Rediscovering The Classics The Project Approach:

Rediscovering the Classics Ruth Townsend, Marcia Lubell, 1999 Women Re-Creating Classics Emily Hauser, Helena Taylor, 2025-06-12 In the last few years there has been a major and unmissable surge in women's retellings and re-creations of ancient myths and texts that has put women's re-creations of Classics centre stage Drawing together an interdisciplinary range of creative and scholarly voices this volume asks why classical creative retellings by women are so popular now and considers what creativity can do to foster new ways of thinking and writing about Classics thus blurring the boundary between the creative and the critical Contributors engage with debates on how to make Classics more accessible through the medium of creative works so that it is not just a discipline for the select few This second volume in a two volume set brings together original creative work by some of the many women writers who are pushing forward changes in the landscape of re-creating Classics from Madeline Miller to Jennifer Saint Emily Hauser Caroline Lawrence Roz Kaveney Nikita Gill Fiona Benson Anne Carson and many more These are set alongside discussions and interviews between writers and academics roundtable conversations among poets and critics and reflections on creative and inclusive pedagogy thus offering a cutting edge collaboration between practitioners and researchers and underlining the centrality of women's re-creations of Classics to the contemporary shaping of the field **Resources in Education** ,1998 *English Journal* ,2000 **American Book Publishing Record** ,2000

The Origins of Neoliberalism Giandomenica Becchio, Giovanni Leghissa, 2016-11-25 Neoliberalism is a doctrine that adopts a free market policy in a deregulated political framework In recent years neoliberalism has become increasingly prominent as a doctrine in Western society and has been heavily discussed in both academia and the media In The Origins of Neoliberalism the joint effort of an economist and a philosopher offers a theoretical overview of both neoliberalism's genesis within economic theory and social studies as well as its development outside academia Tracing the sources of neoliberalism within the history of economic thought the book explores the differences between neoliberalism and classical liberalism This book's aim is to make clear that neoliberalism is not a natural development of the old classical liberalism but rather that it represents a dramatic alteration of its original nature and meaning Also it fights against the current idea according to which neoliberalism would coincide with the triumph of free market economy In its use of both history of economics and philosophy this book takes a highly original approach to the concept of neoliberalism The analysis presented here will be of great interest to scholars and students of history of economics political economy and philosophy of social science **Todd Deutsch gamers. Quaranta, George Slade, 2008 **Jesus, Skepticism, and the Problem of History** Zondervan, 2019-10-08 In recent years a number of New Testament scholars engaged in academic historical Jesus studies have concluded that such scholarship cannot yield secure and illuminating conclusions about its subject arguing that the search for a historically authentic Jesus has run aground Jesus Skepticism and the Problem of History brings together a stellar lineup of New Testament scholars who

contend that historical Jesus scholarship is far from dead These scholars all find value in using the tools of contemporary historical methods in the study of Jesus and Christian origins While the skeptical use of criteria to fashion a Jesus contrary to the one portrayed in the Gospels is methodologically unsound and theologically unacceptable these criteria properly formulated and applied yield positive results that support the Gospel accounts and the historical narrative in Acts This book presents a nuanced and vitally needed alternative to the skeptical extremes of revisionist Jesus scholarship that on the one hand uses historical methods to call into question the Jesus of the Gospels and on the other denies the possibility of using historical methods to learn about Jesus

The Cairo Genizah and the Age of Discovery in Egypt Rebecca J. W. Jefferson,2022-01-27 The Cairo Genizah is considered one of the world s greatest Hebrew manuscript treasures Yet the story of how over a quarter of a million fragments hidden in Egypt were discovered and distributed around the world before becoming collectively known as The Cairo Genizah is far more convoluted and compelling than previously told The full story involves an international cast of scholars librarians archaeologists excavators collectors dealers and agents operating from the mid nineteenth to the early twentieth century and all acting with varying motivations and intentions in a race for the spoils Basing her research on a wealth of archival materials Jefferson reconstructs how these protagonists used their various networks to create key alliances or to blaze lone trails each one on a quest to recover ancient manuscripts Following in their footsteps she takes the reader on a journey down into ancient caves and tombs under medieval rubbish mounds into hidden attic rooms vaults basements and wells along labyrinthine souks and behind the doors of private clubs and cloistered colleges Along the way the reader will also learn about the importance of establishing manuscript provenance and authenticity and the impact to our understanding of the past when either factor is in doubt

