitchens and beauty parlors to screened-in porches with fifty-one women, black, Chinese, Lebanese, and white, elderly and young, rich and poor, bisexual and straight, the authors trace the extent to which the historical dimensions of southern womanhood—like submissiveness, purity, piety, and domesticity—are visible in contemporary Delta women's everyday enactments. Waggoner and Taylor argue that these women do not simply embrace or reject such dimensions but instead creatively tweak stereotypes in such a way that skillfully legitimizes their authenticity. Blending academic analysis with colorful excerpts of Delta women's words and including over one hundred striking photographs, Waggoner and Taylor provide an insightful peek into the lives of real southern women living in a deeply mythologized land.

**Mothers of Massive Resistance** Elizabeth Gillespie McRae, 2018-01-02 *Mothers of Massive Resistance* tells the story of how white women shaped racial segregation in the South and postwar conservatism across the nation. Through their work in social welfare, public education, partisan politics, and culture, they created a massive resistance that spanned five decades and continues to mobilize local communities and survive legislative defeat.

**The Intellectual in Twentieth-Century Southern Literature** Tara Powell, 2012-01-09 Never in its long history has the South provided an entirely comfortable home for the intellectual. In this thought-provoking contribution to the field of southern studies, Tara Powell considers the evolving ways that major post-World War II southern writers have portrayed intellectuals, from Flannery O'Connor's ironic view of intellectuals to Gail Godwin's southerners striving to feel at home in the academic world. Although Walker Percy, like his fellow Catholic writer O'Connor, explicitly rejected the intellectual label for himself, he nonetheless introduced the modern novel of ideas to southern letters. Powell shows, by placing sympathetic, non-caricatured intellectuals at the center of his influential works, that North Carolinians Doris Betts and her student Tim McLaurin made their living teaching literature and creative writing in academia, and Betts's fiction often includes dislocated academics, while McLaurin's superb memoirs often, in a funny way, frequently point up the limitations of the mind as opposed to the heart and the spirit. Examining works by Ernest Gaines, Alice Walker, and Randall Kenan, Powell traces the evolution of the black American literacy narrative from a stress on the post-Emancipation conviction, which saw formal education as an essential means of resisting oppression, to the growing suspicion in the post-civil rights era of literacy acts that may estrange educated blacks from the larger black community. Powell concludes with Godwin, who embraces university life in her fiction as she explores what it means to be a southern female intellectual in the modern world, a world in which all those markers inscribe isolation.

**Drastic Dykes and Accidental Activists** La Shonda Mims, 2022-11-29 After World War II, Atlanta and Charlotte emerged as leading urban centers in the South, redefining the region through their competing metropolitan identities. Both

cities also served as home to queer communities who defined themselves in accordance with their urban surroundings and profited to varying degrees from the emphasis on economic growth. Uniting southern women's history with urban history, La Shonda Mims considers an imaginatively constructed archive including feminist newsletters and queer bar guides alongside sources revealing corporate boosterism and political rhetoric to explore the complex nature of lesbian life in the South. Mims's work reveals significant differences between gay men's and lesbian women's lived experiences with lesbians often missing out on the promises of prosperity that benefitted some members of gay communities. Money, class, and race were significant variables in shaping the divergent life experiences for the lesbian communities of Atlanta and Charlotte; whiteness especially bestowed certain privileges. In Atlanta, an inclusive corporate culture bolstered the city's queer community. In Charlotte, tenacious lesbian collectives persevered as many queer Charlotteans leaned on Atlanta's enormous Pride celebrations for sanctuary when similar institutional community supports were lacking at home.

**The State of Disunion** Nicole Mellow, 2008-05-05 This important book spans American history, economics, and culture to explain why the nation splits into blue versus red states. James A. Morone, Brown University. Why are some eras of American politics characterized by broad bipartisan harmony and others by rancorous partisanship? In *The State of Disunion*, Nicole Mellow argues that these oscillations are a product of how politicians respond to the demands of regional constituents. According to Mellow, regions remain a vital consideration in electoral battles because they fuse material and ideological expectations of voters. This wide-ranging analysis of congressional battles over trade, welfare, and abortion since the 1960s demonstrates how regional economic, racial, and cultural divisions have configured national party building and today's legislative conflicts, and how these divisions will continue to shape American politics for years to come. *The State of Disunion* broadens our understanding of American politics by displaying the conceptual insights of political geography combined with the rich tapestry of political history. Mellow offers a new way to comprehend the meaning and significance of American partisanship in our time.

