More God, Less Crime Byron Johnson, 2011-05-15 In *More God Less Crime* renowned criminologist Byron R Johnson proves that religion can be a powerful antidote to crime The book describes how faith communities congregations and faith based organizations are essential in forming partnerships necessary to provide the human and spiritual capital to effectively address crime offender rehabilitation and the substantial aftercare problems facing former prisoners There is scattered research literature on religion and crime but until now there has never been one publication that systematically and rigorously analyzes what we know from this largely overlooked body of research in a lay friendly format The data shows that when compared to current strategies faith based approaches to crime prevention bring added value in targeting those factors known to cause crime poverty lack of education and unemployment In an age of limited fiscal resources Americans can't afford a criminal justice system that turns its nose up at volunteer efforts that could not only work better than the abysmal status quo but also save billions of dollars at the same time This book provides readers with practical insights and recommendations for a faith based response that could do just that
