## Redundant Women:

*Redundant Women* Angela Coyle, 1984 Looks at the experiences of women in two clothing factories in Yorkshire after their closure in December 1980 M. de Tocqueville. Why are women redundant? Truth versus edification. The doom of the negro race. Time. Good people. What is culpable luxury? The special beauty conferred by imperfection and decay. Why skilled workmen don't go to church. Life at high pressure William Rathbone Greg, 1877 *Why are Women Redundant?* William Rathbone Greg, 1869 **Fallenness in Victorian Women's Writing** Deborah Anna Logan, 1998 Logan's study is distinguished by its exclusive focus on women writers including Charlotte Brontë George Eliot Elizabeth Gaskell Harriet Martineau Elizabeth Barrett Browning Florence Nightingale Sarah Grand and Mary Prince Logan utilizes primary texts from these Victorian writers as well as contemporary critics such as Catherine Gallagher and Elaine Showalter to provide the background on social factors that contributed to the construction of fallen woman discourse Odd women? Emma Liggins, 2016-05-16 This genealogy of the odd woman compares representations of spinsters lesbians and widows in British women's fiction and auto biography from the 1850s to the 1930s Women outside heterosexual marriage in this period were seen as abnormal superfluous incomplete and threatening yet were also hailed as women of the future Before 1850 odd women were marginalised minor characters in British women's fiction yet by the 1930s spinsters lesbians and widows had become heroines This book examines how women writers including Charlotte Brontë Elizabeth Gaskell Ella Hepworth Dixon May Sinclair E H Young Radclyffe Hall Winifred Holtby and Virginia Woolf challenged dominant perceptions of singleness and lesbianism in their novels stories and autobiographies Drawing on advice literature medical texts and feminist polemic it demonstrates how these narratives responded to contemporary political controversies around the vote women's work sexual inversion and birth control as well as examining the impact of the First World War Why are Women Redundant? William Rathbone Greg, 1868 The Odd Women George Gissing, 1998-02-23 George Gissing's *The Odd Women* dramatizes key issues relating to class and gender in late Victorian culture the changing relationship between the sexes the social impact of odd or redundant women the cultural impact of the new woman and the opportunities for and conditions of employment in the expanding service sector of the economy At the heart of these issues as many late Victorians saw them was a problem of the imbalance in the ratio of men to women in the population There were more females than males which meant that more and more women would be left unmarried they would be odd or redundant and would be forced to be independent and to find work to support themselves In the Broadview edition Gissing's text is carefully annotated and accompanied by a range of documents from the period that help to lay out the context in which the book was written In Gissing's story Virginia Madden and her two sisters are confronted upon the death of their father with sudden impoverishment Without training for employment and desperate to maintain middle class respectability they face a daunting struggle In Rhoda Nunn a strong feminist Gissing also presents a strong character who draws attention overtly to the issues behind the novel *The Odd Women*

is one of the most important social novels of the late nineteenth century      **Women in Public, 1850-1900** Patricia Hollis, 2013-05-20 Assembling a full and comprehensive collection of material which illustrates all aspects of the emergent women's movement during the years 1850-1900 this fascinating book will prove invaluable to students of nineteenth century social history and women's studies to those studying the Victorian novel and to sociologists Women's pamphlets and speeches parliamentary debates and popular journalism letters and memoirs royal commissions and the leading reviews are all used to document the conflicting images of women surplus women and the issue of emigration women's work and male hostility to it the opening of education by Emily Davies the claim to equity at law the attack on the sexual double standard led by Josephine Butler women's public service from philanthropy exemplified in a Mary Carpenter or Louisa Twining or Octavia Hill to local government and finally women's entry into politics led by Lydia Becker The contents range from Caroline Norton on her battle for child custody in the 1830s to Annie Besant's inspiration of the match girls' strike in 1888 and from W T Stead on child prostitution to Mrs Humphrey War's Appeal against female suffrage in 1889 The book was originally published in 1979      **Singlewomen in the European Past, 1250-1800** Judith Bennett, Amy Froide, 1999 Despite the significant number of never married laywomen in medieval and early modern Europe the study of their role and position in that society has been very limited Singlewomen in the European Past opens up this group for further investigation      Rise Up, Women! Andrew Rosen, 2013-01-17 The suffragette movement shattered the domestic tranquillity of Edwardian England This book is an original and searching study of the formidable organization which led this campaign the Women's Social and Political Union With the use of previously unpublished correspondence of Mrs Emmeline Pankhurst her colleagues and such political leaders as Asquith Balfour and Lloyd George the author views the development of ever more extreme and violent forms of militancy not as a series of amusing exploits and incidents but as the carefully calculated political strategy the suffragettes intended it to be He examines the reasons for the remarkable effectiveness of militant tactics in making women's enfranchisement a political issue of central importance and shows why militancy failed to secure this right prior to the outbreak of war in August 1914 He assesses too the influence of the vast social and political changes wrought by the war on the ultimate success of the campaign in 1918      China's Changing Welfare Mix Beatriz Carrillo, Jane Duckett, 2011-06-10 This book draws attention to two neglected areas in the growing body of research on welfare in China subnational variation and the changing mix of state and non state provision The contributors to this volume demonstrate the diversity of local welfare provision that lies behind broad national policies and programmes Their focus on local diversity is particularly relevant to understanding the welfare system in China because national state programmes are so often organized by local governments in line with the specifics of their economic and social development At the same time that social and economic development is itself independently creating an array of different conditions that shape non state family business and third sector welfare roles Through chapters that draw on original research in eight provinces the book adopts a local perspective

to illustrate and explain some of the transformations that are under way and discuss not only local government initiatives and programmes but also the services and support provided by families informal social networks and community or third sector organizations as well as those delivered by private businesses on a commercial for profit basis This book will be of interest to students and scholars of Chinese society social policy and Chinese studies more widely Beatriz Carrillo is Lecturer in Asian Studies at the University of Technology Sydney Australia Jane Duckett is Professor of Chinese and Comparative Politics at the University of Glasgow UK

