Building resilience & supporting mental health in bereaved youth through sports Theo Gavrielides, This ebook presents the results of the Footsteps Forward project carried out by the RJ4All International Institute with support from the London Violence Reduction Unit of the Mayor of London It was carried out in 2024 in South East London working directly

with young people aged 14 18 who were affected by loss and serious youth violence It used the RjiNEAR resilience model drawn from restorative justice and positive psychology principles It aimed to test a hypothesis whereby the delivery of combined group multi sports and therapeutic activities guided by the RjiNEAR ethos will lead to improved well being and resilience outcomes for young people affected by serious youth violence and loss The project bridges an important caveat in the extant literature focusing on structured support for these youth Among the findings the project illustrated that it created a safe space for grief expressions and sports engagement Additionally a moderate correlation was observed between RjiNEAR and the support received for grief To cite this ebook Gavrielides T 2024 Building resilience supporting mental health in bereaved youth through sports Findings from the Footsteps Forward project A restorative justice RjiNEAR approach London RJ4All Publications ISBN 978 1 80463 062 4 DOI 10 13140 RG 2 2 15572 72322 **Against the Grain** ,2002 The Biopsychosocial-Spiritual Approach: Towards a Holistic Understanding and Treatment of Drug Addiction Rev. Dr. Joyzy Pius Egunjobi,2016-05-18 In recent times there has been attention shift in the approach to treatment of health related issues from just biological psychological social or spiritual approaches to a holistic approach of an integrated biopsychosocial spirituality The same trend has occurred in field of addiction that the past 20 years have witnessed various authors in the addiction field proposing biopsychosocial spiritual model of addiction treatment This book therefore focuses on how the person of an addict can be treated holistically through an integrated biopsychosocial spirituality addressing not just the addiction problem but repairing all that addiction has damaged and or soiled restoring a total person *Organizing through Empathy* Kathryn Pavlovich,Keiko Krahnke,2013-09-11 Empathy dissolves the boundaries between self and others and feelings of altruism towards others are activated This process results in more compassionate and caring contexts as well as helping others in times of suffering This book provides evidence from neuroscience and quantum physics that it is empathy that connects humanity and that this awareness can create a more just society It extends interest in values based management exploring the intellectual physical ecological spiritual and aesthetic well being of organizations and society rather than the more common management principles of maximising profit and efficiency This book challenges the existing paradigm of capitalism by providing scientific evidence and empirical data that empathy is the most important organizing mechanism The book is unique in that it provides a comprehensive review of the transformational qualities of empathy in personal organizational and local contexts Integrating an understanding based upon scientific studies of why the fields of positive psychology and organizational scholarship are important it examines the evidence from neuroscience and presents leading edge studies from quantum physics with implications for the organizational field Together the chapters in this book attempt to demonstrate how empathy helps in the reduction of human suffering and the creation of a more just society