*Southern Heritage on Display* Celeste Ray, 2003-01-22 How ritualized public ceremonies affirm or challenge cultural identities associated with the American South? W. J. Cash's 1941 observation that there are many Souths and many cultural traditions among them is certainly validated by this book. Although the Civil War and its lost cause tradition continues to serve as a cultural root paradigm in celebrations both uniting and dividing loyalties, southerners also embrace a panoply of public rituals: parades, cook-offs, kinship homecomings, church assemblies, music spectacles, and material culture exhibitions that affirm other identities. From the Appalachian uplands to the Mississippi Delta, from Kentucky bluegrass to Carolina piedmont, southerners celebrate in festivals that showcase their diverse cultural backgrounds and their mythic beliefs about themselves. The ten essays of this cohesive interdisciplinary collection present event-centered research from various fields of study: anthropology, geography, history, and literature, to establish a rich, complex picture of the stereotypically "Solid South." Topics include the Mardi Gras Indian song cycle as a means of expressing African American identity in New Orleans; powwow

performances and Native American traditions in southeast North Carolina religious healings in southern Appalachian communities Mexican Independence Day festivals in central Florida and in eastern Tennessee bonding ceremonies of melungeons who share Indian Scots Irish Mediterranean and African ancestry Seen together these public heritage displays reveal a rich creole of cultures that have always been a part of southern life and that continue to affirm a flourishing regionalism This book will be valuable to students and scholars of cultural anthropology American studies and southern history academic and public libraries and general readers interested in the American South It contributes a vibrant colorful layer of understanding to the continuously emerging picture of complexity in this region historically depicted by simple stereotypes

Where Misfits Fit Thomas Michael Kersen, 2021-09-30 Winner of the 2021 Stanford M Lyman Distinguished Book Award from Mid South Sociological Association All regions and places are unique in their own way but the Ozarks have an enduring place in American culture Studying the Ozarks offers the ability to explore American life through the lens of one of the last remaining cultural frontiers in American society Perhaps because the Ozarks were relatively isolated from mainstream American society or were at least relegated to the margins of it their identity and culture are liminal and oftentimes counter to mainstream culture Whatever the case looking at the Ozarks offers insights into changing ideas about what it means to be an American and more specifically a special type of southerner In Where Misfits Fit Counterculture and Influence in the Ozarks Thomas Michael Kersen explores the people who made a home in the Ozarks and the ways they contributed to American popular culture Drawing on a wide variety of sources Kersen argues the area attracts and even nurtures people and groups on the margins of the mainstream These include UFO enthusiasts cults musical troupes and back to the land groups Kersen examines how the Ozarks became a haven for creative innovative even nutty people to express themselves a place where community could be reimagined in a variety of ways It is in these communities that *communitas* or a deep social connection emerges Each of the nine chapters focuses on a facet of the Ozarks and Kersen often compares two or more cases to generate new insights and questions Chapters examine real and imagined identity and highlight how the area has contributed to popular culture through analysis of the Eureka Springs energy vortex fictional characters like Li'l Abner cultic activity environmentally minded communes and the development of rockabilly music and near communal rock bands such as Black Oak Arkansas

Stealth Reconstruction Glen Browder, 2010-06-01 America seems to have little sense of how the Civil Rights Movement actually played into southern politics over the remainder of the twentieth Century The common vision is a monolithic struggle between heroes and villains depicted literally and figuratively in black and white Unfortunately this conception provides incomplete explanation for subsequent progress in the southern political system This book reveals that amid all the heroic history of that time there is a fascinating story of stealth reconstruction i.e. the unheroic quiet practical biracial work of some white politicians and black leaders a story untold and unknown until now

**Plantation Airs** Brannon Costello, 2007-12 In *Plantation Airs* Brannon Costello argues persuasively for new attention to

the often neglected issue of class in southern literary studies Focusing on the relationship between racial paternalism and social class in American novels written after World War II Costello asserts that well into the twentieth century attitudes and behaviors associated with an idealized version of agrarian antebellum aristocracy especially those of racial paternalism were believed to be essential for white southerners The wealthy employed them to validate their identities as aristocrats while less affluent whites used them to separate themselves from white trash in the social hierarchy Even those who were not legitimate heirs of plantation owning families found that putting on airs associated with the legacy of the plantation could align them with the forces of power and privilege and offer them a measure of authority in the public arena that they might otherwise lack Fiction by Zora Neale Hurston Eudora Welty William Faulkner Ernest Gaines Walker Percy and others reveals however that the racial paternalism central to class formation and mobility in the South was unraveling in the years after World War II when the civil rights movement and the South's increasing industrialization dramatically altered southern life Costello demonstrates that these writers were keenly aware of the ways in which the changes sweeping the South complicated the deeply embedded structures that governed the relationship between race and class He further contends that the collapse of racial paternalism as a means of organizing class lies at the heart of their most important works including Hurston's *Seraph on the Suwanee* and her essay *The Pet Negro System* Welty's *Delta Wedding* and *The Ponder Heart* Faulkner's *The Mansion* and *The Reivers* Gaines's *Of Love and Dust* and his story *Bloodline* and Percy's *The Last Gentleman* and *Love in the Ruins* By examining ways in which these works depict and critique the fall of the plantation ideal and its aftermath *Plantation Airs* indicates the richness and complexity of the literary responses to this intersection of race and class Understanding how many of the modern South's best writers imagined and engaged the various facets of racial paternalism in their fiction Costello confirms helps readers construct a more comprehensive picture of the complications and contradictions of class in the South
