Reflections Along A Political Journey:

Psychoanalytic Reflections on Politics Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics Fatherlands in mothers hands is a playful exploration of how people's desires, fantasies and emotions shape political events and social phenomena. It highlights the mythical sources of today's political projects, the power of political imagination and the function of symbolism in political thought. Eszter Salgó argues that the driving force for the formation of political communities is fantasy, illusions in a Winnicottian sense, phantasies in a Lacanian sense, phantoms as described by Nicolas Abraham and Maria Torok, and dreams as interpreted by Sándor Ferenczi. She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people's deeply felt desire to find in public life the resolution, love and wholeness of early childhood and to unveil the political elite's readiness to don the mask of the ideal parent. The book is divided into two parts. The first part of the book explores the theories of Donald Winnicott and Jacques Lacan, the matrimony on the stage of politics between the good enough mother and the Symbolic Father, which inaugurates the story of democracy's fantastic family. The second part presents the fantastic families of selected countries such as Hungary, Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions. Psychoanalytic Reflections on Politics Fatherlands in mothers hands presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy. It will be of interest to psychoanalysts and academics from across the disciplines of politics, psychology, anthropology, sociology, philosophy, literature and art. *Reflections on Political Theory* N. Wood, 2001-12-18 In this thought provoking study Neal Wood challenges the conception of political theory as a lofty discipline remote from the world of real politics. Drawing on the examples of thinkers from Plato to those of the nineteenth century, he attempts to define political theory by examining the nature of the state and politics by identifying the major characteristics that their theories share and by analyzing the conditions that have favoured their creation. Wood critically explores the two principle approaches to studying the work of past theorists, the philosophical and historical, and evaluates the relevance of Marxism. The various theories are not treated as blueprints but collectively as a voice of reason from the past which can inspire and guide present and future theorizing. *The Works of the Right Honorable Edmund Burke ...: Political miscellanies. Reflections on Learning, Life and Work Maureen Ryan, 2012-10-26 This book records the stories of doctoral study experiences of the twenty-two writers. These research degree experiences are embedded in the lives and careers of the writers and the twenty-two distinctive projects draw from those individual lives and careers.
