Reekies Architectural Drawing:

Reekie's Architectural Drawing Fraser Reekie, Tony McCarthy, 1995-07-17 Reekie's Architectural Drawing is the new title chosen for the latest revision of the author's classic text *Draughtsmanship Architectural and Building Graphics*. The book remains faithful to its original aim of introducing beginners to a wide range of traditional techniques. Text and illustrations have been updated throughout and a new section on the application of computer graphics is included. Widely used and respected for many years, this is a handy compendium of techniques for students in construction related courses in further or higher education.

Ise Reekies Architectural Drawing Elsevier Science & Technology Books, 1995-06-01 **Draughtsmanship** Ronald Fraser Reekie, 1957 **Basics Architecture 01: Representational Techniques** Lorraine Farrelly, 2008-01-08 *Basics Architecture 01 Representational Techniques* by Lorraine Farrelly explores the concepts and techniques used to represent architecture. It describes a broad array of methodologies for developing architectural ideas ranging from two and three dimensional conceptual sketches through to the working drawings required for the construction of buildings and offers a range of practical drawing methods showing how to present and plan layouts, make conceptual sketches, work with scale, use collage and photomontage to create contemporary images, along with techniques to prepare and plan design portfolios. The book also deals with a variety of media from those used in freehand sketching through to cutting edge computer modeling and drawing techniques. Using examples from leading international architects and designers along with more experimental student work, a broad range of interpretations, possibilities and applications are demonstrated. Students and practitioners will find this a useful and clear companion to a vital aspect of architectural design.

Managing the Building Design Process Gavin Tunstall, 2006-08-14 Takes the reader through each process in the designer's role from inception and planning through to the design and pre-contract administration. New edition covers Computer Aided Draughting and current issues such as sustainability, the needs of special groups and Construction Design and Management Legislation. Essential reading for students studying architecture, architectural technology, building and construction management.

Cut and Paste Urban Landscape Mira Engler, 2015-08-11 During the post-war era, the emerging consumer economy radically changed both the discourse and practice of architecture. It was a time where architecture became a mainstream commodity whose products sold through mass media, a time in which Thomas Gordon Cullen came to be one of Britain's best known twentieth century

architectural draftsmen Despite Cullen's wide acclaim there has been little research into his life and work particularly his printed images and his methods of operation This book examines Cullen's drawings and book design and also looks into his process of image making to help explain his considerable popularity and influence which continues to this day It presents the lessons Cullen had to offer in today's design culture and practice and looks into the post war consumerist design strategies that are still used today