The Routledge Handbook of Heterodox Economics Tae-Hee Jo,Lynne

Chester, Carlo D'Ippoliti, 2017-07-28 The Routledge Handbook of Heterodox Economics presents a comprehensive overview of the latest work on economic theory and policy from a pluralistic heterodox perspective Contributions throughout the Handbook explore different theoretical perspectives including Marxian radical political economics Post Keynesian Sraffian economics institutionalist evolutionary economics feminist economics social economics Regulation theory the Social Structure of Accumulation approach and ecological economics They explain the structural properties and dynamics of capitalism as well as propose economic and social policies for the benefit of the majority of the population This book aims firstly to provide realistic and coherent theoretical frameworks to understand the capitalist economy in a constructive and forward looking manner Secondly it delineates the future directions as well as the current state of heterodox economics and then provides both heat and light on controversial issues drawing out the commonalities and differences among different heterodox economic approaches The volume also envisions transformative economic and social policies for the majority of the population and explains why economics is and should be treated as a social science This Handbook will be of compelling interest to those including students who wish to learn about alternative economic theories and policies that are rarely found in conventional economics textbooks or discussed in the mainstream media and to critical economists and other social scientists who are concerned with analyzing pressing socio economic issues **Books In Print 2004-2005** Ed Bowker

Staff, Staff Bowker, Ed, 2004 **The Agilist's Guidebook - a reference for agile transformation** CHANDAN LAL PATARY, 2019-01-24 The Agilist's Guidebook A Reference for Organizational Agile Transformation this workbook is for all Agilist who choose to enable organizational agile transformation Competitive pressure and fundamental changes will remain the hallmark of the business environment Thus the need for new and upgraded skills will continue Lifelong learning is not simply an educational concept it is a business necessity This workbook has emphasized pragmatic challenges we come across during agile transformation and how we can fortify ourselves to surmount all these challenges This workbook consists of five distinct areas like Organizational coaching the overall mindset of the team members Leadership capability Building a high performance team Organization development Structure and Culture These five pillars are five elements of the Panch Bhoota Model If these five elements are not purified or malfunction we become ill As an organization is not a machine it is an organism leaders have to take care of these five elements by learning about them and strengthening these elements so that the organization does not get affected by a foreign threat much like a virus or a bacteria The political economic social technological legal environment can threaten an organizations survival When the organization is stable in these five elements it can cope with any challenge thrown by the external environment This workbook will feature some of the challenges and approaches in handling these areas This workbook will guide the reader to evaluate their present skills and take action wherever improvement is desired The author has highlighted many Mindmaps checklist thought provoking questions for the readers to reflect on and take action and has emphasized many case studies in this book to make the book practical for the

reader The author had shared many theoretical concepts for the reader to do further research in and enhance learning in those areas This workbook is a compendium means it is a compilation of concise but detailed information about a specific subject in this case Organizational Agile transformation

