The Secret Computer of the Ancient Gods John C. Compton,2022-08-19 The I Ching Project was inaugurated in 1986 when the initial research on an ancient Tibetan Mandala revealed a trigram relationship with the I Ching the Chinese book of changes For the past 30 years the author has conducted a private research project delving deeply into Tantric Buddhist

symbolism and the commentaries of the I Ching The author s research work has revealed and conclusively proves the existence of a lost civilisation whose mathematical and scientific knowledge not only equalled but surpassed its Greek and Egyptian contemporaries This book contains a series of commentaries research notes and illustrations selected from the author s amazing research work which will astonish practitioners philosophers and scholars of the ancient art of divination The author demonstrates and show that the scribes of this civilization retained their knowledge and wisdom for posterity within a computerized time capsule of pictographic images His work proves that the I Ching is not only a book of divination but a profound book of mathematics and science It also incorporates the original binary code which can now be attributed to the ancient authors of the I Ching some 4000 years ago      *The I Ching* Christopher Markert,Christopher Market,1998 The I Ching known in the West as The Book of Changes can be used as a tool for decision making whether related to business careers or personal relationships Christopher Markert s presentation of the I Ching has been written for these uses Based on the translation by James Legge it gives explanations of the Chinese text helping readers to apply its recommendations to their particular questions and problems      The Supreme Master Ching Hai's 1993 World Lecture Tour The Supreme Master Ching Hai,1998-11-01 1993 was a very special year In response to the sincere longing of countless people a fully enlightened living Master enduring the hardships of a long journey traveled around the world to share the news about immediate enlightenment and liberation in one lifetime Her lecture tour which caused a sensation around the world sowed many spiritual seeds that have since germinated and are now playing a great role in elevating the spiritual consciousness of the world With great respect and devotion the lectures and interviews given by Supreme Master Ching Hai during this period were recorded and have been compiled into six volumes This series is being offered to you this Christmas season with the wish that you can stroll leisurely in Her vast wisdom and lose yourself in the boundless spiritual bliss that arises from the words of a perfect living Master      **Books in Print** ,1977      **Contemporary Spiritualities** Stefania Palmisano,Nicola Pannofino,2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural

hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious
