**The Enlightenment Rediscovery of Egyptology** Angela Scattolin Morecroft,2017-12-14 In 1759 the botanist and scientist Vitaliano Donati led an expedition to Egypt under the patronage of King Carlo Emanuele III of Sardinia to acquire Egyptian antiquities for the Museum in Turin Charting his tumultuous expedition this book reveals how in spite of his untimely death in 1762 Donati managed to send enough items back to Turin to lay the foundations for one of the earliest and largest systematic collections of Egyptology in Europe and help to bring the world of ancient Egypt into the consciousness of Enlightenment scholarship Whilst the importance of this collection has long been recognised its exact contents have been remained largely unknown War the Napoleonic occupation of Italy and the amalgamation and reorganisation of museum collections resulted in a dispersal of objects and loss of provenance As a result it had been supposed that the actual contents of Donati s collection could not be known However the discovery by Angela Morecroft in 2004 of Donati s packing list reveals the exact quantity and type of objects that he acquired offering the possibility to cross reference his descriptions with unidentified artifacts at the Museum By examining Donati s expedition to Egypt and seeking to identify the objects he sent back to Turin this book provides a fascinating insight into early collecting practice and the lasting historical impact of these items As such it will prove a valuable resource for all those with an interest in the history of museums and collecting as well as enlightenment travels to Egypt

*The Rediscovery of Ancient Egypt*, 1990 *Egyptian Revival* Omar Khalil, The fascination with Ancient Egypt has influenced architectural and artistic movements for centuries culminating in what is known as the Egyptian Revival This movement characterized by its adaptation of ancient Egyptian motifs emerged in response to rediscoveries of Egypt's past The revival gained traction during the 18th and 19th centuries driven by archaeological discoveries historical curiosity and a growing appreciation for non European artistic traditions One of the key moments that ignited interest in Ancient Egypt was Napoleon Bonaparte's Egyptian campaign 1798-1801 This military expedition was not just an act of conquest but also a scientific endeavor that brought scholars artists and historians to document Egypt's ancient ruins The most significant outcome of this campaign was the publication of the *Description de l'Égypte* a comprehensive collection of illustrations and studies that introduced Europe to the architectural grandeur of Egypt The discovery of the Rosetta Stone in

1799 further fueled this fascination as it eventually led to the deciphering of Egyptian hieroglyphics allowing deeper insights into the civilization's history and culture. The widespread enthusiasm for Ancient Egypt in the early 19th century gave rise to what historians call Egyptomania. This cultural phenomenon influenced literature, fashion, decorative arts, and architecture. Egyptian imagery, including sphinxes, obelisks, and pyramidal forms, began to appear in European cityscapes. The influence was particularly noticeable in monumental architecture where designers sought to capture the imposing and symbolic nature of ancient Egyptian structures. The fascination with Egypt was further fueled by colonial expansion as European powers took a vested interest in the region's antiquities. Views of Ancient Egypt since Napoleon Bonaparte David Jeffreys, 2016-06-16

This book addresses some of the main themes of the study of Egypt during the nineteenth and twentieth centuries. In a combination of case studies and discursive chapters, the status of Egypt as an important example of traditional Asian scholarship and as an ancient model of imperialism itself is examined. Contributions range from studies of nineteenth-century antiquarianism and the collecting of Egyptian antiquities as an extension of the territorial ambitions and rivalries of the European powers to explorations of how Egypt is understood and interpreted in contemporary societies. Views of Ancient Egypt also considers the way in which Ancient Egypt has been adopted by less privileged members of some societies as a cultural icon of past greatness.