Arabic Printing for the Christians in Ottoman Lands Ioana Feodorov, 2023-10-04 Arabic printing began in Eastern Europe and the Ottoman Levant through the association of the scholar and printer Antim the Iberian later a metropolitan of Wallachia and Athanasios III Dabb s twice patriarch of Antioch when the latter as metropolitan of Aleppo was sojourning in Bucharest This partnership resulted in the first Greek and Arabic editions of the Book of the Divine Liturgies Snagov 1701 and the Horologion Bucharest 1702 With the tools and expertise that he acquired in Wallachia Dabb s established in Aleppo in 1705 the first Arabic type press in the Ottoman Empire After the Church of Antioch divided into separate Greek Orthodox and Greek Catholic Patriarchates in 1724 a new press was opened for Arabic speaking Greek Catholics by Abdall h Z ir in in ra r al uwayr Lebanon Likewise in 1752 1753 a press active at the Church of Saint George in Beirut printed Orthodox books that preserved elements of the Aleppo editions and were reprinted for decades This book tells the story of the first Arabic type presses in the Ottoman Empire which provided church books to the Arabic speaking Christians irrespective of their confession through the efforts of ecclesiastical leaders such as the patriarchs Silvester of Antioch and Sofronios II of Constantinople and financial support from East European rulers like prince Constantin Br ncoveanu and hetman Ivan Mazepa

Qur'an Commentary and the Biblical Turn Samuel Ross, 2024-02-19 The Qur an and the Bible have been called intertwined scriptures due to the Qur an s frequent invocation of biblical narratives and figures But what is the history of Muslims exegetical engagement with the biblical text Through a comprehensive survey of more than 170 Qur an commentaries Samuel Ross traces the longitudinal history of the Bible in tafs r Offering detailed case studies and rich in historical context Ross s narrative culminates in the remarkable late nineteenth and early twentieth century biblical turn Global in scope this development has not only generated new Muslim views of the Bible but even new interpretations of the Qur an itself This monograph has been awarded the annual BRAIS De Gruyter Prize in the Study of Islam and the Muslim World

Researching Social Change Julie McLeod, Rachel Thomson, 2009-03-26 Questions about change in social and personal life are a feature of many accounts of the contemporary world While theories of social change abound discussions about how to research it are much less common This book provides a timely guide to qualitative methodologies that investigate processes of personal generational and historical change The authors showcase a range of methods that explore temporality and the dynamic relations between past present and future Through case studies they review six methodological traditions memory work oral life history qualitative longitudinal research ethnography intergenerational and follow up studies It illustrates how these research approaches are translated into research projects and considers the practical as well as the theoretical and ethical challenges they pose Research methods are also the product of times and places and this book keeps to the fore the cultural and historical context in which these methods developed the

theoretical traditions on which they draw and the empirical questions they address Researching Social Change is an invaluable resource for researchers and graduate students across the social sciences who are interested in understanding and researching social change *The Cambridge Companion to Greek Tragedy* P. E. Easterling, 1997-10-02 As a creative medium ancient Greek tragedy has had an extraordinarily wide influence many of the surviving plays are still part of the theatrical repertoire and texts like Agamemnon Antigone and Medea have had a profound effect on Western culture This Companion is not a conventional introductory textbook but an attempt by seven distinguished scholars to present the familiar corpus in the context of modern reading criticism and performance of Greek tragedy There are three main emphases on tragedy as an institution in the civic life of ancient Athens on a range of different critical interpretations arising from fresh readings of the texts and on changing patterns of reception adaptation and performance from antiquity to the present Each chapter can be read independently but each is linked with the others and most examples are drawn from the same selection of plays *The Entrepreneurial Humanities* Alain-Philippe Durand, Christine Henseler, 2023-06-07 With AI cryptocurrency and more in the news it seems that being an entrepreneur means being in IT but humanities graduates are launching new businesses every day turning a profit and having social impact This book explores how a humanities background can enable entrepreneurs to thrive Across all levels of education students are given the message that to change the world or make money the arts and humanities are not the subjects to study At the same time discussions of innovation and entrepreneurship highlight the importance of essential skills such as critical thinking storytelling cultural awareness and ethical decision making Here s the disconnect the subjects that help to develop these vital skills are derided at critical points in any aspiring entrepreneur s education This collection of perspectives from entrepreneurs in a range of fields and humanities educators illustrates what individuals and the wider world are missing when humanities are overlooked as a source of inspiration and success in business Featuring a foreword by Sensemaking author Christian Madsbjerg this is a thought provoking guide for aspiring entrepreneurs in all sectors and for educators a window on the practical value of the humanities in an ever more mechanized world _
