

REFLECTIVE TEACHING

Reflective Teacher Development In Primary Science

Norman G. Lederman, Sandra K. Abell

Reflective Teacher Development In Primary Science:

Reflective Teacher Development in Primary Science Peter Ovens, 2005-08-10 Dominant theories about primary science contend that knowledge is the key Ovens challenges this view showing through case studies that inquiry and reflection play a significant part in the learning process This applies to pupils teachers and teacher educators Taking curiosity as a pre condition for good learning Ovens shows that it is possible to increase the desire to learn more and learn better to improve confidence in the ability to inquire to imbue pupils with the courage to seek improvement to place trust in collaborative processes to raise awareness of significant detail and to encourage open mindedness

Handbook of Research on Science Education Sandra K. Abell, Ken Appleton, Deborah Hanuscin, 2013-03-07 This state of the art research Handbook provides a comprehensive coherent current synthesis of the empirical and theoretical research concerning teaching and learning in science and lays down a foundation upon which future research can be built The contributors all leading experts in their research areas represent the international and gender diversity that exists in the science education research community As a whole the Handbook of Research on Science Education demonstrates that science education is alive and well and illustrates its vitality It is an essential resource for the entire science education community including veteran and emerging researchers university faculty graduate students practitioners in the schools and science education professionals outside of universities The National Association for Research in Science Teaching NARST endorses the Handbook of Research on Science Education as an important and valuable synthesis of the current knowledge in the field of science education by leading individuals in the field For more information on NARST please visit <http://www.narst.org>

Using Digital Video in Initial Teacher Education John McCullagh, 2025-02-28 A research based critical yet practical exploration of the benefits of using digital video in teacher education Digital video is easy to use and student teachers find it incredibly helpful Since Dwight Allen first used microteaching five decades ago video has been recognised as an ideal medium for capturing the complex nature of teaching Through its accurate and honest representation of reality it reveals both the cognitive and affective aspects of learning to teach This book serves as a theory related rationale and a practice informed critical guide for teacher educators considering how best to use video within their programmes It explores how video technology can be used to enrich learning in both higher education and school settings enhancing the continuity of the learning experience Using evidence based examples of best practice and critical discussions relating theory and policy to practice it encourages teacher educators to engage with the use of video technology and explore how it meets the needs of learners and the current requirements of initial teacher education

Reflective Theory and Practice in Teacher Education Robyn Brandenburg, Kathryn Glasswell, Mellita Jones, Josephine Ryan, 2017-03-30 This book offers a detailed examination of reflective practice in teacher education In the current educational context where reflective practice has been mandated in professional standards for teachers in many countries it analyses research based evidence for the power of

reflective practice to shape better educational outcomes The book presents multiple theoretical and practical views of this often taken for granted practice so that readers are challenged to consider how factors such as gender and race shape understandings of reflective practice Documenting approaches that enhance learning the contributions discuss reflective practice across the globe with a focus on pre service in service and university teachers At a time when there is pressure to measure teachers work through standardised tests the book highlights the professional thinking that is integral to teaching and demonstrates ways it can be encouraged in beginning teachers Aimed at the international community of teacher educators in schools and universities it also includes a critical examination of methodological issues in analysing and evaluating reflective practice and showcases the kind of reflective practice that empowers teachers and pre service teachers to make a difference to students

Reconstructing Teacher Education John Elliott, 2012 This book maps out a new paradigm of teacher education and by implication professional education generally The book opens with two alternative theories of teacher education and training and explains the concepts and assumptions on which they rest including beliefs about the nature and role of education in society It then proposes a natural science paradigm and its implications for establishing a coherent view of teacher education Subsequent chapters indicate the professional implications of such a model

Routledge Library Editions: Education Mini-Set N Teachers & Teacher Education Research 13 vols

Various, 2021-06-23 Dealing with all aspects of teacher education in the past 50 years the 13 books in this set originally published between 1969 and 1996 discuss how the education system in the UK has changed the impact of restructuring on teachers teacher expectations around the world and other important topics in the sociology of education and teacher research

Classroom Discourse and Teacher Development Steve Walsh, 2013-05-20 This textbook shows how classroom discourse can be applied to develop and improve teaching Combining examples from everyday practice with theoretical approaches it provides a comprehensive account of current perspectives on classroom discourse

[Handbook of Research on Science Education, Volume II](#) Norman G. Lederman, Sandra K. Abell, 2014-07-11 Building on the foundation set in Volume I a landmark synthesis of research in the field Volume II is a comprehensive state of the art new volume highlighting new and emerging research perspectives The contributors all experts in their research areas represent the international and gender diversity in the science education research community The volume is organized around six themes theory and methods of science education research science learning culture gender and society and science learning science teaching curriculum and assessment in science science teacher education Each chapter presents an integrative review of the research on the topic it addresses pulling together the existing research working to understand the historical trends and patterns in that body of scholarship describing how the issue is conceptualized within the literature how methods and theories have shaped the outcomes of the research and where the strengths weaknesses and gaps are in the literature Providing guidance to science education faculty and graduate students and leading to new insights and directions for future research the Handbook

of Research on Science Education Volume II is an essential resource for the entire science education community **New Teaching and Teacher Issues** Mary B. Klein, 2006 Teaching is a profession which is so enormous and so packed with significance that the issues related to it have a consistently high ranking with members of society in virtually every public opinion poll These issues include multicultural education teacher training and accreditation burn out teaching under conditions particular to a world wide certain country student behaviour and preparation computers in the classroom parental influence on the teaching process the changing curriculum and its meaning for teaching budgetary problems and a multitude of similar issues This book presents issues current to the field from educators and researchers from around the globe
