

You carry away with you a reflection
of me, a part of me. I dreamed you;
I wished for your existence. You will
always be a part of my life. If I love
you, it must be because we shared, at
some moment, the same imaginings,
the same madness, the same stage.

Reflective Love:

Love's Reflections Betty McLain, 2021-12-02 Who's the hunk Cindy sees in the mirror? Life working at the art gallery was pretty ordinary until Cindy's employers brought home three antique mirrors from Italy. Rumored to be magic, they boasted the ability to show a girl her true love. As Cindy unpacked the mirrors, she was startled to see a man looking back where her reflection should have been. James Michaels was shocked to see the woman's face in his mirror while he shaved. A police officer, he was accustomed to things he could explain. What he couldn't explain was how this woman he'd never met kept appearing in mirrors throughout town. Through intrigue and danger, Cindy and James try to discover who lives behind the reflections in the mirror. But will the two ever meet, or will they have to be content with only the mirror image? Betty's note: each book in the *Love's Magic* series is a standalone romance novel and can be enjoyed even if you haven't read other books in the series.

Love's Oneing Kerrie Hide, 2022-11-08 Grounded in Christian love mysticism, *Love's Oneing* gives voice to the luminous consciousness that awakens from within our oneness in God in contemplation. With great sensitivity, the book offers nuanced insight into the marriage of kenosis and desire in contemplation through the rich tapestry of writings from nine mystics: Julian of Norwich, the Cloud of Unknowing, author Meister Eckhart, Mechthild of Magdeburg, Clare of Assisi, John of the Cross, Teilhard de Chardin, Beatrice Bruteau, and Ilia Delio. With the delicate eye of a spiritual director immersed in mystical literature, Kerrie Hide situates these mystical teachings within contemplative prayer whilst offering a scholarly exploration of contemplative practice to embody the insights. Deeply grounded in traditional and contemporary mystical classics, Hide celebrates how the Christian mystical tradition lays a foundation for the evolutionary growth of communion, consciousness, and the insights of quantum science, highlighting key moments in contemplation that when surrendered into open, divine love, born of intellectual reflection, lived experience, and contemplative wisdom. *Love's Oneing* makes a unique contribution to the existing literature on contemplation at a time when the recovery of the mystical dimension of life is crucial for the future of our planet in this climate crisis moment.

Immediacy and Reflection in Kierkegaard's Thought Paul Cruysberghs, Johan Taels, Karl Verstrynge, 2003 We live in a reflective age. That is Søren Kierkegaard's overall conclusion when evaluating the time he lives in. But his appraisal contains both approval and criticism. On the one hand, reflection is a necessary category to deal with the dynamics and the qualities of the modern age; on the other hand, it bears a great danger. It is Kierkegaard's firm conviction that reflection should always relate to a kind of immediacy that safeguards it from becoming hollow and detached from our existential reality. Throughout the voluminous and complex work of Kierkegaard, the notions of immediacy and reflection play a crucial role. They appear in such an early work as *From the Papers of One Still Living* as well as in the late *Anti-Climacus* writings, and indeed their significance or influence can be felt in all philosophical texts published in between. That is not to say that the meaning of the notions is unequivocal. After all, Kierkegaard not only uses the terms in very divergent contexts but his own understanding of them appears to evolve quite

strongly in the course of his oeuvre Moreover in spite of their clearly philosophical character the two notions play an unmistakable role in Kierkegaard's understanding of religion They appear frequently in the religious discourses indeed In short Kierkegaard's use of the notions of immediacy and reflection covers a broad array of meanings and interpretations The dialectics of immediacy and reflection of reflection killing immediacy and raising the question of the possibility of a new immediacy is the main theme of Immediacy and Reflection in Kierkegaard's Thought The book contains contributions authored by a number of well known Kierkegaard scholars Kierkegaard's theory of the existence spheres of life provides a first viewpoint on the interplay of immediacy and reflection Here the philosophical and pseudonymous writings are the main subject of research If on the other hand one pays a closer look at the significance of a second immediacy for a religious attitude to life The religious discourses come into play when the possibility of a second immediacy is taken into consideration In conclusion the theme of immediacy and reflection is connected to some important trends in the modern and contemporary era On the one hand it is linked to the philosophical influences Kierkegaard underwent e.g. from Hegel on the other hand Kierkegaard is confronted with later thinkers Heidegger in particular

