Biofictions Josie Gill, 2020-02-20 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Winner of the 2020 British Society for Literature and Science book prize In this important interdisciplinary study Josie Gill explores how the contemporary novel has drawn upon and intervened in debates about race in late 20th and 21st century genetic science Reading works by leading contemporary writers including Zadie Smith Kazuo Ishiguro Octavia Butler and Colson Whitehead *Biofictions* demonstrates how ideas of race are produced at the intersection of science and fiction which together create the stories about identity racism ancestry and kinship which characterize our understanding of race today By highlighting the role of narrative in the formation of racial ideas in science this book calls into question the apparent anti racism of contemporary genetics which functions narratively rather than factually or objectively within the racialized contexts in which it is embedded In so doing *Biofictions* compels us to rethink the long asked question of whether race is a biological fact or a fiction calling instead for a new understanding of the relationship between race science and fiction

Tabula Rasa Duana Fullinwider, 2024-04-23 Duana Fullinwider has penned an intimate chronicle of laboratory life in the genomic age She presents many of the influential scientists at the forefront of genetics who have redefined how we practice medicine and law and understand ancestry in an era of big data and waning privacy Exceedingly relatable and human the scientists in these pages often struggle for visibility teeter on the tightrope of inclusion and work tirelessly to imprint the future As they actively imagine a more equal and just world they often find themselves ensnared in reproducing timeworn conceits of race and racism that can seed the same health disparities they hope to resolve Nothing dynamic can live for long as a blank slate an innocent tabula rasa But how the blank slate of the once raceless human genome became one of racial differences in various forms of what Fullinwider calls the *tabula rasa* has a very specific and familiar history one that has cycled through the ages in unexpected ways

Ancestors and Relatives Eviatar Zerubavel,2012-01-26 Noted social scientist Eviatar Zerubavel casts a critical eye on how we trace our past individually and collectively arguing that rather than simply find out who our ancestors are from genetics or history we actually create the stories that make them our ancestors *Daniels v. Canada* Nathalie Kermaal,Chris Andersen,2021-04-23 In Daniels v Canada the Supreme Court determined that M tis and non status Indians were Indians under section 91 24 of the Constitution Act 1867 one of a number of court victories that has powerfully shaped M tis

relationships with the federal government However the decision and the case continues to reverberate far beyond its immediate policy implications Bringing together scholars and practitioners from a wide array of professional contexts this volume demonstrates the power of Supreme Court of Canada cases to directly and indirectly shape our conversations about and conceptions of what Indigeneity is what its boundaries are and what Canadians believe Indigenous peoples are owed Attention to Daniels v Canada s variegated impacts also demonstrates the extent to which the power of the courts extend and refract far deeper and into a much wider array of social arenas than we often give them credit for This volume demonstrates the importance of understanding law beyond its jurisprudential manifestations but it also points to the central importance of respecting the power of court cases in how law is carried out in a liberal nation state such as Canada *The Cambridge Handbook of Linguistic Anthropology* N. J. Enfield,Paul Kockelman,Jack Sidnell,2014-09-11 The field of linguistic anthropology looks at human uniqueness and diversity through the lens of language our species special combination of art and instinct Human language both shapes and is shaped by our minds societies and cultural worlds This state of the field survey covers a wide range of topics approaches and theories such as the nature and function of language systems the relationship between language and social interaction and the place of language in the social life of communities Promoting a broad vision of the subject spanning a range of disciplines from linguistics to biology from psychology to sociology and philosophy this authoritative handbook is an essential reference guide for students and researchers working on language and culture across the social sciences **Incest** Jonathan H. Turner,Alexandra Maryanski,2015-12-03 Throughout history humans have been fascinated with incest Stories fables literature philosophers church officials and scientists have explored this mysterious topic The taboo is critical to human survival as incest threatens the species and patterns of human social organization Drawing upon the rich legacy of theory empirical data and speculation about the origins of the incest taboo this book develops a new explanation for not only the emergence of the taboo in hominid and human evolutionary history but also for the varying strength of the taboo for the incestuous dyads of the nuclear family the different rates of incest of these dyads and the dramatic differences the psychological pathology incest has on its younger victims Synthesizing findings from biology sociobiology neurology primatology clinical psychology anthropology and sociology the authors weave together a scenario of how natural selection initially generated mechanisms of sexual avoidance and then as the nuclear family emerged in hominid and human evolution how sociocultural selection led to the development of the incest taboo *Children of Time* Anne H. Weaver,2012-04-15 The stories in this book bring our distant ancestors to life through the eyes of their children Each carefully researched chapter is based on an actual child fossil a baby a five year old a young adolescent and teenagers The stories are made up but they are based on real bones teeth stone tools ashes pollen and Ice Age art From publisher description [The Myth of Post-Racial America](#) H. Roy Kaplan,2011-02-16 The Myth of Post Racial America provides a history of race and racism in the United States These concepts became integral parts of American society through social

psychological and political decisions which are documented so readers can learn about the origin of myths and stereotypes that have created schisms in our society from its founding to the present day This information is essential reading for students and teachers so they can become more effective in their work and value cultural differences modes of expression and learning styles
