men and women about their actual experiences of heterosexual This interview material combined with excerpts from sexological and medical texts and features from film and television draws attention to the ways in which western cultural constructs influence our ideas and experiences of the body sex and gender Potts also uses deconstructive theory as a textual tool concentrating on how binary oppositions such as inside outside and mind body impact on our understandings of heterosexual and affect the power relations between women and men She also examines how the radical postmodern theories of the body and sexuality proposed by Irigaray Lyotard and Deleuze and Guattari disrupt such dualistic modes of understanding and experiencing sexualized bodies The Science Fiction of Sex will be of interest to those studying women and psychology as well as gender studies cultural studies feminist studies sociology philosophy public health and education Get Real!