Love and Politics Alice Ormiston, 2012-02-01 Alice Ormiston's *Love and Politics* argues that modern politics is rooted not merely in the pursuit of power but that it is essentially underpinned by the experience of love Hegel understood love as a principle that unites reason and emotion and self and other and that provides the foundation for a deep sense of connectedness to the world and for genuine acts of autonomy Through an original and highly accessible interpretation of Hegel's works Ormiston shows how the modern commitment to individual rights and freedoms can only be adequately understood by reference to the experience of love that lies at the foundation of the modern subject and its political expression in acts of conscience Hegel's thought thus joins forces with feminist arguments for an embodied theory of the subject and for a focus on empathy in political reasoning with republican concerns about democracy and civic education and with postmodern concerns about the otherness of certain experiences and forms of knowledge Ormiston's book offers a developed concept of the subject that can serve as a foundation for resistance to problems of our time including atomism and instrumental rationality the ills of an unfettered capitalism and the reality of a radical evil

Volume 17: Kierkegaard's Pseudonyms Katalin Nun, Jon Stewart, 2016-12-05 One of the

elements that many readers admire in Kierkegaard's skill as a writer is his ability to create different voices and perspectives in his works. Instead of unilaterally presenting clear cut doctrines and theses he confronts the reader with a range of personalities and figures who all espouse different views. One important aspect of this play of perspectives is Kierkegaard's controversial use of pseudonyms. The present volume is dedicated to exploring the different pseudonyms and authorial voices in Kierkegaard's writing. The articles featured here try to explore each pseudonymous author as a literary figure and to explain what kind of a person is at issue in each of the pseudonymous works. The hope is that by taking seriously each of these figures as individuals we will be able to gain new insights into the texts which they are ostensibly responsible for.

Passionate Impressions in Love's Reflection Cherie Leigh, 2020-12-07 It becomes obvious to anyone who gets to know me that I am a hopeless romantic. I am not sure what instigated my sentimentality over love and romance but I have an affinity for all things that exhibit the beautiful qualities of passion. The incredible holding power of love should not be taken for granted even as it can either profoundly entice or greatly elude. The full effects of love's intensity move me with deep appreciation. Some may say that I live in a fantasy world with my notions about romantic love but I don't let that bother me. I just hop on my magical unicorn and ride off into the sunset. I use my poetry to express intensity of emotions whether it be to entice, delight, mystify, enlighten, ache or touch. Sometimes even through love's painful experiences there can be profound beauty taken from it that leaves lasting impressions. For love in all its reflections has much to teach us about its purpose as the most powerful force in existence. Since the beginning of time as we know it it has lived and breathed its testimony serving to inspire. This collection of poetry came together for publication from encouragement from friends and fellow peer poets who believe in me. I have always enjoyed writing but the past few years have been pivotal times of creativity. I have changed from a woman seeking deliverance from pain to a woman experiencing inexplicable passion. The obsession of love has become an innate part of my personality that needs to express itself in words. I guess you could say I am smitten about anything written about love. My hope is for the readers of my poetry to experience an emotional connection or perhaps find release through my various themes of love. Some of my love poems take on a tone of spirituality while others embrace aspects of sensuality. But all show phases and faces of love in need of expression. For as mysterious as love can be it always makes its presence known in one form or another with unmistakable impact. Welcome to my world of *Passionate Impressions in Love's Reflection*.

Kierkegaard and Issues in Contemporary Ethics Méliissa Fox-Muratón, 2020-10-26 While Kierkegaard's

philosophy focuses on concrete human existence his thought has rarely been challenged regarding concrete and contemporary moral issues This volume offers an overview of contemporary ethical issues from a Kierkegaardian perspective deliberately taking him out of the sphere of Theology and Christian Ethics and examining the ways in which his works can provide fruitful insight into questions which Kierkegaard certainly never himself envisaged such as accepting refugees into our communities understanding how we relate to social media issues of identity with regard to bioengineering or transgender identity or problems of interreligious dialogue The contributions in this volume by international scholars seek to address both the challenges and insights of Kierkegaard s existential ethics for our contemporary societies and its relation to topics of current interest in the field of moral philosophy The volume is organized into three major sections the first focusing on the relation between ethics and religion a topic of primary importance with regard to the development of religious foundationalism and the challenges of dealing with diverse belief systems within our communities the second on our understandings of ourselves and our relations to others with regard to issues of media and community and the third targeting more specifically questions of identity and the ways in which the developments of modern science impact identity construction This work offers new paths for critically engaging with the moral issues of our times from an existential perspective