*Women's Employment in Europe* Colette Fagan, Jill Rubery, Mark Smith, 1999-08-05 Based on extensive original research this volume examines contemporary patterns of womens employment in Europe in the context of the profound economic social and cultural changes that have taken place in recent years It considers the progress made towards equal treatment in the labour market in the light of European Union action programmes and examines the prospects for womens employment under the fourth action programme The authors conclude that progress towards equal treatment will only occur when gender issues are fully integrated into the European Commissions employment and labour market policies

**Dickens, Novel Reading, and the Victorian Popular Theatre** Deborah Vlock, 1998-12-10 Dickens novels like those of his contemporaries are more explicitly indebted to the theatre than scholars have supposed his stories and characters were often already public property by the time they were published circulating as part of a current theatrical repertoire well known to many Victorian readers In this 1998 study Deborah Vlock argues that novels and novel readers were in effect created by the popular theatre in the nineteenth century and that the possibility of reading and writing narrative was conditioned by the culture of the stage Vlock resuscitates the long dead voices of Dickens theatrical sources which now only tentatively inhabit reviews scripts fiction and non fiction narratives but which were everywhere in Dickens time voices of noted actors and actresses and of popular theatrical characters She uncovers unexpected precursors for some popular Dickensian characters and reconstructs the conditions in which Dickens novels were initially received

**Woman and Empire** Indrani Sen, 2002 Drawing Upon A Wide Range And Variety Of Literary And Non

Literary Sources Of Nineteenth Century British India Woman And Empire Examines Perceptions Of Gender Over The 1858 1900 Period The Book Focuses On Representations Of White And Indian Women In Addition To Women Of Mixed Races In Fiction As Well As In Colonial Newspapers And Journals **New Frontiers In Women's Studies** Mary Maynard, June Purvis, 2005-07-20 This text reveals the diversities which continue to shape women's beliefs and experiences It includes debates on women and nationalisms women and social policy sexuality black studies and ethnic studies women and education women and cultural production and women's studies and gender studies **Nature's Noblemen** Monica Rico, 2013-07-16

DIV In this fascinating book Monica Rico explores the myth of the American West in the nineteenth century as a place for men to assert their masculinity by roughing it in the wilderness and reveals how this myth played out in a transatlantic context Rico uncovers the networks of elite men British and American who circulated between the West and the metropolises of London and New York Each chapter tells the story of an individual who by traveling these transatlantic paths sought to resolve anxieties about class gender and empire in an era of profound economic and social transformation All of the men Rico discusses from the well known including Theodore Roosevelt and Buffalo Bill Cody to the comparatively obscure such as English cattle rancher Moreton Frewen envisioned the American West as a global space into which redemptive narratives of heroic upper class masculinity could be written div Gender and Work in Urban China Jieyu Liu, 2007-03-06 Although it is generally believed in China that socialism raised women's status and paid work liberated them from the shackles of patriarchy the economic reforms of the last two decades of the twentieth century meant women workers were more vulnerable to losing their jobs than men Unlike previous studies which have focused on the macro structural features of this process this book makes the voices of ordinary women workers heard and applies feminist perspectives on women and work to the Chinese situation Drawing upon extensive life history interviews this book contests the view that mobilizing women into the workplace brought about their liberation Instead the gendered redundancy they experienced was the culmination of a lifetime's experiences of gender inequalities Setting their life stories against a backdrop of great social political upheaval in China the book suggests that the women of this unlucky generation have borne the brunt of sufferings caused by sacrifices they made for the development of socialist China **Gender, China and the World Trade Organization** Günseli Berik, Xiao-yuan Dong, Gale Summerfield, 2013-09-13 China's joining the World Trade Organization at the end of 2001 signifies a milestone in the country's global integration after two decades of economic reforms that have fundamentally transformed the economic organization of China This collection seeks to identify the gendered implications within China of the country's transition from socialism to a market economy and its opening up to international trade and investment The changes have created greater wealth for some while at the same time serious gender class ethnic and regional disparities have also emerged Drawing from historical analytical and policy oriented work the essays in this collection explore women's well being relative to men's in rural and urban China by looking at land rights labor market status and labor rights household

decision making health the representation of women in advertising and beauty pageants This book was previously published as a special issue of the journal Feminist Economics the official journal of the International Association for Feminist Economics IAFPE All contributions have been subjected to the journal s rigorous peer review process and comply with the journal s editorial policies as overseen by the editor Diana Strassmann and the journal s editorial team including the associate editors the editorial board numerous volunteer reviewers and the journal s in house editorial staff and freelance style editors The special issue and book have been made possible by the generous financial support of Rice University and the Ford Foundation Beijing

**The Evolutionary Biology of Human Female Sexuality** Randy Thornhill, Steven W. Gangestad, 2008 This title introduces a theoretical framework for understanding women s sexuality based on comparative female sexuality across all vertebrate animals It shows that estrus is present in human females contrary to earlier research
