Reflections Of Nz A Human Touch:

Bodies as Sites of Cultural Reflection in Early Childhood Education Rachael S. Burke, Judith Duncan, 2014-10-30
Taking the body as a locus for discussion Rachael S Burke and Judith Duncan argue not only that implicit cultural practices shape most of the interactions taking place in early childhood curricula and pedagogy but that many of these practices often go unnoticed or unrecognized as being pedagogy Current scholars inspired by Foucault acknowledge that the body is socially and culturally produced and historically situated it is simultaneously a part of nature and society as well as a representation of the way that nature and society can be conceived Every natural symbol originating from the body contains and conveys a social meaning and every culture selects its own meaning from the myriad of potential body symbolisms Bodies as Sites of Cultural Reflection in Early Childhood Education uses empirical examples from qualitative fieldwork conducted in New Zealand and Japan to explore these theories and discuss the ways in which children s bodies represent a central focus in teachers pedagogical discussions and create contexts for the embodiment of children s experiences in the early years

Reflections of New Zealand Firstpic, 2005-09-09 Language, Identity and Diversity in Picturebooks Nicola Daly, 2024-10-28 This book presents a range of perspectives on the way language diversity and identity are reflected in New Zealand children s literature based on the published research of Nicola Daly an associate professor in the Division of Education of the University of Waikato and her colleagues The book is organised into two sections The first section examines the use of Te Reo M ori and English in the text of New Zealand picturebooks exploring the linguistic landscape of M ori English bilingual picturebooks The second section The Pedagogical Potential of Picturebooks explores how picturebooks featuring M ori English New Zealand Sign Language NZSL and Pacific languages reflect identity and support diversity in society Research from several educational contexts ranging from kindergarten to university where picturebooks are used to support learning language and learning about language is also discussed Themes of language identity and diversity are explored throughout the two sections and brought together in the concluding chapter s discussion of the power of picturebooks This book will be of interest to scholars in children s literature and education it may also be relevant to scholars in linguistics library and information studies cultural studies and media and communication studies **Touch in Sports**

Coaching and Physical Education Heather Piper, 2014-08-07 In our increasingly risk averse society touch and touching behaviours between professionals and children have become a fraught issue In sports coaching and physical education touching young sports performers and participants has in some contexts come to be redefined as dubious and dangerous Coaches find themselves operating in a framework of regulations and guidelines that create anxiety for them and others and for many volunteer and sometimes professional coaches this fearful context has led them to question the risks and benefits of their continuing involvement in sport Touch in Sports Coaching and Physical Education is the first book to explore this difficult topic in detail Drawing on a series of international studies from the US UK Australia Canada Sweden and elsewhere

it presents important new research evidence and examines theories of risk and moral panic that frame the discussion By challenging prevailing orthodoxies the book makes a significant contribution to critical discussion around practice pedagogy politics and policy in sport and physical education and also informs current debates around the nature and quality of all in loco parentis relationships **Promoting Reflection on Language Learning** Neil Curry,Phoebe Lyon,Jo

Mynard,2023-09-12 This book brings together a wide range of studies practical applications and reflective accounts written by academics working at a university in Japan to present a cohesive overview of their collaborative efforts to promote learner reflection within their institution The book contributes to a shift in language education towards promoting learner responsibility and ownership of their learning through developing a deeper sense of awareness of and motivation for the learning process It makes a convincing case for showing that not only is promoting reflection possible but it can also be effectively integrated into language learning activities with significant benefits to the learners The chapters are highly practical for researchers and practitioners with the research chapters containing instruments which make them ideal for replication studies The text includes a wealth of practical tools and activities for practitioners who will be able to experience first hand how to facilitate student success and increase satisfaction **New Zealand Dental Journal** ,1986 [Patient & Person - E-Book Epub](#)
